Reflections A Thematic Reader:

Reflections William Hazzard Barnwell, Julie Price, 1985-03 **Vain Rhetoric** Gary D. Salyer, 2001-06-01 The Book of Ecclesiastes like many ancient and modern first person discourses generates ambivalent responses in its readers The book's rhetorical strategy produces both acceptance of and suspicion towards the major positions argued by the author Vain rhetoric aptly describes the persuasive and dissuasive properties of the narrator's peculiar characterization It also describes how the Book of Ecclesiastes with its abundant use of rhetorical questions constant gapping techniques and other strategies from the arsenal of ambiguity is a stunning testimony to the power of the various strategies of indirection to communicate to the reader something of his or her own rhetorical liabilities and limitations as well as those of the religious community in general

Fictional Worlds and Philosophical Reflection Garry Hagberg, 2022-01-31 This edited collection investigates the kinds of philosophical reflection we can undertake in the imaginative worlds of literature Opening with a look into the relations between philosophical thought and literary interpretation the volume proceeds through absorbing discussions of the ways we can see life through the lens of literature the relations between philosophical saying and literary showing and some ways we can see the literary past philosophically and assess its significance for the present Taken as a whole the volume shows how imagined contexts can be a source of knowledge a source of conceptual clarification and a source of insight and understanding And because philosophical thinking is undertaken after all in words a heightened sensitivity to the precise employments of our words particularly philosophically central words such as truth reality perception knowledge selfhood illusion understanding falsehood can bring a clarity and a refreshed sense of the life that our words take on in fully described contexts of usage And in these imagined contexts we can also see more acutely and deeply into the meaning of words about words metaphor and figurative tropes verbal coherence intelligibility implication sense and indeed the word meaning itself Moving from a philosophical issue into a literary world in which the central concepts of that issue are in play can thus enrich our comprehension of those concepts and in the strongest cases substantively change the way we see them With a combination of conceptual acuity and literary sensitivity this volume maps out some of the territory that philosophical reflection and literary engagement share

Aesthetic and Philosophical

Reflections on Mood Birgit Breidenbach, 2020-04-19 This study explores the concept of Stimmung in literary and philosophical texts of the modern age Signifying both mood and attunement Stimmung speaks to the categories of affective experience and aesthetic design alike The study locates itself in the nexus between discourses on modernity existentialism and aesthetics and uncovers the pivotal role of Stimmung in 19th and 20th century European narrative fiction and continental philosophy The study first explores the philosophical and aesthetic origins and implications of Stimmung to then discuss its role in the narrative fiction of three key authors of modern literature Fyodor Dostoevsky Samuel Beckett and Thomas Bernhard These readings demonstrate a significant shift towards an aesthetic of affective intensity and immediacy in which the experience of the reading process takes centre stage as each author develops an aesthetic philosophy of Stimmung in their own right Through its focus on the concept of Stimmung the study thus unearths a fundamental link between existentialist concerns and narrative practice in modern literature

'Critical Reflections in Literary Research': A

Compendium of Research Papers

Kamalakar Baburao Gaikwad, 2025-09-20

The title of this academic book is Critical Reflections in Literary Research. It is mainly written for the research scholars, teachers, and literature readers. It covers the topics which cultivate their interest and overall insights about the literary research. The papers compiled in this book represent the fruitful and stimulating conversations. Its main objective is to acquaint the readers about the pioneering fictional perceptions of the English literature. This book is a timely collection of research papers on English literature that brings together a diverse assortment of scholarly contributions which explores complex intersections. The most captivating characteristic of this book is its capacity to bridge seemingly incongruent disciplines. Each research paper offers a fresh perspective, a unique insight, and its relationship with broader societal issues. Each paper demonstrates the relevance and richness of literature as a field of academic enquiry. These papers represent a unique exploration of how literature engages with societal issues such as association of law and literature, cinema and literature, third gender, people and religion, thematic significance of Raja Rao's *Kanthapura* and Annabhau Sathe's *Fakira*, a brief review of Henry Fielding's works, Bhavik Sarkhedi and Suhana Bhambhani's views on existential crisis, Arun Joshi's perspectives on existentialism, Aristotle's concept of tragedy, caste discrimination and east-west encounter in R. K. Narayan's fiction, and a critical study of post-modern Indian English Dramatists. The book also comprises with the research papers which highlight on true happiness in Oscar Wilde's novels, Dr. Ambedkar's opinions on education, ecclesiastical intuitions in Graham Greene, significance of values and mannerism through J. C. Hill's work, Narayana Murthy's need for excellence, need of translation through Mahesh Elkunchwar's novel, association of education and religion, traits of protagonists, pseudo zeal of worshippers, racism, womanism, and marginalization of black women, caste culture and politics reflected in dalit literature, the role of recent trends in shaping modern Indian English literature, quality of mercy, blending of mock epic, irony and fantasy, and the portrayal of emancipated and new woman in Namita Gokhale's novel, alienation in Toni Morrison and Alice Walker's novels, Religious Pluralism in Swami Vivekananda's work, mistaken legalistic validation in Joseph Heller's work, and women images through Sylvia Plath's *Mirror*. *The Opacity of Narrative* Peter Lamarque, 2014-03-25. What is narrative? What is distinctive about the great literary narratives? In virtue of what is a narrative fictional or non-fictional? In this important new book, Peter Lamarque, one of the leading philosophers of literature at work today, explores these and related questions to bring new clarity and insight to debates about narrative in philosophy, critical theory, and narratology. He highlights opacity as a feature of literary narratives and examines the implications for our understanding of fictional worlds and fictional characters. Throughout, he challenges received views about narrative, questioning the indispensability of narrative in an individual's self-conception and the importance of both truth and emotion as measures of literary greatness. He reflects on the non-fiction novel, arguing that it does not weaken the distinction between fiction and non-fiction. The book offers a compelling and original account of these and other issues, making

a critical contribution to topical and wide ranging debates

Reflections on Mind and the Image of Reality Jason

Brown, 2017-05-24 This collection of brief essays and still briefer commentaries is a personal reflection on some topics that have been thematic in the development of my theoretical work These essays are not meant to extend the theory into yet uncharted territory but rather to draw out some of its implications for clinical neuroscience philosophy of mind and everyday life The point of view guiding these reflections can be found in prior works but the discerning reader will not fail to see a departure from current models of mind and brain based on circuit board diagrams modular and computational theories that conflict with a processual account in which the mind brain is more like a living organism This perspective which is often at odds with common sense and folk psychology has particular relevance to our concepts of the self the inner life subjective time adaptive process and the world represented in perception

Archival Reflections Santiago Juan-Navarro, 2000 Due to

its scope and perspective this work has a relevance that extends far beyond the conventional bounds of literary studies Concerned as it is with issues of historical understanding culture and politics it has implications for the literary histories of Spanish America and the United States as well as for the fields of inter American and cultural studies literary theory and historiography BOOK JACKET

Hermeneutics and Reflection

Friedrich-Wilhelm von Herrmann, 2013-12-11 Friedrich Wilhelm von Herrmann is known as a major figure in phenomenological and hermeneutics research he was Martin Heidegger s personal assistant for the last ten years of Heidegger s life and assistant to Eugen Fink who in turn was primary assistant to Edmund Husserl However his own philosophical commentaries and readings of Heidegger s work are not familiar to many in the English speaking world Von Herrmann s Hermeneutics and Reflection translated here from the original German represents the most fundamental and critical reflection in any language of the concept of phenomenology as it was used by Heidegger and by Husserl It provides a careful rendition of Husserl s essential contribution to phenomenology then draws a clear demarcation between Husserl s reflective phenomenology and Heidegger s hermeneutic phenomenology While showing the fullest respect for Husserl s phenomenology Hermeneutics and Reflection offers a full fledged critique of Husserl from the perspective of Heidegger s hermeneutic phenomenology

Skepticism and Political Thought in the Seventeenth

and Eighteenth Centuries John Christian Laursen, Gianni Paganini, 2015-02-26 In this collection thirteen distinguished contributors examine the influence of the ancient skeptical philosophy of Pyrrho of Elis and Sextus Empiricus on early modern political thought Classical skepticism argues that in the absence of certainty one must either suspend judgment and live by habit or act on the basis of probability rather than certainty In either case one must reject dogmatic confidence in politics and philosophy Surveying the use of skepticism in works by Hobbes Descartes Hume Smith and Kant among others the essays in *Skepticism and Political Thought in the Seventeenth and Eighteenth Centuries* demonstrate the pervasive impact of skepticism on the intellectual landscape of early modern Europe This volume is not just an authoritative account of skepticism's importance from the Enlightenment to the French Revolution it is also the basis for understanding skepticism's continuing political implications
