Reflections On The Problem Of Relevance:

Reflections on the Problem of Relevance Alfred Schutz, 1970 *The Structures of the Life-world* Alfred Schutz, Thomas Luckmann, 1973 *The Structures of the Life World* is the final focus of twenty seven years of Alfred Schutz's labor encompassing the fruits of his work between 1932 and his death in 1959 This book represents Schutz's seminal attempt to achieve a comprehensive grasp of the nature of social reality Here he integrates his theory of relevance with his analysis of social structures Thomas Luckmann a former student of Schutz's completed the manuscript for publication after Schutz's untimely death

Understanding Law in Micronesia Brian Z. Tamanaha, 2024-01-08 This book examines law in Micronesia from a novel perspective It draws upon several branches of interpretive analysis including mundane phenomenology symbolic interaction and cultural hermeneutics to construct a comprehensive approach to transplanted systems of state law Rather than the usual focus on legal norms and institutions this approach directs attention to the law related meaningful actions and understandings of legal actors and of non legal actors Application of this approach results in insights about law in Micronesia as well as about law itself and about the ideology of law A wide range of subjects are addressed from the nature of legal thinking to the autonomy of law It is a work in legal theory grounded in psychological sociological and anthropological observations and analysis

Phenomenology of Consciousness and Sociology of the Life-World Helmut R. Wagner, 1983 A method of inquiry largely formulated by the German Edmund Husserl and later adapted by Alfred Schutz phenomenological psychology is explained in this introductory study It shows how phenomenology can be used in examining the reality of the world of everyday life and how it provides an antidote to behaviorism symbolic logic and other positivist systems

Reflections on the Problems of Relevance Alfred Schutz, 1970 **The Anthem Companion to Alfred Schutz** Michael Barber, 2022-08-16 Given that Schutz was a philosopher and a social scientist this book will examine topics in Schutz's philosophical phenomenological theory of the social world such as the second person the face to face relationship the meaning of human action signs symbols relevance or interests Schutz's explanation of the social world however was meant to provide a philosophical foundation for the social sciences and so this book will also consider epistemological questions such as traditional knowledge and the opacity of knowledge and theory that is the neglected or unseen questions that accompany knowing or theorizing Also authors from within the Schutzian framework will address issues within the social sciences such as the Durkheimian aspects of Schutz's thought the sociology of knowledge and the theory of sociology It will also explore how Schutzian theory which is often viewed as a micro sociology can be extended to give an account of a macro sociological reality like modern society *Gesellschaft*

Schutzian Research: vol. 4 / 2012 Michael Barber, 2010-01-01 Relevance and Irrelevance Jan Strassheim, Hisashi Nasu, 2018-09-24 Relevance drives our actions and channels our attention it shapes how we make sense of the world and communicate with each other Irrelevance spreads a twilight which blurs the line between information we do not want to access and information we cannot access In disciplines

as diverse as philosophy sociology the information sciences and linguistics relevance has been proposed as a key concept This book is the first to bring together the often unrelated traditions Researchers from different fields discuss relevance and relate it to the challenges of irrelevance which have so far been neglected despite their significance for our chances of making well informed decisions and understanding others The contributions focus on theoretical and conceptual questions on specific factors and fields and on practical and political implications of relevance and irrelevance as forces which are even stronger when they remain in the background *Logos of Phenomenology and Phenomenology of The Logos. Book Four* Anna-Teresa Tymieniecka, 2006-07-09 Prompted and ever diversified by the specifically human interrogative logos scientific inquiries seek a common system of links in order to mutually confirm and rectify their results Coming closer and closer to phenomenology the sciences of life find the common ground of the reality in the onto-poiesis of life Could it not be that the interrogative logos of science participating in human creative inventiveness will bring together also the divergent scientific methods in a common network A network which comprises natural processes societal sharing in life and existential communication

Schutzian Phenomenology and Hermeneutic Traditions Michael Staudigl, George Berguno, 2013-08-04 Schutzian Phenomenology and Hermeneutic Traditions links Alfred Schutz to the larger hermeneutic tradition in Continental thought illuminating the deep affinity between Schutzian phenomenology and hermeneutics The essays collected here explore a broad spectrum of Schutzian themes and concerns from Schutz's concrete affinities to hermeneutic traditions his interpretationism and the pragmatist nature of Schutz's thought to questions concerning the role of the media and music in our understanding of the life world and intersubjectivity The essays go on to explore the practical applicability of Schutz's thoughts on questions regarding economics literature ethics and the limits of human understanding Given its emphasis on the application of Schutzian ideas and concepts this book will be of special interest to a wide range of readers in the social sciences and humanities who are interested in the application of phenomenology to social political and cultural phenomena

Phenomenology 2010. Volume 3: Selected Essays from the Euro-Mediterranean Area, In the Horizon of Freedom Copoeru, Ion, Kontos, Pavlos, Serrano de Haro, Agustin, 2011-01-01 Nu s au introdus date Thiselton on Hermeneutics Anthony C. Thiselton, 2006 Hermeneutics is an interdisciplinary study of how we interpret texts especially biblical texts in the light of theories of understanding in philosophy meaning in literary theory and of theology This volume brings together the seminal thought of a leading contemporary pioneer in this field Thiselton's *The Two Horizons* was a classic on how horizons of biblical texts engage creatively with the horizons of the modern world The author's later *New Horizons in Hermeneutics* explored still more deeply the transforming capacities of biblical texts while his massive commentary on 1 Corinthians interpreted an epistle This volume collects many of Anthony Thiselton's more notable writings from some seven books and 70 articles to which he adds his own re appraisals of earlier work It uniquely expounds the thought of a major contemporary British theologian through his own words and includes his own critical assessments

Collected Papers V. Phenomenology and the Social Sciences Alfred Schutz, 2011-08-31 This book shows how phenomenology of the social sciences differs from positivistic approaches and presents Schutz's theory of relevance as a key feature of his own phenomenology of the social world. It begins with Schutz's appraisal of how Husserl influenced him and continues with exchanges between Schutz and Eric Voegelin, Felix Kaufmann, Aron Gurwitsch, and Talcott Parsons. This book presents for the first time Schutz's incisive criticisms of T. S. Eliot's theory of culture. *Collected Papers IV A.*

Schutz, 2013-04-09 Following the thematic divisions of the first three volumes of Alfred Schutz's *Collected Papers* into *The Problem of Social Reality*, *Studies in Social Theory and Phenomenological Philosophy*, this fourth volume contains drafts of unfinished writings, drafts of published writings, translations of essays previously published in German, and some largely unpublished correspondence. The drafts of published writings contain important material omitted from the published versions, and the unfinished writings offer important insights into Schutz's otherwise unpublished ideas about economic and political theory as well as the theory of law and the state. In addition, a large group contains Schutz's reflections on problems in phenomenological philosophy, including music, which both supplement and add new dimensions to his published thought. All together, the writings in this volume cover Schutz's last 15 years in Europe as well as manuscripts written after his arrival in the USA in 1939. Audience: Students and scholars of phenomenology, social theory, and the human sciences in general.

Experiencing Multiple Realities Marius Ion Bența, 2018-02-15 This book offers a theoretical investigation into the general problem of reality as a multiplicity of finite provinces of meaning as developed in the work of Alfred Schutz. A critical introduction to Schutz's sociology of multiple realities as well as a sympathetic re-reading and reconstruction of his project. *Experiencing Multiple Realities* traces the genesis and implications of this concept in Schutz's writings before presenting an analysis of various ways in which it can shed light on major sociological problems such as social action, social time, social space, identity, or narrativity. *Social Typifications and the Elusive Other* Michael D. Barber, 1988 This book fully discusses Schutz's account of social reality and theory of motivation, including how his phenomenology casts the Marxian sociology of knowledge in a new light. *The Palgrave Handbook of Macrophenomenology and Social Theory* Carlos Belvedere, Alexis Gros, 2023-08-14 This Palgrave Handbook showcases how the phenomenological approach, especially but not only as developed by Alfred Schutz, can make important contributions to the theoretical analysis of macro-social phenomena such as the state, history, culture, and interculturality, class relations and struggles, social movements and protests, capitalism, democracy, and digitalization processes. It gathers systematically and intellectually, historically oriented chapters that deal with these macro-social phenomena from a phenomenological perspective. This handbook is mainly intended for a threefold audience: sociologists and social scientists at large, both theoretically and empirically oriented phenomenological sociologists and phenomenological philosophers. This book includes chapters by internationally renowned specialists in social theory, phenomenological sociology, and phenomenology.
