Cinema of Contradiction Sally Faulkner, 2006-02-22 A key decade in world cinema the 1960s was also a crucial era of change in Spain *A Cinema of Contradiction* the first book to focus in depth on this period in Spain analyses six films that reflect and interpret these transformations The coexistence of traditional and modern values and the timid acceptance of limited change by Franco's authoritarian regime are symptoms of the uneven modernity that characterises the period *Contradiction* the unavoidable effect of that unevenness is the conceptual terrain explored by these six filmmakers One of the most significant movements of Spanish film history the New Spanish Cinema art films explore contradictions in their subject matter yet are themselves the contradictory products of the state's protection and promotion of films that were ideologically opposed to it *A Cinema of Contradiction* argues for a new reading of the movement as a compromised yet nonetheless effective cinema of critique It also demonstrates the possible contestatory value of popular films of the era suggesting that they may similarly explore contradictions This book therefore reveals the overlaps between art and popular film in the period and argues that we should see these as complementary rather than opposing areas of cinematic activity in Spain

two destructive wars ethnic cleansing and economic disaster this book explores the political and cultural parameters of Americanization and anti Americanism *Youth Culture in Global Cinema* Timothy Shary,Alexandra Seibel,2009-01-27

Coming of age is a pivotal experience for everyone So it is no surprise that filmmakers around the globe explore the experiences of growing up in their work From blockbuster U S movies such as the Harry Potter series to thought provoking foreign films such as Bend It Like Beckham and Whale Rider films about youth delve into young people s attitudes styles sexuality race families cultures class psychology and ideas These cinematic representations of youth also reflect perceptions about youth in their respective cultures as well as young people s worth to the larger society Indeed as the contributors to this volume make plain films about young people open a very revealing window on the attitudes and values of cultures across the globe *Youth Culture in Global Cinema* offers the first comprehensive investigation of how young people are portrayed in film around the world Eighteen established film scholars from eleven different national backgrounds discuss a wide range of films that illuminate the varied conditions in which youth live The essays are grouped thematically around the issues of youthful resistance and rebellion cultural and national identity including religion and politics and sexual maturation including gender distinctions and coming of age queer Some essays engage in close readings of films while others examine the advertising and reception of films or investigate psychological issues The volume concludes with filmographies of over 700 youth related titles arranged by nation and theme *Spanish Cinema in the Global Context* Samuel Amago,2013-09-11

Across a broad spectrum of media markets and national contexts self reflexivity continues to be a favored narrative mode with wide ranging functions In this book Amago argues that in addition to making visible industry and production concerns within the film text reflexive aesthetics have a cartographic function that serves to map the place of a film geographic and cultural within the global cinemascape and thus to bring into sharper relief images of the national Focusing on films in the contemporary Spanish context that in some way reflect back on themselves and the processes of their own production that purposefully blur the distinction between reality and fiction or that draw attention to the various modes of cinematic exhibition and reception Amago proposes ways in which these movies can be employed to understand Spanish national cinemas today as imbedded within a dynamic global system *Postmodern Paletos* Nathan E. Richardson,2002

When Spanish dictator Francisco Franco legalized internal immigration in 1947 he unwittingly inaugurated the greatest period of urban expansion and rural de population that Spain had known During the next two decades nearly four million citizens would move from Spain s traditional pueblos perdidos to overburdened urban metropolises Along with wooden trunks and baskets of chickens the immigrants or paletos as they were often called bore on their journey the weight of centuries of ideological meaning tied to the geographic regions they were traversing To abandon rural Spain had come to signify a rejection of manhood wealth Christian values and even Spanishness itself Paletos however innocent they may have appeared were not ideologically neutral In the coming decades the weight and complexity of the meanings behind immigration the

country and the city would only grow as Spain advanced from economic under development social ignorance and political reaction to full fledged participation in global economics and politics activities that would reshape what it meant to be an immigrant and paeto both within and across the geographic border that had traditionally defined the Spanish nation
