Danelle:

Learning about the change in history for the deaf community was very interesting to me because I never knew how mistreated the deaf were back in time. The fact that people didn't want to give deaf people the same rights as they had is upsetting to me because people can't help the way that they're born. I think it was not only brave for Gallaudet to start a school for the deaf in America, but also very considerate of him. It was a bold move because he could have received very negative feedback from society since many people believed that the deaf didn't deserve to be educated. It was considerate of him because now deaf people throughout all of America have the same rights and freedom as everyone else. It has definitely helped create more of a "perfect society" that Americans in 1820 were hoping to achieve. I enjoyed learning about the motives Gallaudet had in making this huge step to change the way humankind lives and communicates. After learning about the effect sign language has on the world, it makes me want to learn this language myself.
