## **Prevencia N Y Primeros Auxilios:**

**Manual de primeros auxilios** Claudio Nazar, Maximiliano Zamora, Fernando Pimentel, 2015 Este libro presenta los principales temas y las técnicas más efectivas en la asistencia terapéutica de urgencia que se presta en caso de accidente o enfermedad repentina. Es extremadamente útil y práctico ya que prepara en la atención de urgencia a personas que no tienen formación médica pero que en la mayoría de estas situaciones son las primeras en acudir al auxilio de las víctimas. A diferencia de otros textos médicos, está escrito y explicado de una manera directa y práctica lo que extiende su aplicación más allá del rea médica y permite una adecuada comprensión de parte del público general de las bases teóricas de los primeros auxilios y del manejo práctico de las situaciones de urgencia.

*Hipnosis en el manejo del dolor* Isidro Pérez Hidalgo, Jorge Cuadros Fernández, Chema Nieto Castaño, Miguel Marset Fernández, 2022-05-19 Es un honor que me pidieran escribir el prólogo de este libro. Hipnosis en el manejo del dolor. Manual internacional porque vengo de Suiza donde hay una diversidad de culturas e idiomas que para nosotros los suizos son la fuente de la riqueza humana. Y este libro ha sido escrito por más de veinte autores provenientes de más de diez países diferentes de casi todos los continentes. Lo que se destaca de este libro no es verdaderamente las técnicas utilizadas sino la importancia de la relación entre el terapeuta y el paciente. Cada técnica es adaptada de manera muy sutil para cada paciente teniendo en cuenta su historia, su cultura y todos los puntos en detalle que han formado su personalidad un poco como el sastre que confecciona cada prenda a medida para cada cliente. Así los hipnoterapeutas principiantes o experimentados no especializados en algún tipo de dolor o sufrimiento pueden descubrir, validar, confirmar y así entender mejor lo que se esconde tras los sentimientos y crear una comunicación con el paciente el mejor tratamiento con las herramientas hipnóticas más adaptadas.
