London's Working-Class Youth and the Making of Post-Victorian Britain, 1958-1971 Felix Fuhg,2021-05-20 This book examines the emergence of modern working class youth culture through the perspective of an urban history of post war Britain with a particular focus on the influence of young people and their culture on Britain s self image as a country emerging from the constraints of its post Victorian imperial past Each section of the book Society City Pop and Space considers in detail the ways in which working class youth culture corresponded with a fast changing metropolitan and urban society in the years following the decline of the British Empire Was teenage culture rooted in the urban experience and the

transformation of working class neighbourhoods Did youth subcultures emerge simply as a reaction to Britain's changing racial demographic To what extent did leisure venues and institutions function as laboratories for a developing British pop culture which ultimately helped Britain re-establish its prominence on the world stage These questions and more are answered in this book

**Representations of Technology in Science Fiction for Young People , Historical Dictionary of Children's Literature** Emer O'Sullivan,2023-04-24 History is constantly evolving and the history of children's literature is no exception Since the original publication of Emer O'Sullivan's Historical Dictionary of Children's Literature in 2010 much has happened in the field of children's literature New authors have come into print new books have won awards and new ideas have entered the discourse within children's literature studies Historical Dictionary of Children's Literature Second Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 700 cross-referenced entries This book will be an excellent resource for students scholars researchers and anyone interested in the field of children's literature studies

**Screen Adaptations and the Politics of Childhood** Robyn McCallum,2018-01-16 This book features a cutting edge approach to the study of film adaptations of literature for children and young people and the narratives about childhood those adaptations enact Historically film media has always had a partiality for the adaptation of classic literary texts for children As economic and cultural commodities McCallum points out how such screen adaptations play a crucial role in the cultural reproduction and transformation of childhood and youth and indeed are a rich resource for the examination of changing cultural values and ideologies particularly around contested narratives of childhood The chapters examine various representations of childhood as shifting states of innocence and wildness liminality marginalisation and invisibility The book focuses on a range of literary and film genres from classic texts to experimental carnivalesque magical realist and cross-cultural texts

To See the Wizard Laurie Ousley,2021-02-19 To See the Wizard Politics and the Literature of Childhood takes its central premise as the title indicates from L. Frank Baum's The Wonderful Wizard of Oz Upon their return to The Emerald City after killing the Wicked Witch of the West the task the Wizard assigned them Dorothy the Tin Woodman Scarecrow and Lion learn that the wizard is a humbug merely a man from Nebraska manipulating them and the citizens of both the Emerald City and of Oz from behind a screen Yet they all continue to believe in the powers they know he does not have still insisting he grant their wishes The image of the man behind the screen and the reader's continued pursuit of the Wizard is a powerful one that has at its core an issue central to the study of children's literature the relationship between the adult writer and the child reader As Jack Zipes Perry Nodelman Daniel Hade Jacqueline Rose and many others point out before the literature for children and young adults actually reaches these intended readers it has been mediated by many and diverse cultural social political psychological and economic forces These forces occasionally work purposefully in an attempt to consciously socialize or empower training the reader into a particular identity or way of viewing the world by one who considers him or herself an advocate for children Obviously these wizards

acting in literature can be the writers themselves but they can also be the publishers corporations school boards teachers librarians literary critics and parents and these advocates can be conservative progressive or any gradation in between It is the purpose of this volume to interrogate the politics and the political powers at work in literature for children and young adults Childhood is an important site of political debate and children often the victims or beneficiaries of adult uses of power one would be hard pressed to find a category of literature more contested than that written for children and adolescents Peter Hunt writes in his introduction to *Understanding Children's Literature* that children's books are overtly important educationally and commercially with consequences across the culture from language to politics most adults and almost certainly the vast majority in positions of power and influence read children's books as children and it is inconceivable that the ideologies permeating those books had no influence on their development If there were a question about the central position literature for children and young adults has in political contests one needs to look no further than the myriad struggles surrounding censorship Mark I West observes for instance Throughout the history of children's literature the people who have tried to censor children's books for all their ideological differences share a rather romantic view about the power of books They believe or at least they profess to believe that books are such a major influence in the formation of children's values and attitudes that adults need to monitor every word that children read Because childhood and young adulthood are the sites of political debate for issues ranging from civil rights and racism to the construction and definition of the family indoctrinating children into or subverting national and religious ideologies the literature of childhood bears consciously political analysis asking how socialization works how children and young adults learn of social cultural and political expectations as well as how literature can propose means of fighting those structures To See the Wizard Politics and the Literature of Childhood intends to offer analysis of the political content and context of literature written for and about children and young adults The essays included in To See the Wizard analyze nineteenth and twentieth century literature from America Britain Australia the Caribbean and Sri Lanka that is for and about children and adolescents The essays address issues of racial and national identity and representation poverty and class mobility gender sexuality and power and the uses of literature in the healing of trauma and the construction of an authentic self

Second-Generation Memory and Contemporary Children's Literature Anastasia Ulanowicz, 2013-09-02 Winner of the Children's Literature Association Book Award This book visits a range of textual forms including diary novel and picturebook to explore the relationship between second generation memory and contemporary children's literature Ulanowicz argues that second generation memory informed by intimate family relationships textual mediation and technology is characterized by vicarious rather than direct experience of the past As such children's literature is particularly well suited to the representation of second generation memory insofar as children's fiction is particularly invested in the transmission and reproduction of cultural memory and its form promotes the formation of various complex intergenerational relationships Further children's books that depict second

generation memory have the potential to challenge conventional Western notions of selfhood and ethics This study shows how novels such as Lois Lowry's *The Giver* 1993 and Judy Blume's *Starring Sally J Freedman as Herself* 1977 both of which feature protagonists who adapt their elders' memories into their own mnemonic repertoires implicitly reject Cartesian notions of the unified subject in favor of a view of identity as always already social, relational and dynamic in character This book not only questions how and why second generation memory is represented in books for young people but whether such representations of memory might be considered radical or conservative Together these analyses address a topic that has not been explored fully within the fields of children's literature, trauma and memory studies and Holocaust studies

**Representations of Technology in Science Fiction for Young People** Noga Applebaum, 2009-09-10 In this new book Noga Applebaum surveys science fiction novels published for children and young adults from 1980 to the present exposing the anti technological bias existing within a genre often associated with the celebration of technology Applebaum argues that perceptions of technology as a corrupting force particularly in relation to its use by young people are a manifestation of the enduring allure of the myth of childhood innocence and result in young adult fiction that endorses a technophobic agenda This agenda is a form of resistance to the changing face of childhood and technology's contribution to this change Further Applebaum contends that technophobic literature disempowers its young readers by implying that the technologies of the future are inherently dangerous while it neglects to acknowledge children's complex yet pleasurable interactions with technology today The study looks at works by well known authors including M T Anderson, Monica Hughes, Lois Lowry, Garth Nix and Philip Reeve and explores topics such as ecology, cloning, the impact of technology on narrative structure and the adult-child hierarchy While focusing on the popular genre of science fiction as a useful case study Applebaum demonstrates that negative attitudes toward technology exist within children's literature in general making the book of considerable interest to scholars of both science fiction and children's literature Portals of Power Lori M. Campbell, 2010-03-08

Fantasy writing like literature in general provides a powerful vehicle for challenging the status quo Via symbolism, imagery and supernaturalism fantasy constructs secondary world narratives that both mirror and critique the political paradigms of our own world This critical work explores the role of the portal in fantasy investigating the ways in which magical nexus points and movement between worlds are used to illustrate real world power dynamics especially those impacting women and children Through an examination of high and low fantasy, fairy tales, children's literature, the Gothic and science fiction the portal is identified as a living being, place or magical object of profound metaphorical and cultural significance

publishing contexts They identify ongoing global entanglements with local identities and tensions between national and post national literary discourses considering Aotearoa New Zealand s history as a white settler colony and its status as a bicultural nation and a key player in the Asia Pacific region active on the global stage Topics and authors include Stefanie Herades on colonial New Zealand literature and the global marketplace Claudia Marquis on David Hare s Aotearoa series as exotic reading for adolescents Paloma Fresno Calleja on the exoticizing landscape novels of Sarah Lark James Wenley on Indian Ink Theatre company as hybrid export Janet M Wilson on the globalization of the New Zealand short story Chris Prentice on pedagogic articulations of New Zealand literature Leonie John on the challenges of teaching M ori literature in Germany Dieter Riemenschneider on New Zealand literature at the Frankfurt Book Fair Paula Morris on Commonwealth writers and the Booker Prize Selina Tusitala Marsh on contemporary Pasifika poetry and Chris Miller on the afterlife of Allen Curnow The chapters in this book were originally published as a special issue of the Journal of Postcolonial Writing

**Identity, Motivation and Memory** Sarah Kayss, 2018-09-03 This book explores the connection between British and German officer cadets perceptions of the past and their motivations for enlisting in the military forces in the United Kingdom and Germany Drawing upon qualitative interviews and survey data conducted at officers academies in the UK and Germany the author offers a comparative analysis using differing approaches towards history and memory in Britain and Germany while considering the roles of individual goals and societal orientations in the decision to enlist Employing the notion of pragmatic professionalism which reflects the fact that occupational and institutional reasons for enlisting are not opposite points on a single scale Professionalism Memory and Identity examines history orientated reasons for enlistment by shedding light on officer cadets values beliefs and wider cultural understandings of the past With attention to differences in motivation as a result of differing national backgrounds and former military training as well as the extent to which these divergences contribute to the emergence of different types of soldiers in the two countries this comparative international study will appeal to scholars of sociology politics and war studies with interests in the military profession and the role of history in contemporary Britain and Germany
