Reducing Territorial Frameworks:

Reducing Territorial Frameworks Hideyuki Fujisawa, 1986 Reducing Territorial Frameworks Fujisawa Shuko, Hideyuki Fujisawa, 1998-09-01 **Linear Planning to Reduce Regional Inequality** Rossella Moscarelli, 2023-04-24

This book explores the advantages of a linear model of planning in reducing regional inequalities. Linear planning, commonly discussed in the past as a method which plans the development of the city, is completely redefined here in the form of a design approach inspired by projects shaped by linear routes such as cycle or walking paths. Such concept is applied to the urgent topic of territorial marginality which specifically neglects rural and mountainous areas and recently is coped by European and National policies. The analysis of these policies demonstrates the necessity of alternative strategies equipped to deal with both the internal and external causes that determine the critical conditions in these fragile environments. By implementing the concept of linear planning in these contexts, this book proposes to enlarge the perspective of traditional policies contrasting the regional inequalities that usually determine the design of projects just within the boundaries of the marginal areas. Cycle and walking paths are experimental cases of linear planning as they have not been influenced or formed by political boundaries and therefore are able to equally involve both the central and marginal zones. This book presents a review of current issues such as regional inequalities with attention to their related policies as well as an analysis of the concept of linear planning as seen through the study of one of the most famous cases of a walking path, the Way of St James in Spain.

Handbook of Disaster Risk Reduction for Resilience Saeid Eslamian, Faezeh Eslamian, 2021-06-14. This book is part of a six volume series on Disaster Risk Reduction and Resilience. The series aims to fill in gaps in theory and practice in the Sendai Framework and provides additional resources, methodologies and communication strategies to enhance the plan for action and targets proposed by the Sendai Framework. The series will appeal to a broad range of researchers, academics, students, policy makers and practitioners in engineering, environmental science and geography, geoscience, emergency management, finance, community adaptation, atmospheric science and information technology. This volume discusses how to measure and build disaster resilience at society's capacity, drawing upon individual, institutional and collective resources to cope with and adapt to the demands and challenges of natural disaster occurrences. The book will serve as a guide outlining the key indicators of disaster resilience in urban and rural settings and the resources and strategies needed to build resilient communities in accordance with the targets of the Sendai Framework. Readers will learn about multi-risk reduction approaches using computational methods, data mining techniques and System Thinking at various scales as well as institutional and infrastructure resilience strategies based on several case studies.

Turkmenistan FAO,2024-09-12 This report aims to highlight the current strengths of the institutional DRR system for agriculture in Turkmenistan as well as indicate existing gaps and capacity needs to further enhance it A comprehensive assessment is conducted which includes a general overview of the country s agricultural sector and outlines the most frequent natural hazards that are impacting the sector It is followed by an analysis of the existing legal policy and institutional structure and discusses various components of the system including e g the functioning of early warning systems assessments of disaster risks post disaster needs assessments including damages and losses assessments and the availability of agricultural insurance for farmers It concludes by providing recommendations for capacity building interventions to strengthen the current system to reduce the adverse impacts of natural hazards in particular floods landslides and droughts and climate change on agriculture in Turkmenistan Urban Policy in the Framework of the 2030 Agenda María Ángeles

Huete García,Adrián Rodríguez Miranda,Vicente Ugalde,Rafael Merinero Rodríguez,2023-08-30 The book provides comparative information about the materialization of the 2030 Agenda in urban policy in ten countries located in Europe and Latin America The Declaration of Quito is the starting point for the implementation of SDGs into public policies in urban areas However there are fewer efforts to understand the impact that the 2030 Agenda and specifically the instruments developed for its application in cities The information of each country is presented in relation to two aspects the construction of a public policy style in each country and the results and impacts on urban public policies implemented in specific cities within the national frameworks The first means the emergence of a public policy framework and its materialization in public policy instruments In this regard the book raises the following questions To what extent have the SDGs come to generate a common framework for cities in the countries And how Urban SDGs are translated to national urban policies The second results and impacts at the local level is related to two aspects a substantive the goals of the policy and b procedural management aspects related to the policy design governance and institutional capacity building *Best Practices in Poverty*

procedures may pose tremendous challenges to the development of an integrated legal framework for offshore wind and the complex installation and grid interconnections it requires This book surveys and analyses the features essential for the development of such a framework drawing on the experience of ten countries that have such schemes in place France Germany the United Kingdom Italy Norway the United States Australia China Korea and Taiwan Discussing the impact of technological economic spatial and market issues on the legal framework eleven key policymakers in their respective countries contribute chapters that together reveal the contours of a strong and sound legal framework that serves to enable and facilitate the efficient application of policy initiatives and subsidies Topics and issues raised and examined include the ways a sound legal framework addresses the following aspects of offshore wind power development license schemes construction of turbines infrastructure of grid construction harbor and vessels environmental health and safety regulations and loan and finance risk The contributors show that a carefully planned mix of incentives and supplementary schemes is indispensable The essays are drawn on the presentations and papers offered at the International Conference on a Comprehensive Legal Framework for the Development of Offshore Wind Power Around the World held in Taiwan in August 2016 As a major new contribution to the debate on the importance of a legal framework for offshore wind power and grid interconnections this book will prove indispensable to lawyers policymakers officials and academics concerned with the management of sea space to include the wind power necessary to achieve and sustain renewable energy goals [FDI Qualities Review of Croatia Advancing the Strategic Framework for Investment Promotion and Facilitation](#) OECD,2023-11-27

The FDI Qualities Review of Croatia provides policy recommendations on the design and implementation of a new strategic framework for investment promotion and facilitation in Croatia It provides an assessment of how foreign direct investment FDI contributes to sustainable development including productivity and innovation job quality and skills development decarbonisation and regional development **Public Policy to Reduce Inequalities across Europe** Paul Cairney,Michael Keating,Sean Kippin,Emily St Denny,2022-07-28 This is an open access title available under the terms of a CC BY NC ND 4 0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations There is a broad consensus across European states and the EU that social and economic inequality is a problem that needs to be addressed Yet inequality policy is notoriously complex and contested This book approaches the issue from two linked perspectives First a focus on functional requirements highlights what policymakers think they need to deliver policy successfully and the gap between their requirements and reality We identify this gap in relation to the theory and practice of policy learning and to multiple sectors to show how it manifests in health education and gender equity policies Second a focus on territorial politics highlights how the problem is interpreted at different scales subject to competing demands to take responsibility This contestation and spread of responsibilities contributes to different policy approaches across spatial scales We conclude that governments promote many separate equity initiatives across

territories and sectors without knowing if they are complementary or contradictory This outcome could reflect the fact that ambiguous policy problems and complex policymaking processes are beyond the full knowledge or control of governments It could also be part of a strategy to make a rhetorically radical case while knowing that they will translate into safer policies It allows them to replace debates on values regarding whose definition of equity matters and which inequalities to tolerate with more technical discussions of policy processes Governments may be offering new perspectives on spatial justice or new ways to reduce political attention to inequalities

Cross-Border Regions Cooperation and Implications for Organizations Sousa, Bruno Barbosa, 2025-06-04 Strategic place marketing that uses natural resources and local assets to increase an organization's regional competitiveness has significant influence on not only the organization's economic growth but also its social and ecological aspects By integrating cross border regions and place marketing into territorial strategies more collaborative relationships may be built with tourists residents and stakeholders These strategic partnerships may as a result contribute to community engagement territorial resilience and sustainability Furthermore by broadening the breadth of place marketing and contiguous territorial spaces the concepts become more interdisciplinary having implications for other fields as well

Cross Border Regions Cooperation and Implications for Organizations explores the evolution and trends of cross border regions cooperation Additionally it discusses the implications for the future of organizations and customer relationship management Covering topics such as experiential marketing international volunteering and shadow destinations this book is an excellent resource for marketers stakeholders professionals researchers scholars academicians and more

Comprehensive analysis of the disaster risk reduction system for the agricultural sector in Belarus Food and Agriculture Organization of the United Nations, 2022-04-11 This report aims to highlight the current strengths of the institutional DRR system for agriculture in Belarus as well as indicate existing gaps and capacity needs to further enhance it A comprehensive assessment is conducted which includes a general overview of the country's agricultural

sector and outlines the most frequent natural hazards that are impacting the sector. It is followed by an analysis of the existing legal policy and institutional structure and discusses various components of the system including e.g. the functioning of early warning systems, assessments of disaster risks, post-disaster needs assessments including damages and losses assessments and the availability of agricultural insurance for farmers. It concludes by providing recommendations for capacity building interventions to strengthen the current system to reduce the adverse impacts of natural hazards in particular floods, landslides and droughts and climate change on agriculture in Belarus.

The Foreign Policies Of Arab States Bahgat Korany, Ali El-Din Hillal Dessouki, 2019-07-09. Middle East politics have been proverbial for their changeability. The 1970s ushered in petro politics for instance but OPEC's international status declined markedly in the following decade. Similarly the Arab world's ostracism of Egypt in the 1970s following its separate peace with Israel was turned around in the 1980s; the late 1980s also brought PLO acceptance of the State of Israel. Interstate relations were not the only arena to experience significant alterations; state-society relations also underwent dramatic changes such as the acceleration of privatization in erstwhile socialist regimes. Then the 1990s opened with a political earthquake: the Gulf Crisis. The second edition of this highly acclaimed text offers a penetrating analysis of trends in Arab foreign policies since the book was originally published in 1984, including an early analysis of the effects of Iraq's invasion of Kuwait and the subsequent coalition victory over Iraq. In addition, the authors have included new chapters on Jordan at the heart of the Arab world and on the Sudan, the region's link to sub-Saharan Africa. Their inclusion allows a fuller understanding of the foreign policies of states that occupy crucial geopolitical positions but wield little tangible power. Moreover, in many of its chapters, the book raises the crucial question of how the foreign policies of these countries can cope with the prevalence of political change.

Transforming Spatial Data into Public Policies for Social Justice and Environmental Sustainability Alexandra Aragão, 2023-05-24. Environmental justice and social justice are well-established concepts in social research. This book goes beyond the established discourse to show how Geographic Information Systems can unveil higher levels of spatial unfairness when both forms of injustice coincide in the same place. Territorial injustice is the result of the disproportionately higher exposure of vulnerable communities to pollution and environmental risks. Overlapping layers of georeferenced environmental and social information generate maps depicting territorial injustice which can be a powerful tool to facilitate social dialogue and prompt policy change. This volume brings approaches from ten Latin American countries to demonstrate how the interdisciplinarity between law and Geographic Information Systems can contribute to the development of fairer public policies and prevent and mitigate cases of extreme injustice. The case studies presented are relevant to support the development of geolaw and to inspire pragmatic strategies aimed both at social justice and environmental sustainability.

OECD Annual Report 2002 OECD, 2002-04-29. A comprehensive report on OECD activities in 2001/2002. Social Provision in Rural Wiltshire H. E. Bracey, 2025-04-01. Social Provision in Rural Wiltshire was first published in 1952. The

original blurb reads Outside Wiltshire Dr Bracey's book will be welcomed as an example of a new technique applied to the solution of an urgent rural problem. The problem briefly is whether our ancient market centres and administrative boundaries are still the effective centres and boundaries of everyday rural life and if not what are they. It is a problem upon which many people are ready to generalize but Dr Bracey sheds new and clearer light on the problem by taking a typical English rural county and studying it in detail. Not only does he demonstrate with maps the many overlapping categories of official division: Parish Councils, Petty Sessional Divisions etc, he maps the county according to bus services, shopping centres, banking areas, nursing associations, National Farmers' Unions, Women's Institutes, British Legion, Boy Scouts etc etc and from all these items he builds by sound statistical methods a concept of median areas that correspond to the realities of today. In addition he makes a still closer study of one typical village and of the professional, social and commercial services it provides. Dr Bracey is a member of the Reconstruction Research Group of Bristol University and his investigation has the support of the Planning Department of Wiltshire County Council. Within the county this book will be of immediate local interest in every parish; elsewhere it will serve as an example and guide to all students of similar problems. Today it can be read in its historical context.

Reducing Territorial Frameworks Introduction

In the digital age, access to information has become easier than ever before. The ability to download Reducing Territorial Frameworks has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Reducing Territorial Frameworks has opened up a world of possibilities. Downloading Reducing Territorial Frameworks provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Reducing Territorial Frameworks has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Reducing Territorial Frameworks. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Reducing Territorial Frameworks. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Reducing Territorial Frameworks, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability

to download Reducing Territorial Frameworks has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.
