The God Effect is Real Sujith Ittan,2025-07-14 Something is really wrong with our reality It appears that our minds are being manipulated Synchronicities and the collective unconscious are clues about the mind manipulation mechanism This mechanism is the God effect according to the author The God effect implies that there is an intelligent entity controlling our minds Who is this intelligent entity manipulating our minds A God must be responsible for the God effect How exactly is this God manipulating our minds in this reality that is based on the principles of materialism that we know so well through our sciences We are unable to account for the God effect within the paradigm of materialism Are we in a reality based on idealism where consciousness is fundamental and an intelligent God exists in this context Or are we living inside a computer simulation What is the nature of our minds In order to account for God we have to question our understanding of our reality and we have to ask if we are truly in control of our minds thoughts and actions This is a gist of the God mind and reality problem that the author tries to discuss in this book In his first book the author wondered if a simulation accounts for the God effect In this book he wonders if idealism with consciousness first principles and an intelligent God solves the problem

Walking The Way DL Newcombe,2020-10-05 Walking The Way is the inspiring true testimony of a man who was obsessed with his own needs and

desires for over 35 years A survivor of childhood sexual physical psychological and emotional abuse he became consumed by sin Immorality idolatry pride bitterness hatred anger and drugs and alcohol came incredibly close to destroying his life Then one day everything changed In the time it took to see death coming and not even have the chance to take a breath never mind pray for forgiveness the man was spared Awakened to how close he d come to losing everything including God he was born again into a new life and a new role as a disciple In His mercy God saved this man delivered him from self destruction and the surety of hell all through His amazing Grace A testament to the power and work of God the Holy Spirit Walking the Way reveals the importance of faith and trust in the only true God of the Bible Learn how forgiveness begins the healing process and how God s Word is truly the only way to renew your mind See how effectual prayer done in awe of the amazing power of God and His love is sustenance for the disciple confirming one s belief while granting the ability and strength to face life s trials with confidence Before it s too late consider your life your thoughts your actions Remember what s at risk separation from Him forever Then ask yourself Am I born of the Spirit

Church Dogmatics: The doctrine of the word of God (2 pts.) Karl Barth,2004-01-01 Described by Pope Pius XII as the most important theologian since Thomas Aquinas the Swiss pastor and theologian Karl Barth continues to be a major influence on students scholars and preachers today Barth s

theology found its expression mainly through his closely reasoned fourteen part magnum opus Die Kirchliche Dogmatik Having taken over 30 years to write the Church Dogmatics is regarded as one of the most important theological works of all time and represents the pinnacle of Barth's achievement as a theologian T T Clark International is now proud to be publishing the only complete English translation of the Church Dogmatics in paperback **There Is No God and He Is Always with You** Brad Warner,2013-05-15 Can you be an atheist and still believe in God Can you be a true believer and still doubt Can Zen give us a way past our constant fighting about God Brad Warner was initially interested in Buddhism because he wanted to find God but Buddhism is usually thought of as godless In the three decades since Warner began studying Zen he has grappled with paradoxical questions about God and managed to come up with some answers In this fascinating search for a way beyond the usual arguments between fundamentalists and skeptics Warner offers a profoundly engaging and idiosyncratic take on the ineffable power of the ground of all being **Following at a Distance** Kimberly Dunnam Reisman,2010-10-01 This study will include 7 sessions one for each Sunday in Lent including Easter Sunday Each session features a scripture reference a personal reading and questions for personal reflection or group discussion suggestions for ways to deepen the Lenten journey or a focus for the coming week may also be included Trusting God's Timing Steven Stoffelsen,2017-01-17 Many times Christians excitedly receive a promise or vision from God From that moment forward they want to tell the whole world what God is going to do in and through them It's so exciting to have a promise from God The Bible says Where there is no vision the people perish Proverbs 29 18 But when God gives us a promise or vision it takes time to see it fulfilled Rarely is the vision for tomorrow or even the next year It's for a certain time set by God He shows it to you early but He still wants to prepare you for the journey ahead Many Christians get discouraged during this process and walk away from God But so many people in the Bible like Abraham Joseph and David had to go through years of preparation before they saw their visions fulfilled They waited a long time probably longer than most of us Be encouraged and don't let a thing called time destroy you before you even start God is for you and what He's promised He will bring to pass God vs Alien Subhash Chandra,2021-05-19 God V s Alien is all about finding the hidden meaning in ancient monuments texts Vedas and holy books The hidden signs in our religion and holy books are kept secret from the common people the truth is not what we see and hear The lost civilizations of Mayans and Egypt from the past The concept of time travel and teleportation How could the modern technology be influenced by the Ancient technology The presence of human race in entire universe the future of earth and the incidents of time travel the way to immortality And one of the most important question Are We Alone Really Alone in other words this book is an initiative to decode the hidden signs of holy books and signs from the human history **Eighty-Nine Years and Still Evolving** James Emerson Hough,2021-03-11 In this collection of miscellaneous essays and writings the author reflects on the serenity of retirement living in the middle of his own private certified Forest Preserve and Wildlife Habitat in southeast Indiana the inspiration it engenders to be creative and the ability to focus his thinking He finds

it rewarding to share his perspective but the selfish reason he writes is that it makes him a better person When asked why he writes Mr Hough admits that writing helps keep his aging mind alert and head on straight Sitting down in front of his laptop computer with a blank screen is challenging He s inspired to unlock novel ideas in his mind research them and develop compelling techniques to put them together in writing and encouraged to place the result on the Internet for colleagues and friends to contemplate Writing is the author s habit Sometimes he gets feedback sometimes he doesn t He knows the value of free speech is priceless and being a disabled veteran keeping that freedom alive is inestimable Retiring at the end of 1998 James Emerson Hough ended more than thirty five years in private practice of the applied earth sciences as both a licensed professional geologist and licensed professional engineer He is the geotechnical engineer of record on more than 3 700 projects requiring terrain evaluations subterranean investigations foundation analysis for earth supported architectural structures and for engineering structures analyses reports special studies failure studies explorations inspections laboratory testing construction monitoring and forensic services Mr Hough the author or coauthor of numerous published technical papers and several technical books possesses substantial expertise regarding slope stability landslides and landslide correction My mind is like a garden My thoughts are like seeds I can grow flowers or I can grow weeds I need to water them

Oracles of Science : Celebrity Scientists versus God and Religion Karl Giberson Professor of Physics Eastern Nazarene College, Mariano Artigas Professor of Philosophy of Science University of Navarra, 2006-11-29 Biologists Stephen Jay Gould Richard Dawkins and Edward O Wilson and physicists Carl Sagan Stephen Hawking and Steven Weinberg have become public intellectuals articulating a much larger vision for science and what role it should play in the modern worldview The scientific prestige and literary eloquence of each of these great thinkers combine to transform them into what can only be called oracles of science Curiously the leading oracles of science are predominantly secular in ways that don t reflect the distribution of religious beliefs within the scientific community Many of them are even hostile to religion creating a false impression that science as a whole is incompatible with religion Karl Giberson and Mariano Artigas offer an informed analysis of the views of these six scientists carefully distinguishing science from philosophy and religion in the writings of the oracles

Can we see God yes, we can Tulsi Gaj, 2024-10-29 My goal in creating this book is to support those people who aspire to learn the truth about the true nature of the universe s God the soul and the mind knowing about your existence before birth the present and after death Where did we come from why are we here on earth why must we die and where will we go hereafter and more interested answers about yourself *Undone by Easter* William H. Willimon, 2009 Preachers dread the arrival of Easter because these holy days bring the daunting task of finding new ways to tell the old stories everyone s heard so many times before But what if it were only we preachers who are bored with these stories asks Will Willimon What if people keep showing up at Easter because the story of God s victory over death continues to hold power for them What if the point were not to capitulate to the culture s insatiable appetite for novelty but to tell the old stories

faithfully trusting in the power of the Spirit to make the text the congregation and yes even the preacher come alive again in the preaching event With Willimon's Undone by Easter pastors can face the prospect of preaching their next Easter sermon with joy and confidence rather than worry about finding something to say

God in an Open Universe William Hasker, Thomas Jay Oord, Dean Zimmerman, 2011-08-01 Since its inception the discussion surrounding Open Theism has been dominated by polemics On crucial philosophical issues Openness proponents have largely been devoted to explicating the underlying framework and logical arguments supporting their perspective against competing theological and philosophical perspectives As a result very little constructive work has been done on the interconnections between Open Theism and the natural sciences Given the central place of sciences in today's world any perspective that hopes to have a broad impact must necessarily address such disciplines in a sustained and constructive manner To date such engagements from the Openness perspective have been rare

God in an Open Universe addresses this deficiency This book demonstrates that Open Theism makes a distinctive and highly fruitful contribution to the conversation and constructive work occurring between philosophy theology and the sciences The various essays explore subjects ranging from physics to prayer from special relativity to divine providence from metaphysics to evolution and from space time to God All who work at the intersection of theology and the sciences will benefit greatly from these essays that break new ground in this important conversation
