Reflections From The North Country:

Reflections from the North Country Sigurd F. Olson, 2012-04-25 Written in the last years of his life *Reflections from the North Country* is often considered Sigurd Olson's most intellectually significant work In an account alive with anecdote and insight Olson outlines the wilderness philosophy he developed while working as an outspoken advocate for the conservation of America's natural heritage Based on speeches delivered at town meetings and government hearings this book joins *The Singing Wilderness* and *Listening Point* as the core of Olson's work Upon its initial publication in 1976 *Reflections from the North Country* with Olson's unique combination of lyrical nature writing and activism became an inspiration to the burgeoning environmental movement selling over 46 000 copies in hardcover In this wide ranging work Olson evokes the soaring grace of raven osprey and eagle the call of the loon and the song of the hermit thrush He challenges the reader to loosen the grasp of technology and the rush of contemporary life and make room for a sense of wonder heightened by being in nature From evolution to the meaning and power of solitude Olson meditates on the human condition offering eloquent testimony to the joys and truths he discovered in his beloved north country wilderness

Mesa Verde's Secret Garden Christopher Barns, 2025-05-13 Mesa Verde National Park is the only congressionally designated land based Wilderness to prohibit all recreational use While backcountry use was encouraged for

decades stewardship changed over time as gardening the park for aesthetic purposes decreased while secrecy increased The reasons for these changes as Christopher Barns discovered are multifaceted but ultimately they reflect a desire to protect the park s thousands of archaeological sites including six hundred Ancestral Puebloan cliff dwellings while allowing natural processes to continue However much of the park is without recognizable cultural features and if the public is prohibited from experiencing the surrounding landscape Barns asks what is being protected and for whom Mesa Verde s Secret Garden is an authoritative history of Mesa Verde National Park s management The book utilizes unpublished primary sources from the park s archives including internal memos public reports interviews and anonymous marginalia and contextualizes them in the evolving and often conflicting federal and local priorities for Wilderness conservation and the national parks The result of this painstaking research is a fascinating chronicle of national park administration and development over a nearly 120 year history that provides unique insights into the people and protocols that have shaped the very landscape of Mesa Verde

Earthkeeping and Character Steven Bouma-Prediger,2019-11-19 Addressing a topic of growing and vital concern this book asks us to reconsider how we think about the natural world and our place in it Steven Bouma Prediger brings ecotheology into conversation with the emerging field of environmental virtue ethics exploring the character traits and virtues required for Christians to be responsible keepers of the earth and to flourish in the challenging decades to come He shows how virtue ethics can enrich Christian environmentalism helping readers think and act in ways that rightly value creation *A Wilderness Within* David Backes,1997 *Lakeshore Living* Paul J. Radomski,Kristof Van Assche,2014-04-01 In this remarkable and remarkably accessible synthesis of ecology landscape design and social sciences the authors present an approach to lakeshore living that addresses the need to create rich sustainable places and communities on the water where both the loon and the family find a place and where the cabin can be handed down with integrity to the grandchildren Fragile shorelands require care and that caring comes from knowledge experience and an environmental ethic Radomski and Van Assche argue that an environmentally sensitive lakeshore place and community design is the way forward While many factors affect the quality of lakes and lakeshore living property owners and local communities do not have to wait until policies are perfect the design approach advocated here can be applied in any place people living lakeside can get together and collaborate The approach presented here is proactive and context sensitive new designs have to fit the existing ecological cultural and policy landscapes Development is always re development in this sense The authors introduce the reader step by step to this approach and carefully discuss leverage points that can be helpful in implementation and system change **Breath of Wilderness** Kristin Eggerling,2016-05-25 Breath of Wilderness is the story of Olson s love for wild places and how that love transformed his life inspiring him to play a key role in the movement to preserve wilderness throughout North America including the Boundary Waters Canoe Area Wilderness the largest lakeland wilderness in the country *Ecoflourishing and Virtue* Steven Bouma-Prediger,Nathan Carson,2023-11-10 This book brings together the

interdisciplinary reflections of Christian scholars and poets to explore how ecological virtues can foster the flourishing of our home planet in the face of unprecedented environmental change and devastation Its central questions are What virtues are needed for us to be better caretakers of our home planet What vices must we extinguish if we are to flourish on the earth What is the connection between such virtues and vices and the flourishing of all creatures Each contribution offers insight on ecological virtue ethical questions through disciplinary lenses ranging from biology geology and economics to literature theology and philosophy The chapters feature the legacy and lessons of senior scholars reflecting on a lifetime of earthkeeping work highlight global concerns and perspectives and include compelling poetic reflections Focusing on the way in which human vices and virtues drive so many of our ecological problems and solutions the volume engages timely issues of environmental importance such as environmental racism interfaith dialogue ecological philosophies of work and economics marine pollution ecological despair hope and humility encouraging fresh reflection and action It will be of interest to those working in theology and religious studies philosophy ethics and environmental studies
