Congress. Senate. Committee on Environment and Public Works. Subcommittee on Drinking Water, Fisheries, and Wildlife, 1996 2000 IUCN Red List of Threatened Species Craig Hilton-Taylor, 2000 Release of the 2000 Red List is a major landmark for IUCN It is the first time that listings of animals and plants have been combined and the first time that the Red List has been produced on CD ROM The 2000 Red List combines new assessments including all bird species many antelope and bat species most primates and sharks all Asian freshwater turtles more molluscs and many others with those from previous publications The combination of animals and plants into a single list containing assessments of more than 18 000 taxa 11 000 of which are threatened species and the move towards improved documentation of each species on the list means that a hard copy version of the Red List would run to several volumes This combined with the fact that the Red List will be updated annually led to the decision to release the Red List in electronic format via the World Wide Web and as a CD ROM *Endangered Species* United States. Congress. Senate. Committee on Commerce. Subcommittee on Energy, Natural Resources, and the Environment, 1969 Committee Serial No 91 10 Considers S 335 and similar S 671 and S 1280 to authorize the Secretary of Interior to designate endangered species and to prevent the importation and interstate transportation of those endangered species

Dangerous Crossings Claire Jean Kim, 2015-04-09 **Dangerous Crossings** offers an interpretation of the impassioned disputes that have arisen in the contemporary United States over the use of animals in the cultural practices of nonwhite peoples It examines three controversies the battle over the cruelty of the live animal markets in San Francisco's Chinatown the uproar over the conviction of NFL superstar Michael Vick on dogfighting charges and the firestorm over the Makah tribe's decision to resume whaling in the Pacific Northwest after a hiatus of more than seventy years Claire Jean Kim shows that each dispute demonstrates how race and species operate as conjoined logics or mutually constitutive taxonomies of power Analyzing each case as a conflict between single optics the optic of cruelty and environmental harm vs the optic of racism and cultural imperialism she argues for a multi optic approach that takes different forms of domination seriously and thus encourages an ethics of avowal among different struggles
