

What you see in other people is a reflection  
of yourself. A person of goodness sees  
goodness in others and a person of evil sees  
evil in others.

## **Reflection Of The Other Person:**

*Other-person-ness and the Person with Profound Disabilities* Pia Matthews, 2022-10-13 Many people think that profound disability presents us with a real problem often because it seems difficult to connect with someone who does not seem to think or act like us Positioning profound disability in this way immediately sets up a them and us where the person with profound disability becomes the problematic other Attempts to bridge the them and us risk reducing everyone to the same where disability is not taken seriously In contrast to a them and us and negative connotations of the other found in the existentialist philosophies of writers like Sartre and Beauvoir Pia Matthews argues for a return to a positive view of the other One positive approach to the other based on an ethics of relationship as championed by Levinas seems to mitigate the otherness of profound disability However this still makes the person with profound disability dependent on the ethical concern of the more powerful other Instead this book argues for return to a personalist philosophy of being offered by Mounier Marcel and Wojtya and deepened by participation belonging and the possibility of contributing to the good of all This deepened philosophy of being gives a more solid foundation for people who are especially at the mercy of others It will be of interest to all scholars and students of disability studies philosophy and anthropology

**Ethical Personalism** Cheikh Mbacke Gueye, 2013-05-02 Ethical Personalism proposes to reflect on the person from at least three levels ontology epistemology and ethics Articulating from various philosophical and religious angles and traditions the ontological and inalienable value of the human person i.e. her dignity the contributors to this volume show not just what it means to be a human person but also what it takes to live accordingly Hence beyond the purely theoretical elaboration on ethical personalism that reposes the crucial debates between relativism and realism on the one hand and consequentialism and deontology on the other hand this volume offers a range of insights useful for addressing concrete and practical matters that we as humans are confronted in our everyday life With the call back to the person which takes roots from a deep conviction to bring into light the value of the person Ethical Personalism unequivocally affirms the necessity of re-placing the person in the centre of our project of society economic plans political settings and environment policies *Know Your*

*Enemy: Reflections Of NPD* Sparkster Hubs, 2013-01-22 In addition to describing the sheer insidious and often covert nature of the narcissist Sparkster Hubs unveils the mask of sanity by taking you on a journey through the disturbing worlds of disguised mental and emotional abuse hidden celebrity and government occultism conspiracy theory NLP Neuro Linguistic Programming various personality disorders and even on to topics as controversial as psychological murder Sparkster adequately explains with detail and precision how such disturbing behaviour is carried out and how it can have a profound effect on the lives mind and soul of victims The cases of Jimmy Savile and Yvonne Freaney are used as examples Know Your Enemy Reflections Of NPD is full of insightful and enlightening but sometimes highly disturbing and potentially shocking information which has been written with clarity in a down to Earth no holds barred style Never before has such a book been written Warning This book is not for the weak minded Public Self and Private Self Roy F. Baumeister, 2012-12-06 Psychology has worked hard to explore the inner self Modern psychology was born in Wundt's laboratory and Freud's consulting room where the inner self was pressed to reveal some of its secrets Freud in particular devoted most of his life to exploring the hidden recesses inside the self hidden even from the conscious mind he said From Freud's work right down to the latest journal article on self schemata or self esteem psychologists have continued to tell us about the inner self More recently psychology has turned some of its attention to the outer self that is the self that is seen and known by other people Various psychologists have studied how the outer self is formed impression formation how people control their outer selves impression management and so forth But how is the outer self related to the inner self There is an easy answer but it is wrong The easy answer is that the outer self is mostly the same as the inner self Put another way it is that people reveal their true selves to others in a honest and straightforward fashion and that others accurately perceive the individual as he or she really is Sometimes it works out that way but often it does not The issue is far too complex for the easy answer
