Reform Of Civil Nuclear Liability Budapest Symposium 1999:

Reform of Civil Nuclear Liability OECD Nuclear Energy Agency, 2000 Proceedings of the International Symposium which reviewed nuclear liability and compensation issues in the context of the recent revision of the Vienna Convention on Civil Liability for Nuclear Damage the adoption of the Convention on Supplementary Compensation for Nuclear Damage and the current negotiations on the amendment of the Paris Convention on Third Party Liability in the Field of Nuclear Energy and the Brussels Supplementary Convention **Reform of civil nuclear liability** ,2000 **Reform of Civil Nuclear Liability** ,2000 **Nuclear Non-Proliferation in International Law - Volume III** Jonathan L. Black-Branch, Dieter Fleck, 2016-11-14 This third volume of the book series on Nuclear Non Proliferation in International Law focuses on the development and use of nuclear energy for peaceful purposes within a contemporary global context an interdependent characteristic of the Non Proliferation Treaty along with disarmament and non proliferation The scholarly contributions in this volume explore this interrelationship considering the role of nation States as well as international organizations such as the International Atomic Energy Agency IAEA in monitoring and implementing the Treaty The 2015 Nuclear Accord with Iran and its implementation is also discussed highlighting relevant developments in this evolving area Overall the volume explores relevant issues ultimately presenting a number of suggestions for international cooperation in this sensitive field where political discussion often dominates over legal analysis The important tasks of limiting the proliferation of nuclear weapons ensuring the safety and security of peaceful uses of nuclear energy and achieving nuclear disarmament under strict and effective international control calls for the interpretation and application of international legal principles and rules in their relevant context a task that this book series endeavours to facilitate whilst presenting new information and evaluating current developments in this area of international law Jonathan L Black Branch is Dean of Law and Professor of International and Comparative Law at Robson Hall Faculty of Law University of Manitoba a Barrister at One Garden Court London a Magistrate in Oxfordshire a Justice of the Peace for England a Member of Wolfson College University of Oxford and Chair of the International Law Association ILA Committee on Nuclear Weapons Non Proliferation Member of the Advisory Board of the Amsterdam Center for International Law ACIL and Rapporteur of the International Law Association ILA Committee on Nuclear Weapons Non Proliferation Contemporary International Law **International Documents on Environmental Liability** Hannes Descamps, Robin Slabbinck, Hubert Bocken, 2008-05-26 International Documents on Environmental Liability brings together 30 official full text documents in the field of international environmental liability into an easily accessible practical handbook details the work of the International Law Commission on this topic and provides the latest versions of international liability conventions and their statuses including the latest on 1 2003 UNECE Kyiv Liability Protocol 2 2004 EC Directive on Environmental Liability 3 2005 Antarctica Liability Annex The authors combined capacity as an academic policy advisor and practitioner have helped bring forth a publication that reflects their experience of being involved in the

development negotiations and implementation of environmental liability regimes at both an international and European level

Research Handbook on International Environmental Law Malgosia Fitzmaurice, David M. Ong, Panos Merkouris, 2010 an impressive volume and the editors have put together a high quality collection Research Handbook on International Environmental Law ought to be an invaluable reference source for both teachers and students of international environmental law in the years to come Web Journal of Current Legal Issues This wide ranging and comprehensive Handbook examines recent developments in international environmental law IEL and the crossover effects of this expansion on other areas of international law such as trade law and the law of the sea The expert contributors offer analyses of foundational issues in IEL such as responsibility for environmental damage sustainable development and the precautionary principle alongside studies in topical subject areas including marine protection and the law of international watercourses This Research Handbook offers an in depth analysis of IEL both as a field of law in its own right and as part of the wider system of international law It gives a comprehensive view of IEL in all its forms and complexity With thorough examination of specific environmental regimes and compliance mechanisms this Handbook will be an indispensable resource for legal scholars students and practitioners alike

Nuclear Safety Gianni Petrangeli, 2006-05-30 Nuclear Safety provides the methods and data needed to evaluate and manage the safety of nuclear facilities and related processes using risk based safety analysis and provides readers with the techniques to assess the consequences of radioactive releases The book covers relevant international and regional safety criteria US IAEA EUR PUN URD INI The contents deal with each of the critical components of a nuclear plant and provide an analysis of the risks arising from a variety of sources including earthquakes tornadoes external impact and human factors It also deals with the safety of underground nuclear testing and the handling of radioactive waste Covers all plant components and potential sources of risk including human technical and natural factors Brings together information on nuclear safety for which the reader would previously have to consult many different and expensive sources Provides international design and safety criteria and an overview of regulatory regimes

Environmental Damage in International and Comparative Law Michael Bowman, Alan E. Boyle, 2002 This study considers the problems of defining and valuing environmental damage from the perspective of international and comparative law The need for a broad and systematic evaluation of this issue is illustrated by the number of topics presently on the international law making agenda to which it is relevant including the UN Compensation Commission's decisions on compensation for environmental losses suffered by Kuwait in the Gulf War nuclear and oil pollution liability regimes the development of an environmental liability protocol to the Antarctic Treaty and other agreements on bio safety and genetically modified organisms It is thus an important element in contemporary efforts to strengthen legal remedies for environmental harm which does not necessarily come within traditional categories of legally protected personal or property rights

Nuclear Energy and Liability in South Asia M. P. Ram Mohan,2015-04-15 This book advocates pursuing a regional approach to nuclear risk framework which it argues is more promising in the current scenario than the non achievable global regime In the development of international legislation on liability the nuclear energy sector represents an alternative approach to a transboundary liability regime Building on this foundation and following the Chernobyl accident international consensus was sought for a stronger transboundary legal regime in the event of a nuclear disaster However after sixty years of the existence of international nuclear liability laws and twenty five years after Chernobyl the primary objectives of the Conventions harmonization and a global regime remain unfulfilled Further many countries are now creating or expanding nuclear programs without adequate transboundary legal protection In light of these issues a regional approach is an option that cannot be ignored Given its rapidly expanding nuclear energy footprint South Asia is in a unique position to adopt a regional mechanism The methodology adopted for the study in the book combines a literature review of international law on nuclear liability with an analysis of South Asian nuclear energy programs and their international and national legal obligations A technical risk assessment study conducted to identify the level of transboundary nuclear risk within South Asia is also presented This is followed by interviews with experts and policymakers to gauge the willingness of the South Asian Association for Regional Cooperation SAARC community to respond to this shared regional concern

Sharing the Costs and Benefits of Energy and Resource Activity Lila Barrera-Hernández,Barry Barton, Lee Godden,Alastair Lucas,Anita Rønne,2016-03-31 A new phase is emerging in the relationship between energy and resource activities and the communities that are affected by them Any energy or resource project a mine a wind farm a dam for hydroelectricity or a shale gas development will involve a mix of impacts and benefits for communities For many years the law has mediated impacts on communities and provided for the distribution of financial benefits Now there is growing

awareness of the need to consider not only a wider range of costs and benefits for communities from energy and resource projects but also the effects on communities at multiple scales and in complex ways Sharing the costs and benefits of natural resource activity has now become a legal requirement for energy and resource projects operating in many jurisdictions particularly in developing countries This book uses cases studies from across the globe to examine the emergence of such legal measures their advantages and disadvantages and the improvements that may be feasible in the legal frameworks used to distribute the costs and benefits of energy and resources activity The book has three parts Part I considers general legal and conceptual frameworks Part II addresses the mechanisms available to distribute costs and benefits and Part III considers the role of public engagement and participation in the sharing of the costs and benefits from energy and resource projects
