A. Smith,2004-12-01 Although God is making a comeback in our society popular culture still takes its orders from the Enlightenment a movement that denied faith a prominent role in society Today many are questioning this elevation of reason over faith How should Christians respond to a secular world that continues to push faith to the margins While there is still no consensus concerning what a postmodern society should look like James K A Smith suggests that the answer is a reaffirmation of the belief that Jesus is Lord over all Smith traces the trends and directions of Radical Orthodoxy proposing that it can provide an old but new theology for a new generation of Christians This book will challenge and encourage pastors and thoughtful laypeople interested in learning more about currents in contemporary theology      *Radical Thoughts on Ethical Leadership* Carole L. Center Praxis examines the tensions between the field's professed beliefs and everyday practices and offers a process by which the writing center discipline as a whole might rebuild itself anew. It will be invaluable to writing center directors, tutors, scholars, and students as well as to administrators and compositionists. The theological turn in continental philosophy and the turn to Paul in political philosophy have occasioned a return to radical theology, a tradition whose philosophical heritage can be traced to the death of God announced in the work of Nietzsche and Hegel. John D. Caputo's deconstructive theology and Slavoj Žižek's materialist theology are two radical theologies that explore what it might mean to pass through the death of God and to abandon this experience as specifically Christian. Radical Theology and Emerging Christianity demonstrates how these theologies are transforming everyday religious practices through an examination of the work of Peter Rollins and Kester Brewin, two figures at the radical margins of a contemporary expression of Western religiosity called emerging Christianity. The author uses her analysis of all four figures to argue that deconstructive practices can enable religious communities to become part of a wider materialist collective in which the death of God continues to resonate. Pushing the methodological boundaries of philosophy of religion by examining religious practices as the site of philosophical signification, the book challenges scholars and practitioners alike to a new and more demanding dialogue between theory and practice. **Radical Elegies** Eleanor Perry, 2022-04-21. Scholarship has traditionally characterized elegy as a Eurocentric tradition, a genealogy spanning from ancient Greek pastoral poems via the English elegy to English and Anglo-American Modernist contemporary poets. Perry examines how these genealogical constructions operate as a means of framing which guides interpretation. This book argues that they reflect a necropoetics, a system of principles, precepts, and techniques which serve to establish and maintain ideas about whose lives are worthy of being mourned publicly and whose losses matter. Examining elegies that challenge questions of whose deaths may be grieved, elegies which articulate the various ways in which certain lives are

made precarious and disposable and elegies which interrogate colonial violence structures of white power militarized forms of policing prison industrial and military industrial complexes Perry explores possibilities for radical new ways of understanding elegy beyond established genealogical frames This study retheorizes some basic terms of analysis of contemporary US poetry and poetics critical race and ethnic studies racial capitalism and contemporary theories of comparative and relational racialization
