**Comic Sense** Thomas Pughe, 2013-03-09 The idea for this study came to me in the course of my reading of innovative US American fiction of the last three decades I observed that much of it is cast in the comic mode or more precisely that there seems to be in contemporary fiction an affinity between innovation and the comic and that this affinity furthermore appears to be characteristic of postmodernism It is obvious at the same time that comic has become an elusive and more often than not a disputable category Frederick Karl in his survey of American Fictions 1940-1980 maintains for instance that much comic writing consists in ridicule that lacks deeper intellectual and cultural roots Wit and mockery he notes by themselves have little lasting value Even in the best of such fiction Gravity's Rainbow one is made aware of attenuated skits stitched onto previous segments rather than baked in by a defined point of view Karl 27 Such assessments of course challenge my view that the comic is in significant ways connected with what is innovative in postmodernist US American fiction Yet the term comic or related terms like humour parody irony and so forth is regularly and heavily employed in discussions or reviews of contemporary fiction
