*The CIA and the Congress for Cultural Freedom in the Early Cold War* Sarah Miller Harris, 2016-08-05 This book questions the conventional wisdom about one of the most controversial episodes in the Cold War and tells the story of the CIA's backing of the Congress for Cultural Freedom For nearly two decades during the early Cold War the CIA secretly sponsored some of the world's most feted writers philosophers and scientists as part of a campaign to prevent Communism from regaining a foothold in Western Europe and from spreading to Asia By backing the Congress for Cultural Freedom the CIA subsidized dozens of prominent magazines global congresses annual seminars and artistic festivals When this operation QKOPERA became public in 1967 it ignited one of the most damaging scandals in CIA history Ever since then many accounts have argued that the CIA manipulated a generation of intellectuals into lending their names to pro American anti Communist ideas Others have suggested a more nuanced picture of the relationship between the Congress and the CIA with intellectuals sometimes resisting the CIA's bidding Very few accounts however have examined the man who held the Congress together Michael Josselson the Congress's indispensable manager and secretly a long time CIA agent This book fills that gap Using a wealth of archival research and interviews with many of the figures associated with the Congress this book sheds new light

Justin Hart, 2013-02-14 *Covering the period from 1936 to 1953 Empire of Ideas reveals how and why image first became a component of foreign policy prompting policymakers to embrace such techniques as propaganda educational exchanges cultural exhibits overseas libraries and domestic public relations Drawing upon exhaustive research in official government records and the private papers of top officials in the Roosevelt and Truman administrations including newly declassified material Justin Hart takes the reader back to the dawn of what Time Life publisher Henry Luce would famously call the American century when U S policymakers first began to think of the nation s image as a foreign policy issue Beginning with the Buenos Aires Conference in 1936 which grew out of FDR s Good Neighbor Policy toward Latin America Hart traces the dramatic growth of public diplomacy in the war years and beyond The book describes how the State Department established the position of Assistant Secretary of State for Public and Cultural Affairs in 1944 with Archibald MacLeish the Pulitzer Prize winning poet and Librarian of Congress the first to fill the post Hart shows that the ideas of MacLeish became central to the evolution of public diplomacy and his influence would be felt long after his tenure in government service ended The book examines a wide variety of propaganda programs including the Voice of America and concludes with the creation of the United States Information Agency in 1953 bringing an end to the first phase of U S public diplomacy Empire of Ideas remains highly relevant today when U S officials have launched full scale propaganda to combat negative perceptions in the Arab world and elsewhere Hart s study illuminates the similar efforts of a previous generation of policymakers explaining why our ability to shape our image is in the end quite limited*
