Citizen Employers Jeffrey Haydu, 2019-06-30 The

exceptional weakness of the American labor movement has often been attributed to the successful resistance of American employers to unionization and collective bargaining. However, the ideology deployed against labor's efforts to organize at the grassroots level has received less attention. In *Citizen Employers*, Jeffrey Haydu compares the very different employer attitudes and experiences that guided labor-capital relations in two American cities, Cincinnati and San Francisco, in the period between the Civil War and World War I. His account puts these attitudes and experiences into the larger framework of capitalist class formation and businessmen's collective identities. Cincinnati and San Francisco saw dramatically different developments in businessmen's class alignments, civic identities, and approach to unions. In Cincinnati, manufacturing and commercial interests joined together in a variety of civic organizations and business clubs. These organizations helped members overcome their conflicts and identify their interests with the good of the municipal community. That pervasive ideology of business citizenship provided much of the rationale for opposing unions. In sharp contrast, San Francisco's businessmen remained divided among themselves, opted to side with white labor against the Chinese, and advocated treating both unions and business organizations as legitimate units of economic and municipal governance. *Citizen Employers* closely examines the reasons why these two bourgeoisies, located in comparable cities in the same country at the same time, differed so radically in their degree of unity and in their attitudes toward labor unions, and how their views would ultimately converge and harden against labor by the 1920s. With its nuanced depiction of civic ideology and class formation and its application of social movement theory to economic elites, this book offers a new way to look at employer attitudes toward unions and collective bargaining. That new approach, Haydu argues, is equally applicable to understanding challenges facing the American labor movement today.

The Port of Missing Men Aaron Goings, 2020-07-26 A compelling biography of the Ghoul of Grays Harbor. In the early twentieth century, so many dead bodies surfaced in the rivers around Aberdeen, Washington, that they were nicknamed the floater fleet. When Billy Gohl, 1873-1927, a powerful union official, was arrested for murder, local newspapers were quick to suggest that he was responsible for many of those deaths, perhaps even dozens, thus launching the legend of the Ghoul of Grays Harbor. More than a true crime tale, *The Port of Missing Men* sheds light on the lives of workers who died tragically, illuminating the dehumanizing treatment of sailors and lumber workers and the heated clashes between pro and anti-union forces. Goings investigates the creation of the myth, exploring how so many people were willing to believe such extraordinary stories about Gohl. He shares the story of a charismatic labor leader, the one man who could shut down the highly profitable Grays Harbor lumber trade, and provides an equally intriguing analysis of the human costs of the Pacific Northwest's early extraction economy.

Radical Unionism in the Midwest, 1900-1950 Rosemary Feurer, 2006 In *Radical Unionism in the Midwest, 1900-1950*, Rosemary Feurer examines the fierce battles between Midwestern electrical workers and bitterly anti-union electrical and metal industry companies during the 1930s and 40s. Organized as District 8 of the United Electrical, Radio and Machine Workers (UE) and led by open Communist William Sentner, workers developed a style

of unionism designed to confront corporate power and to be a force for social transformation in their community and nation Feurer studies District 8 through a long lens establishing early twentieth century contexts for these conflicts Exploring the role of radicals in local movement formation Feurer argues for a civic unionism that could connect community and union concerns to build solidarity and contest the political economy District 8 s spirited unionism included plant occupations in St Louis and Iowa campaigns to democratize economic planning and local strategies for national bargaining that were depicted as a Communist conspiracy by a corporate influenced Congressional committee in Evansville Indiana District 8 was destroyed through reactionary networks and the anti Communist backlash of the mid twentieth century but Feurer argues that its history tells another side of the labor movement s formation in the 1930s and 40s and can inform current struggles against corporate power in the modern global economy A website with more photographs and documents is available at www.radicalunionism.niu.edu *The Box* Marc Levinson, 2016-04-05 In April 1956 a refitted oil tanker carried fifty eight shipping containers from Newark to Houston From that modest beginning container shipping developed into a huge industry that reshaped manufacturing But the container didn t just happen Its adoption required huge sums of money years of high stakes bargaining and delicate negotiation on standards Now with a new chapter *The Box* tells the dramatic story of how the drive and imagination of an iconoclastic entrepreneur turned containerization from an impractical idea into a phenomenon that transformed economic geography slashed transportation costs and made the boom in global trade possible from back cover
