*Student Empowerment in Higher Education. Reflecting on Teaching Practice and Learner Engagement* Anjoom A. Mukadam ,2020-05-04 Student Empowerment in Higher Education brings together the accumulated knowledge and experience of many accomplished teachers and students from higher education institutions around the world and has much to offer those who are engaged in higher education as students teachers or support staff The authors offer personal reflections in teaching learning mentoring assessment hands on activities course design and student identities in higher education across the globe supported by academic research and scholarship Readers are provided with a window into tried and tested empowering practices in varying contexts enabling them to see what works and what does not alongside the challenges and possibilities A distinctive feature of this book and its paramount strength is that it explores best practices in student empowerment whilst reflecting on matters of teaching and learning that are familiar to students and teachers alike and also explores practices in a variety of disciplines The intention of these volumes therefore is not only to inform readers about the diverse learning and teaching approaches of the authors but most importantly to facilitate processes of student

empowerment and promote reflection on teaching and learning practices In recent decades higher education policy discourse has persistently implied that a university education is delivered to students under the impersonal banner of the student experience Not only does this commodify the diverse individual experiences of students into one marketable product it also creates false barriers and power dynamics between students and their teachers In *Student Empowerment in Higher Education* the students and lecturers who collaborated to write this important volume have literally blown such misleading notions out of the window I highly recommend each varied and autonomous chapter to learn what really inspires confidence and success in university students Professor Sarah Hayes Professor of Higher Education Policy University of Wolverhampton The two volumes of *Student Empowerment in Higher Education* offer the reader rich and varied examples and understandings of student empowerment from around the world The authors provide reflective accounts of learning and teaching from diverse perspectives and disciplines which focus on many different areas of practice in higher education It is this variety that will appeal to many readers as the source of ideas and inspiration for numerous possible routes to empowerment With many chapters co authored by students and staff the book models the collective responsibility students and staff have for enhancing student empowerment Dr Catherine Bovill Senior Lecturer in Student Engagement University of Edinburgh Fulbright Scholar Elon University North Carolina USA Visiting Fellow Knowledge Exchange University of Winchester

*Captive Histories* Evan Haefeli, Kevin Sweeney, 2006 This volume draws together an unusually rich body of original sources that tell the story of the 1704 French and Indian attack on Deerfield Massachusetts from different vantage points Texts range from one of the most famous early American captivity narratives John Williams *The Redeemed Captive* to the records of French soldiers and clerics to little known Abenaki and Mohawk stories of the raid that emerged out of their communities oral traditions Evan Haefeli and Kevin Sweeney provide a general introduction extensive annotations and headnotes to each text Although the oft reprinted *Redeemed Captive* stands at the core of this collection it is juxtaposed to less familiar accounts of captivity composed by other Deerfield residents Quentin Stockwell Daniel Belding Joseph Petty Joseph Kellogg and the teen aged Stephen Williams Presented in their original form before clerical editors revised and embellished their content to highlight religious themes these stories challenge long standing assumptions about classic Puritan captivity narratives equally noteworthy offering a rare opportunity not only to compare captors and captives accounts of the same experiences but to do so with reference to different Native oral traditions Similarly the memoirs of French military officers and an excerpt from the Jesuit Relations illuminate the motivations behind the attack and offer fresh insights into the complexities of French Indian alliances Taken together the stories collected in this volume framed by the editors introduction and the assessments of two Native scholars Taiaiake Alfred and Marge Bruchac allow readers to reconstruct the history of the Deerfield raid from multiple points of view and in so doing to explore the interplay of culture and memory that shapes our understanding of the past

News-letter of the American Antiquarian Society ,1982      Sharia Versus Freedom

Andrew G. Bostom, 2012-11-06 Author Andrew G Bostom expands upon his two previous groundbreaking compendia *The Legacy of Jihad* and *The Legacy of Islamic Antisemitism* with this collection of his own recent essays on Sharia Islamic law. The book elucidates unapologetically Sharia's defining Islamic religious principles and the consequences of its application across space and time focusing upon contemporary illustrations. A wealth of unambiguous evidence is marshaled, distilled and analyzed including objective erudite studies of Sharia by leading scholars of Islam, the acknowledgment of Sharia's global resurgence even by contemporary academic apologists for Islam, an abundance of recent polling data from Muslim nations and Muslim immigrant communities in the West confirming the ongoing widespread adherence to Sharia's tenets, the plaintive warnings and admonitions of contemporary Muslim intellectuals, freethinkers and believers alike about the incompatibility of Sharia with modern Western derived conceptions of universal human rights and the overt promulgation by authoritative mainstream international and North American Islamic religious and political organizations of traditional Sharia based Muslim legal systems as an integrated whole i.e. extending well beyond mere family law aspects of Sharia. Johannes J G Jansen Professor for Contemporary Islamic Thought Emeritus at Utrecht University says this book will prove sobering to even staunch optimists.
