Preparing For Service A History Of Higher Education In The Church Of God:

Preparing for Service Barry L. Callen, 1988 *Making Good the Claim* Rufus Burrow, 2016-02-16 The Church of God Reformation Movement founded in 1881 has the distinction of having been founded on the two core principles of holiness and visible unity Standard histories of the group proudly argue that the founder and pioneers exhibited a zeal for interracial unity that began to wane only in the early years of the twentieth century This book rejects that claim and argues instead that little to no extant hard evidence supports that view Moreover *Making Good the Claim* argues that while blacks eagerly joined the group they did so not because whites expended much energy evangelizing among them but because they heard something deeper in the message of holiness and visible unity than God's expectation that members achieve spiritual and church unity Unlike most whites blacks interpreted the message to call for unity along racial lines as well This book challenges members of the Church of God to begin forthwith to make good their historic claim about holiness and visible unity particularly as it applies to interracial unity *An Encyclopedia of Religions in the United States* William Bedford Williamson, 1992

What Happened in the Garden Abner Chou,2016 Evangelicals are no strangers to the creation versus evolution debate Now the argument has spread beyond the contents of the creation account and into Genesis 2 3 with speculation about the historicity of Adam and the fall But does it matter which position one holds Is anything really at stake The faculty of The Master s College come together to contend that the second and third chapters of Genesis are indeed historical that there are excellent reasons for believing so and that it is an essential issue within Christian thought and life The contents of these chapters establish the history of how everything in the world came to be what it is today This Scripture passage Genesis 3 especially explains what we observe in the legal system literature gender roles education psychology and science Far from irrelevant the theology and historicity of Genesis are in fact critical to our everyday lives What Happened in the Garden includes new scientific literary business educational and legal perspectives on creation Through this multidisciplinary look at the debate the contributors prove that to change our understanding of the fall is to change the way we understand reality to revise the Christian worldview and to reshape the faith itself
