## **Reengineering China:**

**Re-balancing China** Peter Nolan, 2015-03-01 Re balancing China addresses three key sets of issues in China's political economy Part One provides an analysis of the profound effect of the global financial crisis upon China's economy as well as the positive impact of the massive rescue package that was implemented in response to the crisis Part Two focuses on the challenge of globalization for China's industrial policy After more than two decades of industrial policy China still has a negligible number of large firms that are competitive in global markets China's experience presents a fundamental challenge to traditional concepts of industrial policy and development Part Three examines China's international relations in particular its relationship with the US and the interactions between the two countries in the East and South China Seas

**Re-engineering Affordable Care Policy in China** Peter Nan-shong Lee, 2018-12-14 Presenting a comprehensive examination of China's medical care system this book tackles issues of policymaking organization management and financing in the context of the provision of affordable care in China Making use of extensive field investigations interviews and a thorough analysis of documents this book examines the re structuring of the medical care system spanning more than three and half decades from 1979 to the present day Assessing the difficulties of regulatory control in the health care sector it also explores theoretical alternatives including post Weberian constructs of uncertainty and control as well as franchise and asymmetric information in market transactions Ultimately it argues that patient medical care has become less and less affordable amid shrinking government subsidies breakdowns of public insurances and increases in user charges especially between the mid 1990s and mid 2000s Whilst the government took decades to re organize the public hospital system and rebuild public insurances it faced a dilemma of enforcing both low cost medical care and maintaining revenue flow to public hospitals through marketization Re engineering Affordable Care Policy in China provides extensive discussion of the policymaking process as well as detailed analysis of policy contents As such it will be invaluable to students and scholars of Chinese social policy and public administration as well as Chinese Studies more generally

**Globalizing China - Social and Governance Reforms** Ka Ho Mok, 2022-12-30 Unlike most books which consider China's transformation and globalization over the last four decades by focusing on China's economic growth this book examines how the Chinese regime has handled the increasingly complex sociopolitical and socio economic challenges generated as a result of the country's economic growth and transformation challenges arising both from within the country and also from the external political environment Based on extensive original research the book outlines how China's economic development has generated social and governance pressures discusses the government's social educational and governance reforms and highlights how China's development experiences which differ from the Western economies with democratic political regimes have drawn increasing attention from other countries in the developing world as an example to follow

**On Xi Jinping** Kevin Rudd,2024-09-17 An authoritative account of Xi Jinping s worldview and how it drives Chinese behaviour both domestically and on the world stage In his new book On Xi Jinping former Australian Prime Minister Kevin Rudd provides an authoritative account of the ideological worldview driving Chinese behaviour both domestically and on the world stage that of President Xi Jinping who now hold near total control over the Chinese Communist Party and is now in effect president for life Rudd argues that Xi s worldview differs significantly from those of the leaders who preceded him and that this ideological shift is reflected in the real world of Chinese policy and behaviour Focusing on China s domestic politics political economy and foreign policy Rudd characterises Xi Jinping s ideological framing of the world as Marxist Leninist nationalism According to Rudd Xi s notion of Leninism has taken the party and Chinese politics further to the left in comparison to his predecessors Also his Marxism has also taken Chinese economic thinking to the left in a more decisively more statist direction and away from the historical dynamism of the private sector However Chinese nationalism under Xi has moved further to the right towards a much harder edged foreign policy vision of China and a new determination to change the international status quo Xi s worldview is an integrated one where his national ideological vision for China s future is ultimately inseparable from his view on China s

position in the region and the world These changes in worldview are also reflected in Xi s broader rehabilitation of the concept of struggle as a legitimate concept for the conduct of both Chinese domestic and foreign policy a struggle that need not necessarily always be peaceful Finally Xi s ideological worldview also exhibits a new level of nationalist self confidence about China s future derived from China s historical and civilizational strengths but reinforced by his Marxist Leninist concept of historical determinism and the belief that the tides of history are now on firmly China s side A powerful analysis of the worldview of arguably the most consequential world leader of our era this will be essential reading for anyone interested in how Xi is transforming both China and the international order and most importantly why
