**Suppression Of Terrorist Financing** Hamed Tofangsaz, 2020-07-02 In the last few decades there has been a considerable effort mainly from Western liberal countries to create develop and diffuse into domestic laws an internationally harmonized counter terrorist financing regime through international treaties recommendations and resolutions This book aims to explore the penal criminalization and confiscation measures of the regime Belonging to the category of analytical research the book explores the nature of terrorist financing and critically and extensively examines how it has been conceptualized and criminalized The book argues that the application of these penal measures results in over criminalization due to the vague conceptualization of the concept of terrorist financing and due to its incompatibility with basic notions of criminalization and fundamental principles of the criminal law of many countries specifically Anglo American law Examining a number of ASEAN countries law on terrorist financing the book then shows how these controversial measures have been crept into their law resulting in the violation of human rights and democratic values which Western countries seek to promote

**Evidence-Based Counterterrorism Policy** Cynthia

Lum, Leslie W. Kennedy, 2011-11-06 In the past eight years there has been a massive increase in government spending on counterterrorism intervention development and implementation Given this increase there are two evidence based policy questions that are important to address Is there evidence that any of these programs are effective in other words can they be shown to be linked to reducing terrorism terrorist recruiting or to improving the response and management of terrorist events Do these interventions have secondary or collateral effects that may be costly harmful illegal beneficial or otherwise As Lum and Kennedy discovered in an evaluation research on counterterrorism interventions only a minuscule number of empirical studies of terrorism exist and there is an almost complete absence of evaluation research on counter terrorism strategies This is startling given the enormous increases in the development and use of counter terrorism programs as well as spending on counter terrorism activity Even more disconcerting was the nature of the evaluations we did find some programs were shown to either have no discernible effect on terrorism or lead to increases in terrorism The emphasis of the need for empirical research in evaluating interventions and informing policy cannot be overstated and is the primary goal of Evidence Based Counterterrorism Policy Anti-Money Laundering Wouter H. Muller, Christian H. Kalin, John G.
