Redesigning The Communist Economy:

Redesigning the Communist Economy Paul M. Johnson, 1989 A comprehensive survey of economic reform in Eastern Europe with special reference to the 1960s and 1970s Redesigning the Communist Economy Paul M. Johnson, 1989 A comprehensive survey of economic reform in Eastern Europe with special reference to the 1960s and 1970s The European Economy 1914-2000 Derek Aldcroft, 2002-01-10 As in earlier editions of this work Professor Aldcroft presents a succinct and lucid account of the development and problems of the European economy throughout the twentieth century The text divides into several clearly defined sub periods the aftermath of the First World War and reconstruction in the 1920s the depression and recovery of the 1930s the impact of the Second World War and the new division of Europe the postwar boom of the 1950s and 1960s the growth slowdown of the 1970s and the pervasive problems of inflation and unemployment *The European Economy 1914-1990* Derek Aldcroft, George Penelis, 1993-05-27 This new edition of *The European Economy 1914-1990* has been updated and revised to take account of the decade 1980-90 and as such covers some of the most dramatic and profound economic events of the twentieth century *The European Economy 1914-1990* includes two additional chapters one dealing with the Western European economies and in particular The European Economy Since 1914 Derek Aldcroft, Steven Morewood, 2012-12-07 The fifth edition of *The European Economy* provides a succinct and lucid account of the development and problems of the European economy since the first world war It covers the whole of Europe including Russia and Turkey The text divides into several clearly defined sub periods the impact and aftermath of the first world war and recovery and reconstruction during the 1920s the depression and the recovery of the 1930s the impact of the second world war and the new political division in Europe the post war boom of the 1950s and 1960s and then into the growth slowdown of the 1970s and the persistent problems of inflation and unemployment It then analyses the demise of the centrally planned economies of eastern Europe and the move to a more united Europe and then discusses the financial and economic problems that have emerged in the early twenty first century This new edition has been extensively revised new chapters have been added and the reading lists updated Though the volume is designed as a basic introductory text the authors elicit some of the lessons that can be learnt from a study of past development one of which is the limited power of governments to influence the course of events and to combat the operation of market forces *The European Economy Since 1914* Derek Howard Aldcroft, Steven Morewood, 2013 *The European Economy Since 1914* provides an invaluable guide to the major economic changes in both Western and Eastern Europe during the twentieth century *The Neoliberal Revolution in Eastern Europe* Paul Dragos Aligica?, Anthony John Evans, 2009-01-01 Very few studies have ventured to explore the shift in economic ideas that were such a critical factor in shaping and understanding the East European transition process Paul Dragos Aligica and Anthony J Evans have seized upon the potential that this crucial case has to illuminate the larger phenomenon of diffusion and adoption of economic ideas Two different but related research agendas

are developed the study of the spread of neoliberalism as seen from the perspective of Eastern European post communist evolutions and the study of Eastern European transition as seen from an ideas centered perspective Combining a distinctive synthesis of the existing data about the spread of neoliberal economic ideas in Central and Eastern Europe with an analysis of the processes at work the authors challenge a series of misunderstandings and myths about the spread of neoliberal economic ideas The disputed topics include the myth of an Eastern European rush to embrace the theories and ideas that may be considered the mark of market fundamentalism the notion that a harsh neoliberal dogmatism was somehow imposed on the region from outside the idea that the standardization and regimentation of economic thinking was a result of the spread of the Western way of doing economics and the belief that the Eastern Europeans passively embraced this uniformity and standardization due to pressure from the Westerners This unusual synthesis will appeal to scholars in economics political science communist post communist studies and new institutionalism as well as policymakers

Nation, State and the Economy in History Alice Teichova, Herbert Matis, 2003-05-08 Originally published in 2003 this book addresses the rarely explored subject of the reciprocal relationships between nationalism nation and state building and economic change Analysis of the economic element in the building of nations and states cannot be confined to Europe and therefore these diverse yet interlinked case studies cover all continents Authors come to contrasting conclusions some regarding the economic factor as central while others show that nation states came into being before the constitution of a national market The essays leave no doubt that the nation state is an historical phenomenon and as such is liable to expiry both through the process of globalisation and through the development of a cyber society which evades state control By contrast developments in southeastern Europe the former USSR and parts of Africa and the Far East show that building the nation state has not run its course
