author supports the idea of all language as metaphorical unlike many rhetoricians and philosophers of science who have proclaimed all language as metaphorical but have allowed a distinction between a metaphorical use of language and a literal use For technical communication pedagogy the implications of this study suggest foregrounding metaphor in textbooks and in the classroom Though many technical communication textbooks recommend metaphor as a rhetorical strategy some advise avoiding it and those that recommend it usually do so in a paragraph or two with little direction for students on how to recognize metaphors or to how use them This book provides the impetus for a change in the pedagogical approach to metaphor as a rhetorical tool with epistemological significance     ENC Focus ,2000     **Prentice Hall Chemistry : Connections to Our Changing World** ,     Chemistry H.
