O'Sullivan, 2015-12-11 Animals Equality and Democracy examines the structure of animal protection legislation and finds that it is deeply inequitable with a tendency to favour those animals the community is most likely to see and engage with Siobhan O Sullivan argues that these inequities violate fundamental principle of justice and transparency      **AF Press Clips**, 1980      *AF Press Clips* United States Department of State. Bureau of African Affairs, 1980      **Political Ecologies of Meat** Jody Emel, Harvey Neo, 2015-05-15 Livestock production worldwide is increasing rapidly in part due to economic growth and demand for meat in industrializing countries Yet there are many concerns about the sustainability of increased meat production and consumption from perspectives including human health animal welfare climate change and environmental pollution This book tackles the key issues of contemporary meat production and consumption through a lens of political ecology which emphasizes the power relations producing particular social economic and cultural interactions with non human nature Three main topics are addressed the political ecology of global livestock production trends changes in production systems around the world and their implications for environmental justice and existing and emerging governance strategies for meat production and consumption systems and their implications Case studies of different systems at varying scales are included drawn from Asia Africa the Americas and Europe The book includes an editorial introduction to set the context and synthesize key messages for the reader      Cyclopedia of Farm Animals Liberty Hyde Bailey, 1922      **Neither Man Nor Beast** Carol J. Adams, 1995-12-01 In 1990 The Sexual Politics of Meat was published In just a few years the book became an underground classic Neither Man Nor Beast takes Adams thought one step further It represents her collected reflections on animal rights vegetarianism and ecofeminism from the often difficult to locate sources in which many originally appeared and includes two important and completely new chapters More than a book of theory Neither Man Nor Beast is an enlightened call to action Topics covered include animal experimentation and patriarchal culture abortion rights and animal rights responding to racism in a human centered world ecofeminism and the eating of animals the need to integrate feminism animal defense and environmentalism the interconnected abuse of women children and animals institutional violence feminist ethics and vegetarianism a beastly

theology the place of animals in God's universe      *The Routledge Handbook of Animal Ethics* Bob Fischer, 2019-12-06 There isn't one conversation about animal ethics. Instead, there are several important ones that are scattered across many disciplines. This volume both surveys the field of animal ethics and draws professional philosophers, graduate students, and undergraduates more deeply into the discussions that are happening outside of philosophy departments. To that end, the volume contains more nonphilosophers than philosophers, explicitly inviting scholars from other fields such as animal science, ecology, economics, psychology, law, environmental science, and applied biology among others to bring their own disciplinary resources to bear on matters that affect animals. The Routledge Handbook of Animal Ethics is composed of 44 chapters, all appearing in print here for the first time and organized into the following six sections: I Thinking About Animals, II Animal Agriculture and Hunting, III Animal Research and Genetic Engineering, IV Companion Animals, V Wild Animals Conservation, Management, and Ethics, VI Animal Activism. The chapters are brief, and they have been written in a way that is accessible to serious undergraduate students regardless of their field of study. The volume covers everything from animal cognition to the state of current fisheries, from genetic modification to intersectional animal activism. It is a resource designed for anyone interested in the moral issues that emerge from human interactions with animals.      **Hobby Farm Animals** Sue Weaver, Ann Larkin Hansen, Cherie Langlois, Arie McFarlen, Chris McLaughlin, 2015-04-21 Eggs, meat, milk, wool, fur, feathers, and some priceless bucolic bliss. No hobby farm is complete without critters, possibly a small herd peppering the field or a microflock flapping around the hen house or pond. A single information-packed volume with everything a hobby farmer needs to know about farm animals, this new comprehensive manual to selecting, caring for, and breeding livestock brings forth the expertise of five hobby farmers, each of whom has real life on the farm experience with the animals she discusses. Whether you're contemplating adding a small herd of sheep or goats to your existing hobby farm or you've always wondered about the benefits of raising angora rabbits or Muscovy ducks, *Livestock for Your Hobby Farm* provides the kind of guidance you need to begin a herd or flock and expand your pens and fencing. With exhaustive detail, the authors offer complete coverage of chickens, ducks, goats, sheep, cattle, pigs, and rabbits, including the housing, health care, special needs, advantages, and challenges of each. Extensive sections devoted to the seven major farm animals, including profiles of the most popular breeds and varieties. Detailed how-to chapters on the care, handling, feeding, health, and safety of each animal. Special chapters devoted to the breeding and raising of young animals. Recommendations for ways of capitalizing on your livestock's output from selling eggs, milk, fiber, and so forth. Tips for troubleshooting potential problems and warding off diseases, parasites, and predators.      **On Animals** David L. Clough, 2018-12-27 This book presents an authoritative and comprehensive survey of human practice in relation to other animals, together with a Christian ethical analysis building on the theological account of animals which David Clough developed in *On Animals* Volume I: Systematic Theology, 2012. It argues that a Christian understanding of other animals has radical implications for their treatment by humans, with the human use and abuse of non-

human animals for food the most urgent immediate priority Following an introduction examining the task of theological ethics in relation to non human animals and the way it relates to other accounts of animal ethics this book surveys and assess the use humans make of other animals for food for clothing for labour as research subjects for sport and entertainment as pets or companions and human impacts on wild animals The result is both a state of the art account of what humans are doing to other animals and a persuasive argument that Christians in particular have strong faith based reasons to acknowledge the significance of the issues raised and change their practice in response

The West Virginia School Journal ,1911 *Food in America* Andrew F. Smith,2017-02-16 This three volume work examines all facets of the modern U S food system including the nation s most important food and agriculture laws the political forces that shape modern food policy and the food

production trends that are directly impacting the lives of every American family Americans are constantly besieged by conflicting messages about food the environment and health and nutrition Are foods with genetically modified ingredients safe Should we choose locally grown food Is organic food better than conventional food Are concentrated animal feed operations destroying the environment Should food corporations target young children with their advertising and promotional campaigns This comprehensive three volume set addresses all of these questions and many more probing the problems created by the industrial food system examining conflicting opinions on these complex food controversies and highlighting the importance of food in our lives and the decisions we make each time we eat The coverage of each of the many controversial food issues in the set offers perspectives from different sides to encourage readers to examine various viewpoints and make up their own minds The first volume Food and the Environment addresses timely issues such as climate change food waste pesticides and sustainable foods Volume two entitled Food and Health and Nutrition addresses subjects like antibiotics food labeling and the effects of salt and sugar on our health The third volume Food and the Economy tackles topics such as food advertising and marketing food corporations genetically modified foods globalization and megagrocery chains Each volume contains several dozen primary documents that include firsthand accounts written by promoters and advertisers journalists politicians and government officials and supporters and critics of various views related to food and beverages representing speeches advertisements articles books portions of major laws and government documents to name a few These documents provide readers additional resources from which to form informed opinions on food issues

**The Commodification of Farm Animals** Sophie Riley, 2022-02-15 This book examines how the developments in veterinary science philosophy economics and law converged during the nineteenth and early twentieth centuries to entrench farm animals along a commodification pathway It covers two neglected areas of study the importance of international veterinary conferences to domestic regimes and the influence of early global treaties that dealt with animal health on domestic quarantine measures The author concludes by arguing that society needs to reconsider its understanding and the place of the welfare paradigm in animal production systems As it presently stands this paradigm can be used to justify almost any self serving reason to abrogate ethical principles The topic of this book will appeal to a wide readership not only scholars students and educators but also people involved in animal production interested parties and experts in the animal welfare and animal rights sector as well as policy makers and regulators who will find this work informative and thought provoking
