Reflections On Development In Southeast Asia:

Reflections on Development in Southeast Asia Teck Ghee Lim, 1988 The rapid pace of economic development in Southeast Asia has involved a changing and often volatile relationship between traditional structures and values and new structures associated with state and administrative power In this volume a variety of original perspectives is offered on crucial subjects including region the bureaucracy the state and non governmental organizations Critical Reflections on Development D. Kingsbury, 2013-03-05 Designed as a critique of the key failures of international development this book brings together practitioners policy makers researchers activists and academics in an attempt to work toward a shared conceptualisation of development by outlining and critically reflecting on their own understanding of development An Analysis of Mahbub ul Haq's Reflections on Human Development Riley Quinn, 2017-07-05 What is the ultimate goal of any human society There have been many answers to this question But by producing a series of notably well structured arguments economist Mahbub ul Haq s *Reflections on Human Development* persuaded readers that the goal should be defined quite simply as the requirement that each society improve the lives of its citizens If this is the agreed aim Haq continues then economic development should be designed to support human development His well structured reasoning helped development economists recalibrate much of what had previously been regarded as self evident that economic productivity was the main barometer of social well being The work had a profound effect and Haq s thinking helped produce a new understanding of what development actually meant Haq conscientiously mapped out arguments and counter arguments to persuade readers that development did not simply mean an increase in productivity but rather an increase in human development the capability of people to live the lives they want to By bringing the abstract back to the concrete Haq reevaluated the neoliberal reasoning that suggested economic development necessarily benefitted everybody And by virtue of his strong command of reasoning Haq showed how economic development provided no guarantees that rich people would spend money on improving health education or other human development outcomes for the poor **Reflections on Human Development** Mahbub ul Haq, 1995 Group of Seven

African Development Perspectives: A Holistic Reflection T A Ngwana, 2024-01-05 Africa remains a continent that is yet to achieve its full potentials despite an abundance of resources and a rich cultural pedigree There have been various attempts to dissect the impediments to the continent's progress in its march towards development and true independence Consequently this book moves away from mere identification of challenges to proffering solutions The ideas put forward about African development in this book draw from a multiplicity of backgrounds They are also offered through the prism of the lived experiences of contributors who are keen on engendering an African solution that weaves global dynamics into Africa's cultural context and did not shy away from identifying themselves as global citizens from Africa The compelling read is a critical appraisal of germane issues in Africa's quest for development which speaks truth to both the powerful and the powerless within and beyond Africa on why prioritising Africa's development is as pressing as the Global climate catastrophe

Governance and Development in India Seyed Hossein Zarhani, 2018-09-03 The study of the political economy of development in India is significant as India has emerged as one of the fastest growing countries during the last three decades and the rate of economic growth and poverty reduction have not been matched in India's subnational states Although the Union Government has introduced and implemented several economic reforms since 1991 to enhance the economic development the results of implantation have varied Governance and Development in India compares two Indian subnational states Andhra Pradesh and Bihar The book does not consider the state as an aggregate entity rather it disaggregates the state relationally and spatially Concentrating on the micro institutional variables and the role of regional elites the author investigates the political roots of the divergence of development trajectories among India's subnational states since liberalization as an essential aspect of the political economy of development in India The book explores the black box of the multi layered state of India and interactions among the Central Government the states regional leaders and other stakeholders and explains why the regional leaders

have pursued divergent economic strategies using the analytical narrative research method and the subnational comparative research method. Firmly based on the theoretical foundations of the neo institutional rational choice model of governance, polycentric hierarchy theory and the strategies for regional elite strategy analysis combined with empirical research, this book is a valuable contribution to the fields of comparative political economy, state politics in India, governance and development in developing countries and South Asian comparative politics. **Migrant Remittances in South Asia** M. [The Cambridge Handbook of Environmental Justice and Sustainable Development](#) Sumudu A. Atapattu, Carmen G. Gonzalez, Sara L. Seck, 2021-04-01. Despite the global endorsement of the Sustainable Development Goals, environmental justice struggles are growing all over the world. These struggles are not isolated injustices but symptoms of interlocking forms of oppression that privilege the few while inflicting misery on the many and threatening ecological collapse. This handbook offers critical perspectives on the multi dimensional intersectional nature of environmental injustice and the cross cutting forms of oppression that unite and divide these struggles, including gender, race, poverty and indigeneity. The work sheds new light on the often neglected social dimension of sustainability and its relationship to human rights and environmental justice. Using a variety of legal frameworks and case studies from around the world, this volume illustrates the importance of overcoming the fragmentation of these legal frameworks and social movements in order to develop holistic solutions that promote justice and protect the planet's ecosystems at a time of intensifying economic and ecological crisis.
