## **Press Freedom In Africa:**

**Press Freedom and Communication in Africa** Festus Eribo, William Jong-Ebot, 1997 Recent years have seen considerable growth in the media in Africa with increases in the number of newspapers and radio and television stations At the same time there has been an increase in the number of arrests of journalists and broadcasters and various forms of censorship have been introduced The essays in this volume examine press censorship past and present and bring a fresh perspective to the position of the mass media in the African continent *Press Freedom in Africa* Herman Wasserman, 2013-09-13 This book gives an overview of current debates surrounding press freedom in Africa in response to ongoing contestations between media and governments on the continent Through case studies of individual African countries as well as international comparisons a wide range of global contributors provide critical assessments of the state of press freedom on the continent and critical perspectives on the dominant discourses around freedom and democracy Some fear an alarming slide towards a media intolerant environment in South Africa and the proposed Media Appeals Tribunal and the Protection of State Information Bill POSIB have met with strong criticism from journalism practitioners and educators This book examines these and other recent developments seen to represent a threat to press freedom on the African continent Contributors to the volume take a comparative look at the situation in South Africa within a broader global context of transitions to democracy and globalised marketization of the media as well as inspecting specific African examples that may serve to illuminate broader trends Case studies from different African countries are examined but in the process the discourses around press freedom are also subjected to critical scrutiny Critics state that the South African media are not without fault and that part of journalism scholarship's role is to continue to point to these shortcomings and to suggest ways of improving the media's democratic responsibility *Press Freedom in Africa* provides a range of perspectives on the heated debates surrounding press freedom It illustrates the importance of research based scholarly interventions into the often emotional and rhetorical debates surrounding the role of the media in African society This book was originally published as a special issue of *Ecquid Novi African Journalism Studies* *In Defence of Press Freedom in Africa: An Essay* Tatah Mentan, 2015-08-06 When Africa stumbled into independence in the 1960s the blossoming of newspapers of nearly every political persuasion was widely hailed as a critical stepping stone toward true multiparty democracy However rather than marking a clean break with an authoritarian past the era of multiparty politics in Africa has been a time of increased hardship and repression for journalists who dare criticize powerful incumbents Media repression continues to rise After decades of retreat authoritarian regimes are using social media and other sophisticated systems in a new era of repression to thwart democracy and trample human rights For consecutive decades the state of freedom has declined more people in more places face more repression While systemic torture in war torn Somalia and the return of a military dictatorship in Egypt captured headlines there is also widespread insidious and 21st century style surveillance elsewhere with abuse or

imprisonment or both of political activists For the media to play its role as priests of democracy Tatah Mentan maintains that media freedom must be rigorously defended as integral to the democratic way of life Tabloid Journalism and Press Freedom in Africa Brian Chama,2020-09-18 This book studies tabloid journalism newspapers within the broader context of press freedom in Africa After defining tabloid journalism and professional practices within various political contexts the book then proceeds to consider tabloids in Southern Africa and emerging cyberspace laws Many factors of press freedom are considered including the impact of public order and national security laws on tabloids in North Africa the impact of defamation laws on tabloids in West Africa the impact of the fake news laws on tabloids in East Africa and the impact of sedition and treason laws on tabloids in Central Africa Exploring tabloid journalism and press freedom in Arabic Portuguese and Francophone speaking countries across Africa this book is a unique addition to this emerging field The book concludes by providing a synthesis of the developing patterns from the cases analysed and by looking to the future to make recommendations and map the challenges and the successes **PRESS FREEDOM IN POST-APARTHEID SOUTH**

**AFRICA** Emperor Thembu 2nd Votani Majola,2015-12-10 During the era of apartheid in South Africa press was severely curtailed and subject to repressive laws The dawn of democracy liberated the press in more ways than one The purpose of this study is to examine to what extent in practice a free press in South Africa is able to report freely without hindrances Several challenges have been observed even during this era of democracy most notably being the racism in the media among many others Several recommendations have been suggested in this study suggesting methods that could be used to address these challenges **Press Freedom in Africa** Gunilla Faringer,1991-06-24 This is an authoritative study on the role of mass media in Third World development Using broad historical economic and political perspectives Gunilla L Faringer details the obstacles to a genuinely free mass circulation press in Black Africa and offers a thorough analysis of the African press The volume s six chapters meticulously catalog all pertinent data on press development performance and goals in English speaking sub Saharan Africa with primary focus on Ghana Nigeria and Kenya countries that represent three different courses of political development Faringer critically analyzes widely held attitudes among scholars and international organizations as to the role of mass media in Third World development Her findings challenge the prevalent belief that the primary task of Third World media is to function as a tool for economic development Outlining both present and future responsibilities of Third World mass media Press Freedom in Africa stresses the need for deeper understandings by mass media policy makers of the importance that history macroeconomic structure and political traditions hold in the Third World The detailed introduction considers the philosophical issues that underlie the crucial role of mass media in political change and national development Faringer surveys the unique obstacles confronting African nations as they have attempted to develop their own comprehensive media structures Subsequent chapters trace the history of newspapers in Black Africa before World War II survey the role of the press in the independence movement and examine the changing relations between government and

press Two final chapters offer a critical perspective on press freedoms and functions and lay the groundwork for a more realistic concept of the press in the Third World This up to the minute resource will find broad acceptance for courses in international journalism African studies Third World development communications and mass media government and politics of Africa area studies political science political economy and civil rights      *Media in Africa* Toks Dele Oyedemi, René A. Smith, 2024-05-20 A comprehensive and accessible introduction this book examines a range of issues pertaining to theory history and critiques of media in Africa Featuring contributions from global scholars that represent both new and established voices on the African continent and the diaspora this volume explores themes of decolonization media freedom media censorship identity representation pluralism media framing political economy of the media with emphasis on ownership market trends and transnational media operations in Africa Contributors explore these and other topics across a variety of media tiers types genres and platforms The book also features contributions from practicing journalists and media practitioners working in Africa providing students with hands on knowledge from the field Chapters in this volume take an instructional approach with contributors engaging key concepts and related theories to explore the praxis of media in Africa through specific case studies An essential text for students of media communication journalism and cultural studies who are studying media in Africa as well as those studying global media      **The Routledge Companion to Business in Africa** Sonny Nwankwo, Kevin Ibeh, 2014-07-25 Although the world's poorest inhabited continent Africa has recently shown signs of being a source of economic growth in the coming decades with increased foreign investment notably from China and huge growth in GDP from a number of African states In contrast to the heaving weight of books focusing on business opportunities in Asia Eastern Europe and Latin America Africa has been poorly served by academic publishing This compendium of scholarship offers cutting edge knowledge relating to business in Africa The objectives of this collection include To shed new light on the socio cultural and historical underpinnings of business practice in Africa and their implications for promoting entrepreneurship and business behaviour in the region To consider the important constraints on business activities in Africa and the emerging best practice for redressing their real and potential impacts To facilitate a better understanding of contemporary business practice in Africa through the application of relevant theories and models including emergent ones The Routledge Companion to Business in Africa is a comprehensive reference resource that provides the perfect platform for embarking on research and study into Africa from the business perspective      Media Capture in Africa and Latin America Hayes Mawindi Mabweazara, Bethia Pearson, 2024-11-20 How can current debates on media capture be understood within the contexts of Africa and Latin America This edited collection provides a nuanced exploration of media capture a critical yet contested concept that examines and illuminates how media can become skewed in favour of power while also highlighting spaces and strategies of resistance By adopting a South South perspective it brings together scholars focused on these issues in both regions featuring a dialogue between two leading scholars Herman Wasserman and Silvio Waisbord in the Foreword

The book not only demonstrates how media practices in Africa and Latin America are influenced by the political economy of their media systems but also contributes significantly to advancing empirical theoretical and comparative research on media in non Western settings

**Media and Democracy in Africa** Michael Leslie, 2017-07-05 Recent discussion of democratization in Africa has focused primarily on the reform of formal state institutions the public service the judiciary and the legislature Similarly both scholars and activists have shown interest in how associational life and with it a civil society might be enhanced in the countries of the African continent Much less concern however has been directed to the communications media although they form a vital part of this process Media and Democracy in Africa provides the first comprehensive and up to date assessment of the role of the media in political change in sub Saharan Africa The central argument of the volume is that while the media may still be relatively weak compared to their positions in liberal democracies they have come to play a much more important role than ever before since independence Although they have not yet demonstrated sufficient effectiveness as public watchdogs and agenda setters they have succeeded in creating new communicative spaces for people who have previously been intimidated or silent Building on this the contributors argue that a different conceptualization of democratization than the mainstream currently uses may be necessary to capture the process in Africa where it is characterized by contestation rather than consolidation This volume shows that the media scene in Africa is diverse It stretches from the well developed and technologically advanced situation in South Africa to the still fledgling media operations that are typical in sub Saharan Africa In these countries print media as well as television and radio are just beginning to take their place in society and do so using simple and often outdated technology The volume also examines how these growing outlets are supplemented by informal media the so called radio trottoir or rumor mill whereby the autocratic and bureaucratic direction of public affairs are subject to private speculation and analysis Media and Democracy in Africa is organized to provide a historical perspective on the evolution of the African media placing the present in the context of the past including both colonial and post colonial experiences It will be of interest to Africa area specialists students of media and communications political scientists and sociologists

**Press Freedom in Africa** ,1975 *Press Freedom and the (crooked) Path Toward Democracy* Meghan Sobel Cohen, Karen McIntyre Hopkinson, 2023 Media scholars generally suggest that as people gain access to mass media content they increasingly support democracy and reject authoritarian rule Much of the scholarship classifying global media systems has overlooked the world s most developing nations and among those that have included developing nations there exists a misguided premise that nations develop in a linear fashion from non democracy to democracy and from a restricted press to a free press This book shows that much of what scholarship depicts about media systems of developing nations is wrong In reality the ebb and flow of political change democratization and backsliding calls for more historically informed views of media systems that do not fit into the confines of existing theories Using the perceptions of journalists in Rwanda Uganda and Kenya to examine mediascapes at varying stages of development

and democracy building this book examines the advancement of media and press freedom at varying stages of national development Drawing on qualitative fieldwork and a cross national survey this book provides an updated state of press freedom in these three countries and shows how a nation s political and cultural intricacies complicate traditional media development frameworks and notions of press freedom A detailed set of considerations are put forth for understanding media systems outside the Western world specifically that each country s distance from conflict political benchmarks international linkages and civil society strength are central to understanding its degree of press freedom development and democratization

Popular Media, Democracy and Development in Africa Herman Wasserman,2010-10-04 This book examines the role that popular media could play to encourage political debate provide information for development or critique the very definitions of democracy and development

Africa 2016-2017 Francis Wiafe-Amoako,2016-07-28 The World Today Series Africa provides students with vital information on all countries on the African continent through a thorough and expert overview of political and economic histories current events and emerging trends Each country is examined through the following sections Basic Facts Land and People The Past Political and Economic History The Present Contemporary Issues and The Future In addition to country chapters the book features extended essays on Africa s Historical Background and the Colonial Period The combination of factual accuracy and up to date detail along with its informed projections make this an outstanding resource for researchers practitioners in international development media professionals government officials potential investors and students The content is thorough yet perfect for a one semester introductory course or general library reference Available in both print and e book formats and priced low to fit student and library budgets

Newsmaking Cultures in Africa Hayes Mawindi Mabweazara,2018-06-05 This book contributes to a broadened theorisation of journalism

by exploring the intricacies of African journalism and its connections with the material realities that underpin the profession on the continent. It pulls together theoretically driven studies that collectively deploy a wide range of evidence to shed some light on newsmaking cultures in Africa, the everyday routines defining epistemologies as well as ethical dilemmas. The volume digs beneath the standardised and universalised veneer of professionalism to unpack routine practices and normative trends shaped by local factors including the structural conditions of deprivation, entrenched political instability and interference, pervasive neo-patrimonial governance systems and the influences of technological developments. These varied and complex circumstances are shown to profoundly shape the foundations of journalism in Africa, resulting in routine practices that are both normatively distinct and equally in tune with imported Western journalistic cultures. The book thus broadly points to the dialectical nature of news production and the inconsistent and contradictory relationships that characterise news production cultures in Africa.

**Health Crises and Media Discourses in Sub-Saharan Africa** Carol Azungi Dralega, Angella Napakol, 2022-05-24. This is an open access book which brings together leading scholars and critical discourses on political, economic, legal, technological, socio-cultural and systemic changes and continuities intersecting media and health crises in Sub-Saharan Africa. The volume extensively discusses COVID-19 but it also covers other epidemics such as malaria, HIV/AIDS as well as silent health crises such as mental health simmering across the subcontinent. The chapters fill knowledge gaps, highlight innovations, unpack the complexities surrounding the media ecosystem in times of health crises. They explore, among other issues, the politics of public health communication, infodemics, existential threats to media viability, draconian legislations, threats to journalists, journalism, COVID-related entrepreneurship, marginalization and more. This is a timely resource for academics, advocacy groups, media practitioners and policy makers working on crises and media reporting, not just in Africa but anywhere in the global South.

*Media and Democracy in South Africa* Jane Duncan, Mandla Seleane, 1998. Criticism has been voiced that government and society are gradually transforming in South Africa but not the media and that they are in fact obstructing democratisation. Is this criticism justified? Should the media in fact be obliged to play an active role in consolidating democracy or is this role adequately filled by the objective reflection on events protected by press freedom principles enshrined in the constitution? What do we mean when we speak of media and does the media represent South Africa's widely different social interests? This book considers these and many other questions. Seven contributors representing divergent interests explore the complex interface between the media and democracy in South Africa today. They consider the legislative and policy environments necessary for the media to play a meaningful role in building democracy, including the steps needed to develop sustainable, diverse and independent media. South Africa's reintegration into the global community is also reflected in some of the contributions, with two providing international perspectives on questions pertinent to our media today.

**New Media Influence on Social and Political Change in Africa** Olorunnisola, Anthony A., 2013-06-30. While transitioning from autocracy to democracy, media in Africa has always played an important role

in democratic and non democratic states focusing on politicians diplomats activists and others who work towards political transformations New Media Influence on Social and Political Change in Africa addresses the development of new mass media and communication tools and its influence on social and political change While analyzing democratic transitions and cultures with a theoretical perspective this book also presents case studies and national experiences for media new media and democracy scholars and practitioners
