*Preservation Versus the People?* , Preservation Versus the People? Mathew Humphrey,2002 *The Asian Yearbook of Human Rights and Humanitarian Law* Matthias Vanhullebusch,Steve Foster,Ben Stanford,2024-10-07 The Asian Yearbook of Human Rights and Humanitarian Law aims to publish peer reviewed scholarly articles and reviews as well as significant developments in human rights and humanitarian law It examines international human rights and humanitarian law with a global reach though its particular focus is on the Asian region Volume 8 of the Yearbook covers a wide range of topics focusing on accountability under various legal regimes which have been organized along four parts Governance and Accountability Justice and Accountability Economic and Social Justice and Violence and Accountability **Ethics and World Politics** Duncan Bell,2010-03-25 The book opens with a discussion of different methods and approaches employed to study the subject including analytical political theory post structuralism and critical theory It then surveys some of the most prominent perspectives on global ethics including cosmopolitanism communitarianism of various kinds theories of international society realism postcolonialism feminism and green political thought Part III examines a variety of more specific issues including immigration democracy human rights the just war tradition and its critics international law and global poverty and inequality Publisher description **Engaging with Literature of Commitment. Volume 2** ,2012-01-01 This collection ranges far and wide as befits the personality and accomplishments of the dedicatee Geoffrey V Davis German studies and exile literature scholar postcolonialist if there are specialties then Australia Canada India South Africa Black Britain journal and book series editor The volume opens with essays on cultural theory and practice proceeds to close analyses of settler colony texts from Canada India Australia and New Zealand drama fiction and poetry as well as Pacific drama and Canadian indigeneity thence homeward to the UK black drama Scottish fiction the music of Morrissey and to German themes exile literature fictions about Hitler Because Geoff s commitment to literature has always been hands on the book closes with a selection of poems and experimental prose Writers discussed include Carmen Aguirre Hany Abu Assad Beryl Bainbridge Albert Belz Peter Bland Peter Carey Lynda Chanwai Earle Kamala Das Robert Drewe ric Emmanuel Schmitt Toa Fraser Stephen Fry Dianna Fuemana Mavis Gallant Alasdair Gray Xavier Her bert Janette Turner Hospital Elizabeth Jolley Wendy Lill Varanasi Nagalakshmi Arundhati Roy Daniel Sloate Drew Hayden Taylor Jane Urquhart Roy Williams and Arnold Zweig *Liberal Democracy and Environmentalism* Yoram Levy,Marcel Wissenburg,2004-07-31 In recent decades environmental issues have increasingly been incorporated into liberal democratic thought and political practice Environmentalism and ecogism have become fashionable even respectable schools of political thought This apparently successful integration of environmental movements issues and ideas in mainstream politics raises the question of whether there is a future for what once was a counter movement and counter ideology Liberal Democracy and Environmentalism provides a reflective assessment of recent developments social relevance and future of environmental political theory

concluding that although the alleged pacification of environmentalism is more than skin deep it is not yet quite deep enough This book will appeal to students and researchers of social science and philosophers with an interest in environmental issues

*Ecological Politics and Democratic Theory* Mathew Humphrey, 2007-09-12 This volume examines the reasons why some despair at the prospects for an ecological form of democracy and challenges the recent deliberative turn in environmental political thought Deliberative democracy has become popular for those seeking a reconciliation of these two forms of politics Demand for equal access to a public forum in which the best argument will prevail appears to offer a way of incorporating environmental interests into the democratic process This book argues that deliberative theory far from being friendly to the environmental movement shackles the ability those seeking radical change to make their voices heard in the most effective manner Mathew Humphrey challenges beliefs about the relationship between ecological politics and democracy at a time when those who take direct action are being swept up in the War on Terror By calling for a more open and contested form of democracy in which the boundaries of what constitutes acceptable behaviour are not decided in advance of actual debate *Ecological Politics and Democratic Theory* is an original contribution to the literature on environmental politics ecological thought and democracy

**Thought, Law, Rights and Action in the Age of Environmental Crisis** Anna Grear, Evadne Grant, 2015-07-31 In the climate pressed Anthropocene epoch nothing could be more urgent than fresh engagements with the fractious relationships between humanity law and the living order This timely book intelligently combines theoretical reflections doctrinal and

*Real Green* Manuel Arias-Maldonado, 2016-03-23 What would a sustainable society look like How could it be achieved By challenging conventional wisdom about the ecological crisis and reframing the traditional values of green politics *Real Green* Sustainability after the End of Nature offers new answers to the key questions of the environmental debate In this ground breaking and challenging work Manuel Arias Maldonado convincingly argues that since nature has now been transformed into a part of the human environment it can be seen to no longer exist Ecological problems thus become an inevitable and normal feature of our relationship with nature Hence a post natural environmentalism realistic and liberal while remaining green is advocated In this framework sustainability democracy and liberalism become mutually reinforcing elements rather than conflicting ones Only by combining them can a green society be realised

**Environment and Society** Manuel Arias-Maldonado, 2015-03-05 This short book sets out to explore the concept of nature in the context of a changing reality in which the extent of our transformation of the environment has become evident What is nature and to what extent has humanity transformed it How do nature and society relate to one another What does the idea of a sustainable society entail and how can nature be understood as a political subject What is the Anthropocene and how does it affect nature as both an idea and a material entity Has nature perhaps ended In addressing these questions the author delivers a concise but meaningful study of contemporary understandings of nature one that goes beyond the limits posed by a single discipline Adopting a truly comprehensive perspective the work incorporates classical disciplines such as philosophy

evolutionary theory and the history of ideas new and mixed approaches ranging from environmental sociology to neurobiology and ecological economics and the emerging area of the environmental humanities and represents a growing branch of political thought that views nature as a new political subject

**Non-State Actors and International Obligations** James Summers, Alex Gough, 2018-10-02 Non State Actors and International Obligations examines the contribution and relevance of non state actors in the creation and implementation of international obligations These actors have traditionally been marginalised within international law and ambiguities remain over their precise role Nonetheless they have become increasingly important in legal regimes as participants in their implementation and enforcement and as potential holders of duties themselves Chapters from academics and practitioners investigate different aspects of this relationship including the sources of obligations their implementation human rights aspects dispute settlement responsibility and legal accountability

**The Routledge Handbook of Environmental Justice** Ryan Holifield, Jayajit Chakraborty, Gordon Walker, 2017-09-14 The Routledge Handbook of Environmental Justice presents an extensive and cutting edge introduction to the diverse rapidly growing body of research on pressing issues of environmental justice and injustice With wide ranging discussion of current debates controversies and questions in the history theory and methods of environmental justice research contributed by over 90 leading social scientists natural scientists humanists and scholars from professional disciplines from six continents it is an essential resource both for newcomers to this research and for experienced scholars and practitioners The chapters of this volume examine the roots of environmental justice activism lay out and assess key theories and approaches and consider the many different substantive issues that have been the subject of activism empirical research and policy development throughout the world The Handbook features critical reviews of quantitative qualitative and mixed methodological approaches and explicitly addresses interdisciplinarity transdisciplinarity and engaged research Instead of adopting a narrow regional focus it tackles substantive issues and presents perspectives from political and cultural systems across the world as well as addressing activism for environmental justice at the global scale Its chapters do not simply review the state of the art but also propose new conceptual frameworks and directions for research policy and practice Providing detailed but accessible overviews of the complex varied dimensions of environmental justice and injustice the Handbook is an essential guide and reference not only for researchers engaged with environmental justice but also for undergraduate and graduate teaching and for policymakers and activists

**Cultural Heritage in International Economic Law** Valentina Vadi, 2023-03-27 Can cultural heritage be adequately protected vis vis economic globalization This book investigates whether and how international economic law governs cultural phenomena by mapping the relevant legal framework discussing the relevant disputes concerning cultural elements adjudicated before international economic courts namely the World Trade Organization adjudicative bodies and investment treaty arbitral tribunals and proposing legal methods to reconcile cultural and economic interests It thus provides a comprehensive evaluation of possible

solutions including evolution of the law through treaty interpretation and reforms to improve the balance between economic governance and cultural policy objectives

**Urgency in the Anthropocene** Amanda H. Lynch, Siri Veland, 2018-11-13 A proposal to reframe the Anthropocene as an age of actual and emerging coexistence with earth system variability encompassing both human dignity and environmental sustainability Is this the Anthropocene the age in which humans have become a geological force leaving indelible signs of their activities on the earth The narrative of the Anthropocene so far is characterized by extremes emergencies and exceptions a tale of apocalypse by our own hands The sense of ongoing crisis emboldens policy and governance responses that challenge established systems of sovereignty and law The once unacceptable geoengineering technology for example or authoritarian decision making are now anticipated and even demanded by some To counter this Amanda Lynch and Siri Veland propose a reframing of the Anthropocene seeing it not as a race against catastrophe but as an age of emerging coexistence with earth system variability Lynch and Veland examine the interplay between our new state of ostensible urgency and the means by which this urgency is identified and addressed They examine how societies including Indigenous societies have understood such interplays explore how extreme weather and climate weave into the Anthropocene narrative consider the tension between the short time scale of disasters and the longer time scale of sustainability and discuss both international and national approaches to Anthropocene governance Finally they argue for an Anthropocene of coexistence that embraces both human dignity and sustainability

**Marx and We** Sun Zhengyu, 2024-08-01. Marxist ideology is the only fully scientific ideology, the only one able to guide mankind toward the settlement of fundamental social problems and to point out the royal road for the proletariat to take in its march toward socialism and communism. Without Marxism, modern people cannot establish true social ideals nor can they engage in the rational pursuit of values. Without Marxism, modern people cannot choose the correct path of development nor can they build up new forms of civilizations. Without Marxism, modern people would never base their commitments to schedule the consensus-building effort and support the consensus-building process on any irrefutably and sufficiently sound theoretical foundations.
