

# Earl Grey

Earl Grey was the prime minister of Britain from years of 1830-1834. During that time period, Earl Grey led to the reformation in government systems, turning it into a parliamentary democracy. This parliamentary government also implemented the ways of a representative democracy. The changes in the Reform Bill of 1832 led for the King to be less involved and having the prime minister to be more involved. It also encouraged the prime minister and parliament to act as a check for the king. This type of government that he enforced is an example of Liberalism. It led for citizens and fast growing towns higher representation in the House of Commons.
