Prevention Of Armed Conflict

Mark S. Cogan, Hidekazu Sakai

Prevention Of Armed Conflict:

Prevention of Armed Conflict Kofi Atta Annan, United Nations. Secretary-General, 2002 This report by the UN Secretary General reviews the progress made in developing the conflict prevention capacity of the UN It also presents recommendations for further policy development in this field with the active support and co operation of member states The report finds that a general consensus is emerging that coherent conflict prevention strategies offer the greatest potential for promoting lasting peace and creating an enabling environment for sustainable development

Prevention of Armed Conflict United Nations. Secretary-General (1996- : Annan), 2002 **The Oxford Handbook of the International Law of**

Global Security Robin Geiß, Nils Melzer, 2021-02-16 Understanding the global security environment and delivering the necessary governance responses is a central challenge of the 21st century On a global scale the central regulatory tool for such responses is public international law But what is the state role and relevance of public international law in today's complex and highly dynamic global security environment Which concepts of security are anchored in international law How is the global security environment shaping international law and how is international law in turn influencing other normative frameworks The Oxford Handbook of the International Law of Global Security provides a ground breaking overview of the relationship between international law and global security It constitutes a comprehensive and systematic mapping of the various sub fields of international law dealing with global security challenges and offers authoritative guidance on key trends and debates around the relationship between public international law and global security governance This Handbook highlights the central role of public international law in an effective global security architecture and in doing so addresses some of the most pressing legal and policy challenges of our time The Handbook features original contributions by leading scholars and practitioners from a wide range of professional and disciplinary backgrounds reflecting the fluidity of the concept of global security and the diversity of scholarship in this area Preventing Violent Conflict Lawrence S.

Woocher, 2009 New wars will continue to erupt if greater and smarter efforts are not made to prevent them Current dangers stem from factors such as rise of unstable regimes global economic turbulence climate change and shift in global power distribution Preventing relapse after wars end is insufficient to prevent most new conflicts because post conflict recurrences constitute only a minority of all conflict outbreaks A wide range of governments including United States and many intergovernmental and nongovernmental organizations have made commitments to take serious efforts to prevent violent conflicts These commitments represent a more than adequate normative foundation and a supportive political environment for development of more effective conflict prevention strategies **The Oxford Handbook of the Responsibility to**

Protect Alex Bellamy, Tim Dunne, 2016-06-30 The Responsibility to Protect R2P is intended to provide an effective framework for responding to crimes of genocide ethnic cleansing war crimes and crimes against humanity It is a response to the many conscious shocking cases where atrocities on the worst scale have occurred even during the post 1945 period when the

United Nations was built to save us all from the scourge of genocide The R2P concept accords to sovereign states and international institutions a responsibility to assist peoples who are at risk or experiencing the worst atrocities R2P maintains that collective action should be taken by members of the United Nations to prevent or halt such gross violations of basic human rights This Handbook containing contributions from leading theorists and practitioners including former foreign ministers and special advisors examines the progress that has been made in the last 10 years it also looks forward to likely developments in the next decade

New Paths and Policies towards Conflict Prevention Courtney J. Fung, Björn Gehrman, Rachel F. Madenyika, Jason G. Tower, 2021-03-14 This book explores the discourse on conflict prevention and peacebuilding by bringing together researchers from China and Switzerland over a series policy dialogues The Charter of the United Nations adopted in the immediate aftermath of World War II is clear about the fundamental necessity for the international community to act in partnership to prevent violent conflict Given recent shifts in global power dynamics there is an apparent need for international policy issues to be addressed in ways that are inclusive of a wider variety of perspectives and approaches Chinese policy actors are increasingly interested in fostering their own discourse on issues of prevention and peacebuilding rooted in Chinese experience and engaging with peers from other contexts The chapters in this volume explore the rationale for conflict prevention and review prevailing academic and practitioner discourses on fundamental questions such as the rationales for why conflicts should be prevented and whether mainstream approaches are still relevant This book will be of interest to students of peacebuilding conflict resolution Chinese politics and International Relations The Open Access version of this book available at <https://www.routledge.com/New+Paths+and+Policies+towards+Conflict+Prevention/Chinese+and+Fung+Gehrman+Madenyika+Tower/p/book/9780367683368> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Understanding Peacekeeping Paul D. Williams, 2020-12-18 Peace operations remain a principal tool for managing armed conflict and protecting civilians The fully revised expanded and updated third edition of Understanding Peacekeeping provides a comprehensive and up to date introduction to the theory history and politics of peace operations Drawing on a dataset of nearly two hundred historical and contemporary missions this book evaluates the changing characteristics of the contemporary international environment in which peace operations are deployed the strategic purposes peace operations are intended to achieve and the major challenges facing today's peacekeepers All the chapters have been revised and updated and five new chapters have been added on stabilization organized crime exit strategies force generation and the use of force Part 1 summarizes the central concepts and issues related to peace operations Part 2 charts the historical development of peacekeeping from 1945 through to 2020 Part 3 analyses the strategic purposes that United Nations and other peace operations are intended to achieve namely prevention observation assistance enforcement stabilization and administration Part 4 looks forward and examines the central challenges facing today's peacekeepers force generation the regionalization and privatization of peace operations the use of

force civilian protection gender issues policing and organized crime and exit strategies **Responsibility to Protect** Alex J. Bellamy, 2013-04-24 At the 2005 UN World Summit world leaders endorsed the international principle of Responsibility to Protect R2P acknowledging that they had a responsibility to protect their citizens from genocide and mass atrocities and pledging to act in cases where governments manifestly failed in their responsibility This marked a significant turning point in attitudes towards the protection of citizens worldwide This important new book charts the emergence of this principle from its origins in a doctrine of sovereignty as responsibility through debates about the legitimacy of humanitarian intervention and the findings of a prominent international commission and finally through the long and hard negotiations that preceded the 2005 commitment It explores how world leaders came to acknowledge that sovereign rights entailed fundamental responsibilities and what that acknowledgment actually means The book goes on to analyze in detail the ways in which R2P can contribute to the global effort to end genocide and mass atrocities Focusing on the prevention of these crimes and the improvement of the world's reaction to them the book explores the question of how to build sustainable peace in their aftermath Alex J Bellamy argues that although 2005 marked an important watershed much more work is needed to defend R2P from those who would walk away from their commitments and in the words of UN Secretary General Ban Ki moon to translate the principle from words into deeds This fascinating book will appeal to students and scholars of international relations international affairs human rights and humanitarian emergencies as well as anyone concerned about the protection of civilians on a global scale *Conflict Prevention from Rhetoric to Reality* Albrecht Schnabel, David Carment, 2004-01-01 Together with local actors many governments regional organizations and the UN are embracing preventive action as a viable path towards sustainable peace The contributions to this volume trace conflict prevention efforts in various regional contexts and explain how preventive thinking is being successfully mainstreamed into the activities of regional organizations and the UN **Research Handbook on Conflict Prevention** Timo Kivimäki, 2024-06-05 The Research Handbook on Conflict Prevention is a cohesive and comparative analysis of the ways in which organised violence is combatted Renowned experts dissect the complex problem of conflict prevention by investigating its three main aspects agency methods and timing **The United Nations and Conflict Prevention in the Post Cold War Era** Aren Sariqyan, 2006-05-26 Inhaltsangabe Introduction Following the collapse of the former Soviet Union world affairs have entered into a new era of hopes opportunities threats and challenges significantly reframing the international relations of the late twentieth century and beyond It was a momentum that states governments and organizations worldwide embraced with expectations and visions of change So did the United Nations UN The new era was particularly promising for this universal organization as it had presumably overcome the paralyzed nature of its functioning throughout the Cold War Moreover the UN was deemed to have acquired the freedom and authority it needs to exercise its primary obligation enshrined in the Charter i e to prevent and remove through collective efforts threats to the peace to suppress acts of aggression and to resolve international disputes

through peaceful means and in conformity with the principles of justice and international law The first sentence in the preamble of the Charter while claiming the international community's determination to save succeeding generations from the scourge of war illustrates the high cause attached to the birth of the organization with a clear link to preventing armed conflicts The basic idea of preventing armed conflicts is not novel and the term preventive diplomacy was coined by Secretary General Dag Hammarskjöld already in 1960 Initially the term was understood in the context of the Cold War when UN efforts were undertaken to eliminate localized disputes and wars that could have provoked wider confrontations between the two superpowers Notwithstanding its conceptual importance and available operational tools conflict prevention received little attention at the margins of global power politics Traditional diplomatic instruments such as mediation conciliation good offices continued to define the toolbox of conflict prevention activities Preventive diplomacy however received particular attention because of the way Secretary General Boutros Ghali broadened and publicized it in his by now well known report Agenda for Peace The need for credible early warning mechanisms and fact finding missions was equally prioritized Since the end of the Cold War the necessity to move from a culture of reaction to a culture of prevention has been incessantly emphasized and gradually reinforced into unequivocal policy through numerous General Assembly resolutions Security Council resolutions

Gender Equality and Genocide Prevention in Africa Serena Timmoneri, 2019-01-31 This book investigates what impact gender equality has on genocide in Africa to verify whether it is a missing indicator from current risk assessments and models for genocide prevention Examining whether States characterised by lower levels of gender equality are more likely to experience genocide Timmoneri adds gender indicators to the existing early warning assessment for the prevention of genocide Moreover the book argues for the formulation of policies directed at the improvement of gender equality not just as a means to improve women's conditions but as a tool to reduce the risk of genocide and mass atrocities Using case studies from Nigeria Ethiopia Angola Uganda and Burundi Timmoneri analyses recent atrocities and explores the role of gender equality as an indicator of potential genocide Gender Equality and Genocide Prevention in Africa will be of interest to students and scholars of political science genocide studies and gender studies

From Reaction to Conflict Prevention Fen Osler Hampson, David Malone, 2002 Contributors in public policy politics international affairs development conflict management and peace studies discuss the practical challenges of conflict prevention within the UN system considering the causes and dynamics of war tools being developed to predict the eruption of conflict and what is being done to move from reaction to prevention of conflict They touch on areas such as measuring the societal impact of war a systems approach to mitigating violent conflict and electoral assistance and democratization Hampson teaches international affairs at Carleton University Canada Malone is president of the International Peace Academy Annotation copyrighted by Book News Inc Portland OR Preventing Mass Atrocities Barbara Harff, Ted Robert Gurr, 2018-10-10 What can be done to warn about and organize political action to prevent genocide and mass atrocities The international

contributors to this volume are either experts or practitioners often both who have contributed in substantial ways to analyzing high risk situations recommending preventive policies and actions and in several instances helping to organize remedial actions Whereas current literature on the prevention of genocide is theoretically well grounded this book explores what can be done and has been done in real world situations Recommendations and actions are rooted in a generation of experience based on solid historical comparative and empirical research and with a grounding in quantitative methods This volume examines historical cases to understand the general causes and processes of mass violence and genocide and engages with ongoing genocidal crises including Darfur and Syria as well as other forms of related violence such as terrorism and civil conflict It will be key reading for all students and scholars of genocide war and conflict studies human security and security studies in general

The Contemporary Law of Targeting Ian Henderson, 2009-10-26 Armed conflict is about using force to achieve goals As international humanitarian law regulates the means and methods that a belligerent may adopt to achieve its goals there will inevitably be disagreements over the interpretation of that law As for the rules that regulate targeting the main difficulties arise over what is a lawful target and what is proportional collateral damage This book provides a detailed analysis of those issues Also a chapter is dedicated to considering how United Nations Security Council sanctioning of participation in an armed conflict might affect the range of lawful targets available to a belligerent Finally a process is described by which legal responsibility for targeting decisions can be assessed in a complex decision making environment

UN Emergency Peace Service and the Responsibility to Protect Annie Herro, 2016-05-20 This book examines the attitudes of political military and non state actors towards the idea of a UN Emergency Peace Service and the issues that might affect the establishment of this service in both theory and practice The United Nations Emergency Peace Service UNEPS is a civil society led idea to establish a permanent UN service to improve UN peace operations as well as to operationalise the emerging norm of the responsibility to protect civilians from atrocity crimes The UNEPS proposal has received limited support The book argues that interest in and support for the UNEPS proposal is determined by perceptions that it would erode state sovereignty the extent to which the principles of the proposal are consistent with actors views on the world and perceptions on whether UNEPS will realistically be capable of contributing to the workings of the UN and regional peacekeeping systems in areas that are seen to be deficient This book makes the case for localising the UNEPS proposal so that it is more consistent with attitudes of those consulted for this research It concludes that the development of a series of less ambitious proposals could be the first steps to creating a rapidly deployable service with the mandate to prevent atrocity crimes This book will be of much interest to students of peace operations the Responsibility to Protect international organisations IR and security studies

Alternative Perspectives on Peacebuilding Mark S. Cogan, Hidekazu Sakai, 2022-10-11 This book analyses and furthers the academic debates on post liberal peacebuilding through a number of conceptual theoretical and empirical research outputs Part I includes a review of how the recent

discourse on peacebuilding has evolved and three conceptual theoretical perspectives relevant to post liberal peacebuilding In particular the editors propose the concept of bespoke peacebuilding to articulate key features of new peacebuilding models Part II introduces five case studies that present how alternative peacebuilding models are being shaped or can be shaped in practice Essential reading for scholars and students in Peace and Conflict Studies International Relations and International Security Studies Chapter 8 is available open access under a Creative Commons Attribution 4.0 International License via link.springer.com

Impediments to the Prevention and Intervention of Genocide Samuel Totten, 2017-09-08 Academics NGOs the United Nations and individual nations are focused on the prevention and intervention of genocide Traditionally missions to prevent or intervene in genocide have been sporadic and under resourced The contributors to this volume consider some of the major stumbling blocks to the avoidance of genocide Bartrop and Totten argue that realpolitik is the major impediment to the elimination of genocide Campbell examines the lack of political will to confront genocide and Theriault describes how denial becomes an obstacle to intervention against genocide Loyle and Davenport discuss how intervention is impeded by a lack of reliable data on genocide violence and Macgregor presents an overview of the influence of the media Totten examines how the UN Convention on Genocide actually impedes anti genocide efforts and how the institutional configuration of the UN is itself often a stumbling block Addressing an issue that is often overlooked Travis examines the impact of global arms trade on genocide Finally Hiebert examines how international criminal prosecution of atrocities can impede preventive efforts and Hirsch provides an analysis of the strengths weaknesses and effectiveness of major international and national prescriptions developed over the last decade The result is a distinguished addition to Transaction's prestigious Genocide Studies series

ECOWAS and the Dynamics of Conflict and Peace-building Thomas Jaye, Dauda Garuba, Stella Amadi, 2011 ECOWAS and the Dynamics of Conflict and Peace building testifies to the fact that we cannot talk of West African affairs more so of conflict and peace building without talking about ECOWAS For over two decades now West Africa has remained one of Africa's most conflict ridden regions It has been a theatre of some of the most atrocious brutalities in the modern world It has nonetheless witnessed one of the most ambitious internal efforts towards finding regional solutions to conflicts through ECOWAS The lead role of ECOMOG the ECOWAS peacekeeping force in search of peaceful solutions to civil wars in Liberia Sierra Leone Guinea Bissau and Cote d'Ivoire has yielded a mix of successes and failures In this book the authors take a candid look at the role that ECOWAS has played and show how the sub regional organisation has stabilised and created new conditions conducive to nation building in a number of cases Conversely the book shows that ECOWAS has aggravated if not created new tensions in yet other cases The comparative advantage that ECOWAS has derived from these experiences is reflected in the various mechanisms protocols and conventions that are now in place to ensure a more comprehensive conflict prevention framework This book provides a nuanced analysis of the above issues and other dynamics of conflicts in the region It also interrogates the roles played by

ECOWAS and various other actors in the context of the complex interplay between natural resource governance corruption demography and the youth bulge gender and the conflicting interests of national regional and international players

Preventing Genocide David A. Hamburg, 2015-11-17 Genocide has been called a problem from hell and despite vehement declarations of never again it s a problem that continues to plague the world From the beginning of history to the most recent massacres in Bosnia Rwanda and Darfur genocide defies resolution And given today s worldwide access to highly lethal weapons and advanced communications technology facilitating incitement to hate we can expect to see this problem grow It is often claimed that genocide occurs without warning taking both local and global communities by surprise Yet as David Hamburg convincingly shows we have had long term advance knowledge of most modern genocides dating back to the early 20th century Armenian tragedy in Turkey and before In this book Dr Hamburg applies a groundbreaking new perspective the medical model of prevention to the scourge of genocide in the world Preventing genocide is not only possible Dr Hamburg contends but essential given its high cost in lives human rights and international security Here he maps out numerous practical steps to recognise genocidal conflicts early and stem their tides of violence before they become acute He also outlines several institutions in place and programs underway at the UN EU and NATO devoted to preventing future genocides before they erupt He draws lessons both from missed opportunities and successful experiences and makes many constructive suggestions about strengthening international institutions governments and NGOs for this purpose
