## **Prenatal Screening Policies And Values The Example Of Neural Tube Defects:**

*Prenatal Screening, Policies, and Values* Elena O. Nightingale, 1987      **Prenatal Testing and Disability Rights** Erik Parens, Adrienne Asch, 2000-09-28 As prenatal tests proliferate the medical and broader communities perceive that such testing is a logical extension of good prenatal care it helps parents have healthy babies But prenatal tests have been criticized by the disability rights community which contends that advances in science should be directed at improving their lives not preventing them Used primarily to decide to abort a fetus that would have been born with mental or physical impairments prenatal tests arguably reinforce discrimination against and misconceptions about people with disabilities In these essays people on both sides of the issue engage in an honest and occasionally painful debate about prenatal testing and selective abortion The contributors include both people who live with and people who theorize about disabilities scholars from the social sciences and humanities medical geneticists genetic counselors physicians and lawyers Although the essayists don't arrive at a consensus over the disability community's objections to prenatal testing and its consequences they do offer recommendations for ameliorating some of the problems associated with the practice      **Medical Professional Liability and the Delivery of Obstetrical Care** Institute of Medicine, Division of Health Promotion and Disease Prevention, Committee to Study Medical Professional Liability and the Delivery of Obstetrical Care, 1989-02-01 The second volume of an overall look at the malpractice crisis sheds fresh light on the civil justice and insurance systems medical liability issues and their combined effect on health care for mothers and children Topics include the liability implications of the rising rate of Cesarean sections an evaluation of the American Medical Association's proposed alternative to the justice system for resolving medical liability disputes and a review of legislative proposals under consideration      **AIDS, Women, and the Next Generation** Ruth R. Faden, Gail Geller, Madison Powers, 1991 The proliferation of Acquired Immune Deficiency Syndrome AIDS among women and children represents one of the gravest health issues confronting contemporary society Women most of childbearing age now constitute 11 percent of all cases and the U S Public Health Service has projected over 3 000 cases of pediatric AIDS by the end of 1991 In the face of these sobering statistics experts have been called upon to grapple with a difficult compelling question under what conditions if any should HIV testing of women and children be required Also at issue are the surreptitious testing for HIV antibodies as part of routine prenatal and neonatal examinations and whether such testing should be performed on all women and infants or only those who belong to groups judged at high risk In this unique contribution to the debate about HIV screening and testing Ruth Faden Madison Powers and Gail Geller have assembled perspectives from experts in public health medicine law and ethics Their wide ranging treatment examines the history of prenatal and neonatal screening programs informed consent legal issues and confidentiality reproductive decision making and numerous other aspects of HIV testing Alternative policy options for both now and the future are discussed in detail This volume provides a comprehensive analysis of these pressing medical public health legal ethical and

social issues and is essential reading for AIDS researchers and clinicians public health specialists ethicists health policymakers and analysts obstetricians and pediatricians

**Medical Professional Liability and the Delivery of Obstetrical Care** Committee to Study Medical Professional Liability and the Delivery of Obstetrical Care, Institute of Medicine, 1989-01-15 This is the first part of an in depth study focusing on medical liability and its effect on access to and delivery of obstetrical care The book addresses such questions as Do liability concerns impede the use of new technologies Have liability issues affected the physician patient relationship Are community health and maternity centers being harmed What specific remedies are being considered and what are their prospects for success
