Presence Movie Review Jacinto C Walker, 2025-03-14 What if the scariest presence wasn't what you saw but what you became In *Presence* director Steven Soderbergh redefines the supernatural thriller by taking audiences on an immersive journey through the eyes of a ghost This groundbreaking film places viewers inside the perspective of an unseen entity watching over a grieving family subtly influencing events and revealing haunting truths about loss trauma and the unseen forces that bind us But is the presence a protector or a tormentor And how does its existence alter the fate of those it lingers around This in depth review unpacks the film's bold storytelling its unique cinematography and the chilling themes that blur the lines between psychological horror and supernatural suspense Whether you're a cinephile a horror enthusiast or simply looking for a fresh take on ghost stories this analysis offers a deeper understanding of *Presence* and its place in modern horror cinema

Ghostly Past, Capitalist Presence Tithi Bhattacharya, 2024-07-19 In *Ghostly Past Capitalist Presence* Tithi Bhattacharya maps the role that Bengali

ghosts and ghost stories played in constituting the modern Indian nation and the religious ideas seeded therein as it emerged in dialogue with European science Bhattacharya introduces readers to the multifarious habits and personalities of Bengal's traditional ghosts and investigates and mourns their eventual extermination For Bhattacharya British colonization marked a transition from the older multifaith folk world of traditional ghosts to newer and more frightening specters These modern Bengali ghosts borne out of a new rationality were homogeneous specters amenable to scientific speculation and invoked at séance sessions in elite drawing rooms Reading literature alongside the colonial archive Bhattacharya uncovers a new reordering of science and faith from the middle of the nineteenth century She argues that these shifts cemented the authority of a rising upper caste colonial elite who expelled the older ghosts in order to recast Hinduism as the conscience of the Indian nation In so doing Bhattacharya reveals how capitalism necessarily reshaped Bengal as part of the global colonial project

The Politics of Presence John G. Sabol Jr.,2008-08-27 A major focus of ghost excavation as opposed to ghost hunting is an archaeology of experience The emergence of this experience is unearthed through the investigative engagement of haunted space One aspect of this engagement is performance which requires a specific sociocultural and historical context of understanding This context of understanding must be understood in terms of layers of meaning Gettysburg is used as a specific example of the use of performative and dramatical activity Each of these activities performed at Gettysburg predisposes a genre a set of beliefs practices social relations manifestations and locations which together define categorically what it is that is manifesting on the battlefield and what interpretations are being used to understand these performative cultural practices The genres of performative action at Gettysburg are important because they are located at places on the battlefield where belief systems become mobilized into actual practice This book will explore various haunting uncertainties and cultural situations associated with ghostly activity and the implications of these performances as they are enacted by ghost hunters Civil War re-enactors the tourism industry and the ghosts themselves

Phantom Past, Indigenous Presence Colleen E. Boyd,2011 The imagined ghosts of Native Americans have been an important element of colonial fantasy in North America ever since European settlements were established in

the seventeenth century Native burial grounds and Native ghosts have long played a role in both regional and local folklore and in the national literature of the United States and Canada as settlers struggled to create a new identity for themselves that melded their European heritage with their new North American frontier surroundings In this interdisciplinary volume Colleen E Boyd and Coll Thrush bring together scholars from a variety of fields to discuss this North American fascination with the phantom Native American Phantom Past Indigenous Presence explores the importance of ancestral spirits and historic places in Indigenous and settler communities as they relate to territory and history in particular cultural political social historical and environmental contexts From examinations of how individuals reacted to historical cases of hauntings to how Native phantoms have functioned in the literature of North Americans to interdisciplinary studies of how such beliefs and narratives allowed European settlers and Indigenous people to make sense of the legacies of colonialism and conquest these essays show how the past and the present are intertwined through these stories

Presences and Absences - Transdisciplinary Essays Katarína Labudova,Nóra Séllei,2013-10-03 This volume discusses the question of presence and or absence from a transdisciplinary perspective and intends to provide insights into how a wide range of disciplines addresses this issue which has been at the centre of philosophical theoretical and critical debates in the past decades As the essays in the volume prove apparently diverse areas can have a lot in common and talk to each other in sometimes surprising ways The topics discussed include modals in various languages and black slave funeral sermons pragmatic markers and the Australian Stolen Generation the transcendental in poems by Ann Bradstreet Arthur Symons and Philip Larkin short stories by Katherine Mansfield generic presences in Virginia Woolf and contemporary journalism haunting presences in fin de siècle ghost stories and in a contemporary horror film mythical structures in John Cowper Powys and Margaret Atwood and gender politics in Pat Barker and Sarah Waters The analyses as they talk to each other create multiple dialogues without imposing closures and ultimate interpretations on the plethora of possible meanings emerging from the juxtaposition of these essays This transdisciplinary volume written in an erudite but reader friendly language will be of great interest to both the academic world as well as a broader readership interested in how linguistic phenomena in general cultural myths of all kinds various cinematic literary and journalistic genres from diverse periods can be approached and opened up to new readings and meanings from the perspective of presences and absences

From Shadow to Presence Jelena Šesnic,2007-01-01 This volume departs from a more static concept of identity politics to engage the varied and entangled processes of ethnic racial national and gender identifications in a range of contemporary US ethnic texts from the mid 1960s to the mid 1990s Recognizing the growing salience of variously named ethnic multicultural and minority literatures as they are produced and circulated in the USA and worldwide nowadays this work charts four broadly defined models of approaching such texts cultural nationalism ethnic feminism borderlands and contact zones and finally the diasporic model Drawing extensively on psychoanalytic theory feminist gender studies critical race theory postcolonial theory and its revision of ethnography the

book offers a fresh engaged theoretically and analytically well rehearsed overview of the distinctive and determining features of a rapidly expanding domain of contemporary US literary production namely ethnic literatures Of potential interest to scholars of American US literature but also minority and postcolonial literatures and to students of American literature the book attempts an interethnic comparative approach to well and lesser known texts Among the authors represented are Shawn Wong Oscar Zeta Acosta Toni Morrison Maxine Hong Kingston Sherman Alexie Denise Ch vez Rolando Hinojosa Roberto Fern ndez and Edwidge Danticat *The Soul's Upward Yearning* Robert Spitzer, 2015-08-10 Since the early twentieth century scientific materialism has so undermined our belief in the human capacity for transcendence that many people find it difficult to believe in God and the human soul The materialist perspective has not only cast its spell on the natural sciences psychology philosophy and literature it has also enthralled popular culture which offers very little to encourage the soul's upward yearning There are many signs of the widespread loss of confidence in our ability to soar upward and these have been noted by thinkers as diverse as Carl Jung psychiatrist Mircea Eliade historian of religion Gabriel Marcel philosopher and authors C S Lewis and J R R Tolkien Their observations were validated by a 2004 study published in the American Journal of Psychiatry that linked the absence of religion with a marked increase in suicide meaninglessness substance abuse separation from family members and other psychological problems Thus the loss of transcendence is negatively affecting an entire society It is stealing from countless individuals their sense of happiness dignity ideals virtues and destiny Ironically the evidence for transcendence is greater today than in any other period in history The problem is this evidence has not been compiled and made widely available a challenge Father Spitzer aspires to meet with this book Father Spitzer's work provides a bright light in the midst of the darkness by presenting traditional and contemporary evidence for God and a transphysical soul from several major sources It shows that we are transcendent beings with souls capable of surviving bodily death that we are self reflective beings aware of and able to strive toward perfect truth love goodness and beauty that we have the dignity of being created in the very image of God If we underestimate these truths we undervalue one another underlive our lives and underachieve our destiny

Stage Presence Jane Goodall,2008-04-21 Focusing on examples of live performance in drama dance opera and light entertainment Jane Goodall explores a characteristic as compelling and enigmatic as the performers who demonstrate it The mysterious quality of presence in a performer has strong resonances with the uncanny It is associated with primal animal qualities in human individuals but also has connotations of divinity and the supernatural relating to figures of evil as well as heroism Stage Presence traces these themes through theatrical history This fascinating study also explores the blend of science and spirituality that accompanies the appreciation of human power Performers display a magnetism of their audiences they electrify them exhibit mesmeric command and develop chemistry in their communication Case studies include Josephine Baker Sarah Bernhardt Thomas Betterton David Bowie Maria Callas Bob Dylan David Garrick Barry Humphries Henry Irving Vaslav Nijinsky and Paul Robeson

Haunting Experiences Diane Goldstein,Sylvia Grider,Jeannie Banks Thomas,2007-09-15 Ghosts and other supernatural phenomena are widely represented throughout modern culture They can be found in any number of entertainment commercial and other contexts but popular media or commodified representations of ghosts can be quite different from the beliefs people hold about them based on tradition or direct experience Personal belief and cultural tradition on the one hand and popular and commercial representation on the other nevertheless continually feed each other They frequently share space in how people think about the supernatural In Haunting Experiences three well known folklorists seek to broaden the discussion of ghost lore by examining it from a variety of angles in various modern contexts Diane E Goldstein Sylvia Ann Grider and Jeannie Banks Thomas take ghosts seriously as they draw on contemporary scholarship that emphasizes both the basis of belief in experience rather than mere fantasy and the usefulness of ghost stories They look closely at the narrative role of such lore in matters such as socialization and gender And they unravel the complex mix of mass media commodification and popular culture that today puts old spirits into new contexts
