researchers journalists and general readers **Truth, Lies, and Public Health** Madelon L. Finkel,2007-08-30 The politicalization of research findings has become prevalent over the past two decades Politics often prevents the implementation of policy supported by irrefutable science Most of us understand something about how this is happening with stem cell research but Cornell's Madelon Finkel delves deep into the subject to make the issues clear also revealing how ideology and politics are distorting diminishing and destroying scientific research results regarding topics from needle exchange HIV AIDS prevention and medical marijuana to antibiotic use with animals later marketed for human consumption When ideology whether it is the ideology of scientists and clinicians or of politicians distorts scientific findings and public health judgment public welfare is endangered potentially affecting every person in our nation Finkel also discusses how research is funded and how ideology has influenced that process Numerous examples are given to illustrate the consequences of co-opting the scientific integrity of a program in this way **Guide to Clinical Preventive Services**

DIANE Publishing Company,1997-03 An exhaustive report on recommended clinical preventive services that should be provided to patients in the course of routine clinical care including screening for vascular neoplastic and infectious diseases and metabolic hematologic ophthalmologic and ontologic prenatal and musculoskeletal disorders Also mental disorders and substance abuse counseling and immunization The majority of deaths below age 65 are preventable This Guide results from the most comprehensive evaluation and synthesis of preventive interventions to date **Interventions to Prevent HIV**

Public Health and STD/HIV Prevention Sevgi O. Aral,Kevin A. Fenton,Judith A. Lipshutz,2012-12-09 Despite effective approaches to prevention STD and HIV infection rates remain fairly constant Targeting implementation and monitoring of

interventions have posed widespread problems and the recent spate of cuts to prevention budgets has made these roadblocks even more challenging. It is clear that working in sexual health requires both a deeper understanding of STI/HIV epidemiology and an ongoing quest for up-to-date realistic prevention strategies. *The New Public Health and STD/HIV Prevention* offers readers leading edge access to both. Focusing on social determinants of sexual health at risk populations, critical factors in approaches to prevention and reviews of new research, this authoritative volume explores areas as varied as HPV prevention, technology-based interventions, migration as a factor in disease transmission and competencies key to effective leadership in the field. Dispatches from the frontlines of theory, research and practice in the U.S. and abroad include: Personal risk/public impact, balancing individual rights and STD/HIV prevention; Distribution of prevention resources and its impact on sexual health; Prevention measures in diverse populations of women; Toward a better approach to preventive interventions with men who have sex with men; Adolescent sexual health and STIs; Reducing disparities in sexual health; Lessons from the campaign to eliminate infectious syphilis. Public health professionals of all backgrounds interested in or working in improving sexual health will find *The New Public Health and STD/HIV Prevention* an indispensable guide to conceptualizing the problems and clarifying possible solutions.
