Cutting a Figure Richard J. Powell, 2008 Examining portraits of black people over the past two centuries *Cutting a Figure* argues that these images should be viewed as a distinct category of portraiture that differs significantly from depictions of people with other racial and ethnic backgrounds The difference Richard Powell contends lies in the social capital that stems directly from the black subject's power to subvert dominant racist representations by evincing such traits as self composure self adornment and self imagining Powell forcefully supports this argument with evidence drawn from a survey of nineteenth century portraits in depth case studies of the postwar fashion model Donyale Luna and the contemporary portraitist Barkley L Hendricks and insightful analyses of images created since the late 1970s Along the way he discusses major artists such as Fr d ric Bazille John Singer Sargent James Van Der Zee and David Hammons alongside such overlooked producers of black visual culture as the Tonka and Nike corporations Combining previously unpublished images with scrupulous archival research *Cutting a Figure* illuminates the ideological nature of the genre and the centrality of race and cultural identity in understanding modern and contemporary portraiture

Lusheck, 2017-08-07 *Rubens and the Eloquence of Drawing* re examines the early graphic practice of the preeminent northern Baroque painter Peter Paul Rubens Flemish 1577 1640 in light of early modern traditions of eloquence particularly as promoted in the late sixteenth and early seventeenth century Flemish Neostoic circles of philologist Justus Lipsius 1547 1606 Focusing on the roles that rhetorical and pedagogical considerations played in the artist's approach to disegno during and following his formative Roman period 1600 08 this volume highlights Rubens's high ambitions for the intimate medium of drawing as a primary site for generating meaningful and original ideas for his larger artistic enterprise As in the Lipsian realm of writing personal letters the humanist activity then described as a cognate activity to the practice of drawing a Senecan approach to eclecticism a commitment to emulation and an Aristotelian concern for joining form to content all played important roles Two chapter long studies of individual drawings serve to demonstrate the relevance of these interdisciplinary rhetorical concerns to Rubens's early practice of drawing Focusing on Rubens's *Medea Fleeing with Her Dead Children* Los Angeles Getty Museum and *Kneeling Man* Rotterdam Museum Boijmans Van Beuningen these close looking case studies demonstrate Rubens's commitments to creating new models of eloquent drawing and to highlighting his own status as an inimitable maker Demonstrating the force and quality of Rubens's intellect in the medium then most associated with the closest ideas of the artist such designs were arguably created as more robust pedagogical and preparatory models that could help strengthen art itself for a new and often troubled age

Healing with Death Imagery Anees Ahmad Sheikh, Katharina Sheikh, 2018-10-26 Sages of various traditions and

ages have reiterated that we must incorporate the inevitability of death into the fabric of life to experience life's breadth and beauty. Imagery is an important tool in dealing with death and this book is devoted to exploring many facets of this fascinating issue. It begins with an overview of ancient and modern approaches to the use of death imagery for therapeutic purposes, including a discussion of its possible benefits. Chapter 2 specifically exploring Stephen Levine's contributions in this area shows that only by opening up to the reality of death can one make living a conscious process of growth. A number of excellent imagery-based experiential exercises are discussed in detail. Chapter 3 demonstrates the significance of confronting death through mental and artistic images; it discusses six examples of death-related religious and existential works of art. Recently there has been an upsurge of interest in near-death experiences and their salutary effects on attitudes, beliefs, and values. Of particular interest here are increases in spirituality, concern for others, an appreciation of life, and an enhanced sense of meaning and purpose in life. Chapter 4 presents a detailed critical overview of this field of investigation with special emphasis on the transformatory after-effects of near-death experiences. Of all the major religions in the world, Buddhism is at the forefront of exploring the topic of death and dying and developing specific meditative exercises for confronting death. Chapter 5 presents an in-depth treatment of death imagery in Buddhist thought. Exploring the use of hypnosis for death rehearsal. Chapter 6 continues the theme that confrontation with death can lead to healthful consequences. A variation of this technique, hypnotic suicidal rehearsal, is also discussed; it seems to be effective for use with clients who are contemplating suicide. Case examples clarify the details of the process. Over the years, several clinicians have proposed the use of imagery for reconstructing death-related events and thereby facilitating the grieving process for individuals who are experiencing symptoms rooted in unfinished grieving. Chapter 7 gives an exhaustive account of the use of imagery for unresolved grieving, including a number of case histories. Researchers have perhaps devoted more time and energy to the investigation of death anxiety than any other death-related topic. Chapter 8 reviews the literature on death anxiety and death imagery and demonstrates a core connection between the two phenomena. The authors claim that death imagery has the potential not only to ameliorate death anxiety but also to lead to a more authentic existence. In Chapter 9, the authors explain how death imagery can be used constructively in death education; they present several practical suggestions and specific guided imagery exercises. The volume closes with a presentation of a detailed death imagery experiential exercise aimed at encountering death to enhance our appreciation of life. The reader will notice this thread running steadily throughout the book. This comprehensive book devoted to the role of death imagery in health and growth, perhaps the first of its kind, will be helpful in changing the rather sinister view of death prevalent in our culture to a deeper appreciation for its enhancing potential.
