Press Freedom And Global Politics:

Press Freedom and Global Politics Douglas A. Van Belle, 2000-04-30 Van Belle provides the first systematic analysis of the effects that press freedom has on the conduct of international politics. The institutionalization of press freedoms within a state and the free flow of information between the free presses of different nations creates a foreign policy decision making environment that systematically limits policy options, generates domestic political imperatives and provides specific benefits to a leader. This shapes some aspects of foreign policy in a consistent and empirically identifiable manner, most notably by limiting international conflicts. When social psychological propositions regarding dehumanization and the acceptance of killing in war are introduced to Van Belle's model, shared press freedom is shown to provide a mechanism that prevents lethal conflicts. The effects of press freedom on international conflict, particularly on hypotheses related to escalating conflicts beyond the threshold of casualties, are quite robust. However, Van Belle indicates there is no evidence of a complimentary effect on cooperation. The combination of findings from the empirical analyses suggest that the key to the effects of press freedom center on the creation of images such as the dehumanized image of an enemy. A thoughtful analysis that scholars and researchers of foreign policy and international relations as well as journalism and mass communication will find particularly useful.

Connors, Rémy Davison, Jörn Dosch, 2017-10-30 Now in its new and fully updated third edition, *The New Global Politics of the Asia Pacific* continues to provide a compelling analysis of a region undergoing dramatic changes. Providing an introductory guide for the main frameworks needed to understand the region, including realism, liberalism and critical theory, this new edition is reader friendly and offers sophisticated competing explanations. Key content includes intra-regional conflicts in the South China Sea and the Korean peninsula. The different responses within the Asia Pacific to the globalization of Western ideas of democracy and political economy. The underappreciated success of the Association of Southeast Asian Nations in building a regional identity. The European Union's soft power in the region. A highly topical account which offers an overview of the main actors, institutions and contemporary issues in the Asia Pacific. The book will be essential reading for undergraduate students of Asian Studies, International Politics and anyone interested in the region.

The Greater Middle East in Global Politics Mehdi Amineh, 2007-10-30 This anthology unites in one volume two studies of the Greater Middle East in global politics, each conceptual and empirical. First, it is a historical comparative study of politics and societies in selected

Greater Middle Eastern countries from Napoleon's invasion of Ottoman Egypt in 1798 up until today. It addresses development and change in these societies as results of the complex interactions between external developments: the rise and expansion of European industrialized powers and internal developments: the disintegration of Islamic Empires, their transformation into nation states and their efforts to industrialize and modernize. Second, it is an empirical case study of states and societies of the Greater Middle East in global politics, addressing themes such as nationalism, revolution, political Islam, democracy, globalization, regionalism, war, energy and conflict, and cooperation. The book is comprised of three parts and nineteen chapters. Contributors include Mehdi Parvizi, Amineh Simon, Bromley, Robert M. Cutler, Louisa Dris, A. t. Hamadouche, S. N. Eisenstadt, Femke Hoogeveen, Henk Houweling, B. M. Jain, Mehran Kamrava, Roger Kangas, Fred H. Lawson, Prithvi Ram Mudiam, Nilgun Onder, Wilbur Perlot, Richard Pomfret, Kurt W.
