

Reflexology

by Dr. Paul C. Bruckner

• Reflexology is an alternative health therapy that uses pressure of reflex points to stimulate the body's healing processes. It is based on the principle that there are reflex points in the hands and feet that correspond to every part of the body. These points are stimulated by pressure from reflexologists. In the hands, there are 10 main groups of reflex areas, each containing three groups of reflex points. In the feet, there are 10 main groups of reflex areas, each containing four groups of reflex points. This guide shows and describes each of these reflex areas.
