Keith Booker, 2000-01-30 The work of James Joyce especially *Ulysses* can be fully understood only when the colonial and postcolonial context of Joyce's Ireland is taken into account Reading Joyce as a postcolonial writer produces valuable new insights into his work though comparisons of Joyce's work with that of African and Caribbean postcolonial writers provides reminders that Joyce regardless of his postcolonial status remains a fundamentally European writer whose perspective differs substantially from that of most other postcolonial writers In addition to exploring Joyce's writings in light of recent developments in postcolonial theory Booker employs a Marxist critical approach to assess the political implications of Joyce's work and examines the influence of Cold War anticommunism on previous readings of Joyce in the West Focusing on Karl Radek's criticisms of Joyce the volume begins with a detailed discussion of the rejection of Joyce's writings by many leftist critics It then examines those aspects of *Ulysses* that can be taken as a diagnosis and criticism of the social ills brought to Ireland by British capitalism The following chapters explore Joyce's language as part of his critique of capitalism the role of history in his works the failure of Joyce to represent the lower classes of colonial Dublin and the political implications of Joyce's writings *The Reception of James Joyce in Europe* Geert Lernout, Wim Van Mierlo, 2009-07-22 A major scholarly collection of international research on the reception of James Joyce in Europe *A Dictionary of Narratology* Gerald Prince, 2003-01-01 History literature religion myth film psychology theory and daily conversation all rely heavily on narrative Cutting across many disciplines narratology describes and analyzes the language of narrative with its regularly recurring patterns deeply established conventions for transmission and interpretive codes whether in novels cartoons or case studies Indispensable to writers critics and scholars in many fields *A Dictionary of Narratology* provides quick and reliable access to terms and concepts that are defined illustrated and cross referenced All entries are keyed to articles or books in which the terms originated or are exemplified This revised edition contains additional entries and updates some existing ones

**Equality Renewed** Christine Sypnowich, 2016-12-19 How should we approach the daunting task of renewing the ideal of equality In this book Christine Sypnowich proposes a theory of equality centred on human flourishing or wellbeing She argues that egalitarianism should be understood as seeking to make people more equal in the constituents of a good life Inequality is a social ill because of the damage it does to human flourishing unequal distribution of wealth can have the effect that some people are poorly housed badly nourished ill educated unhappy or uncultured among other things When we seek to

make people more equal our concern is not just resources or property but how people fare under one distribution or another Ultimately the best answer to the question equality of what is some conception of flourishing since whatever policies or principles we adopt it is flourishing that we hope will be more equal as a result of our endeavours Sypnowich calls for both retrieval and innovation What is to be retrieved is the ideal of equality itself which is often assumed as a background condition of theories of justice yet at the same time dismissed as too homogenising abstract and rigid a criterion for political argument We must retrieve the ideal of equality as a central political principle In doing so she casts doubt on the value of focussing on cultural difference and rejects the idea of neutrality that dominates contemporary political philosophy in favour of a view of the state as enabling the betterment of its citizens
