from Filmmakers and Critics Stephen M. Ringler,2008-05-03 The cinema isn t a slice of life it s a slice of cake Alfred Hitchcock If you make a popular movie you start to think where have I failed Woody Allen A film is the world in an hour and a half Jean Luc Godard I think you have to be slightly psychopathic to make movies David Cronenberg This compendium contains more than 3 400 quotations from filmmakers and critics discussing their craft About 1 850 film people are included

P. Telotte,2019-07-11 What impact did the new art of film have on the development of another new art the emerging science fiction genre during the pre and early post World War II era Focusing on such popular pulp magazines as Amazing Stories Astounding Stories and Wonder Stories this book traces this early relationship between film and literature through four common features stories that involve film or the film industry film related advertising editorial matters and readers letters commenting on film and the magazines heralded cover and story illustrations By surveying these haunting traces of another medium in early science fiction discourse we can begin to see the key role that a cinematic mindedness played in this formative era and to expand the early history of science fiction as a cultural idea beyond the usual boundaries that have been staked out by its literary manifestations and the genre s historians Fallout Lesley M.M. Blume,2021-08-10 ONE of THE NEW YORK TIMES S 100 NOTABLE BOOKS of the YEAR A VANITY FAIR and TOWN COUNTRY BEST BOOK of the YEAR New York Times bestselling author Lesley M M Blume reveals how one courageous American reporter uncovered one of the deadliest cover ups of the

20th century the true effects of the atom bomb potentially saving millions of lives Just days after the United States decimated Hiroshima and Nagasaki with nuclear bombs the Japanese surrendered unconditionally But even before the surrender the US government and military had begun a secret propaganda and information suppression campaign to hide the devastating effects of these then experimental weapons For nearly a year the cover up worked until New Yorker journalist John Hersey got into Hiroshima and managed to report the truth to the world When the magazine published Hiroshima in August 1946 it became an instant global sensation and inspired pervasive horror about the hellish new threat that America had unleashed Since 1945 no nuclear weapons have ever been deployed in war partly because Hersey alerted the world to their true devastating impact This knowledge has remained among the greatest deterrents to using them since the end of World War II Released on the anniversary of the Hiroshima bombing Fallout is an engrossing detective story as well as an important piece of hidden history that shows how one heroic scoop saved and can still save the world *The Hollywood Reporter* ,2006
