Voyage of Rediscovery Ben Finney, 2023-11-15 In the summer of 1985 a mostly Hawaiian crew set out aboard Hokule'a a reconstructed ancient double canoe to demonstrate what skeptics had steadfastly denied that their ancestors sailing in such canoes and navigating solely by reading stars ocean swells and other natural signs could intentionally have sailed across the Pacific exploring the vast oceanic realm of Polynesia and discovering and settling all its inhabitable islands Their round trip odyssey from Hawai'i to Aotearoa New Zealand across 12 000 nautical miles dramatically refuted all theories declaring that because of their unseaworthy canoes and inaccurate navigational methods the ancient Polynesians could only have been pushed accidentally to their islands by the vagaries of wind and current

Voyage of Rediscovery is a vivid immensely readable account of this remarkable journey through the Pacific including tales of a curiosity attack by sperm whales and the crew's welcome to Aotearoa by Maori tribesmen who dubbed them their sixth tribe It describes how Hawaiian navigator Nainoa Thompson guided the canoe over thousands of miles of open ocean without compass sextant charts or any other navigational aids In so doing it documents the experimental voyaging approach developed by Ben Finney which has both transformed our ideas about Polynesian migration and voyaging and been embraced by present day Polynesians as a way to experience and celebrate their rich ancestral heritage as premier seafarers By sailing in the wake of their ancestors the Hawaiians and other Polynesians who captained navigated and crewed Hokule'a made the journey described here a cultural as well as a scientific

Creation Rediscovered Jeffery M. Leonard, 2021-10-05 Creation Rediscovered by Jeffery M Leonard guides readers through a contextual reading of the Bible's creation stories Over the last two centuries few subjects have generated as much controversy for Christians as has creation The whethers whens and hows of creation have often become a battlefield in which the pitched forces of competing sides Darwinists and creationists young earthers and old figurativists and literalists have struggled for the upper hand Like most battles this fight has tended to inflict a fair amount of collateral damage along the way This is especially true for those put in the terrible position of feeling they have had to choose between the Bible they have fallen in love with and the science they have studied In this book Jeffery Leonard writes to fellow travelers in the faith who want to take the biblical text seriously while at the same time appreciate science's exploration of what we consider to be God's creation It is his contention that setting the Bible's creation texts back within their ancient context allows us to do both of these things Indeed Leonard believes that when we reread what the Bible has to say about creation in its original setting we find meaning in the text far more profound than what we have previously imagined Key points and features Written by a Bible scholar Unique timely and fresh interpretation Helps readers see the Bible's creation stories as vessels of healing and hope in God's larger plan for humanity Attempts to redirect Christians to read the ancient creation stories within the context in which they were written
