Choudhury,Ishaq Bhatti,2016-07-28 The fields of morality and ethics have been left out significantly from socio scientific study in general and in economics and finance in particular Yet this book argues that in this age of post modernist analytical inquiry the study of morality and ethics is an epistemological requirement This book illustrates the delimiting nature of mainstream economic reasoning in treating morality and ethics and highlights the potential contribution of analytical monotheism as typified by the Islamic concept of Tahwid The principal purpose of this book is to undertake an introductory exploration of the critical area of comparative economic thought in order to place the nature and emergence of ethico economic theory in its proper context It is ultimately argued that such a post orthodoxy revolutionary methodological

worldview can be presented by Islamic political economy Islamic economics and finance New Thinking in Complexity for the Social Sciences and Humanities Ton Jörg, 2011-08-09 The underlying idea and motive for the book is that the notion of complexity may humanize the social sciences may conceive the complex human being as more human and turn reality as assumed in our doing social science into a more complex that is a richer reality for all The main focus of this book is on new thinking in complexity with complexity to be taken as derived from the Latin word *complexus* that which is interwoven The trans disciplinary approach advocated here will be trans disciplinary in two ways firstly by going beyond the separate disciplines within the fields of both natural sciences and social sciences and secondly by going beyond the separate cultures of the natural sciences and of the social sciences and humanities Knowledge Management Christian Starý, 2007 This collection of papers from the 2007 International Conference on Knowledge Management organized by the Executive Academy of the Vienna University of Economics jointly with the International Knowledge Management Society IKMS the Austrian Society for Technology Policy uGTP the Platform Knowledge Management PWM the Society of Learning SoL Austria the Competence Centre for Knowledge Management Linz the Austrian Computing Society OCG Business Innovation Consulting BIC Austria and Knowledge Management Associates KMA represents recent outstanding work by researchers and practitioners in the field of knowledge management **Beyond Sociology** Ananta Kumar Giri, 2017-12-20 This book explores the contours of a transformational sociology which seeks to reconsider the horizons of sociological imagination It questions accepted modernist assumptions such as the equation of society and nation state the dualism of individual and society and that of ontology and epistemology Arguing that contemporary sociology suffers from what Ulrich Beck calls the Nato like fire power of western sociology it argues that sociology has to open itself to transcivilizational dialogues and planetary conversations about self culture and society The book also challenges scholars to go beyond a privileging of the post traditional telos of modernist sociology and puts forward a foundational interrogation of modernist sociology It underscores the limitations of established conventions of sociology and considering an alternative sociology based upon Confucian vision and practice of self transformation This collection offers a way to go beyond dominant structures of modern sociology and contemporary dominant ways of thinking about and doing sociology helping us cultivate a transdisciplinary sociology **Possibilities** David Graeber, 2007 An anthropologist investigates the revolution of everyday life
