Reformation in Medieval Perspective, 1971 **Seeing the Reformation in medieval perspective** William David James Cargill Thompson, A Short History of the Reformation Helen L. Parish, 2018-08-30 When in October 1517 Martin Luther pinned his Ninety Five Theses to the door of All Saints Church in Wittenberg he shattered the foundations of western Christendom The Reformation of doctrine and practice that followed Luther s seismic action and protest against the sale of indulgences fragmented the Church and overturned previously accepted certainties and priorities But it did more challenging the relationship between spiritual and secular authority perceptions of the supernatural the interpretation of the past the role of women in society and church and clerical attitudes towards marriage and sex Drawing on the most recent historiography Helen L Parish locates the Protestant Reformation in its many cultural social and political contexts She assesses the Reformers impact on art and architecture on notions of authority scripture and tradition and reflecting on the extent to which the printing press helped spread Reformation ideas on oral print and written culture The Reformation of the Sixteenth Century Roland Bainton, 1985-09-30 Bainton presents the many strands that made up the Reformation in a single brilliantly coherent account He discusses the background for Luther s irreparable breach with the Church and its ramifications for 16th Century Europe giving thorough accounts of the Diet of Worms the institution of the Holy Commonwealth of Geneva Henry VIII s break with Rome and William the Silent s struggle for Dutch independence The Reformation of Feeling Susan C. Karant-Nunn, 2012-10-18 Susan Karant Nunn argues that the 16th century Reformation movement sought not only to modify people s doctrinal convictions and their behavior but to root these changes in altered sentiment **Historical Dictionary of the Reformation and Counter-Reformation** Michael Mullett, 2010-04-30 The Protestant Reformation of the 16th century has traditionally been viewed as marking the onset of modernity in Europe It finally broke up the federal Christendom of the middle ages under the leadership of the papacy and substituted for it a continent of autonomous and national states independent of Rome The Historical Dictionary of the Reformation and Counter Reformation provides a comprehensive account of two chains of events the Protestant Reformation and the Catholic Counter

Reformation that have left an enduring imprint on Europe America and the world at large This is done through a chronology an introductory essay a bibliography and over 300 cross referenced dictionary entries on persons places countries institutions doctrines ideas and events

Lay Theology in the Reformation Paul A. Russell, 2002-06-20 This book examines the coming of the Protestant Reformation from the viewpoint of eight common people who were sufficiently disturbed by the events of 1521 to write treatises letters dialogues and sermons which they published Their works are lively testimony to the interest of laypeople in the affairs of the church and their willingness to discuss often complex theological training These works are among the first documents of lay theology and piety but they are also propaganda disappointed with the Catholic clergy and with secular authorities the authors of these pamphlets were called to prophesy preach and convert their readers listeners lest Christ return soon to find his church unprepared They demanded a new apostolate for laypeople something the clergy had feared for centuries and something which civic authorities feared as a potential source of radical ideas

A Companion to the Reformation World R. Po-chia Hsia, 2008-04-15 This volume brings together 29 new essays by leading international scholars to provide an inclusive overview of recent work in Reformation history Presents Catholic Renewal as a continuum of the Protestant Reformation Examines Reformation in Eastern and Western Europe Asia and the Americas Takes a broad inclusive approach covering both traditional topics and cutting edge areas of debate

Luther and the Reformation of the Later Middle Ages Eric Leland Saak, 2017-04-19 In 1517 Martin Luther posted his 95 Theses an act often linked with the start of the Reformation In this work Eric Leland Saak argues that the 95 Theses do not signal Luther's break from Roman Catholicism An obedient Observant Augustinian Hermit Luther's self understanding from 1505 until at least 1520 was as Brother Martin Luther Augustinian not Reformer and he continued to wear his habit until October 1524 Saak demonstrates that Luther's provocative act represented the culmination of the late medieval Reformation It was only the failure of this earlier Reformation that served as a catalyst for the onset of the sixteenth century Protestant Reformation Luther's true Reformation discovery had little to do with justification by faith or with his 95 Theses Yet his discoveries in February of 1520 were to change everything

Scriptural Perspicuity in the Early English Reformation in Historical Theology Richard M. Edwards, 2009 A consistent indigenous English doctrine of scriptural perspicuity correlates with a commitment to the availability of the vernacular scriptures in English and supports the English roots of the Early English Reformation EER Although political events and figures dominate the EER its religious component springing from John Wyclif and streaming throughout the tradition must be recognized more widely This book critically surveys the doctrine of scriptural perspicuity from the beginning of the Church in the first century noted as early as John Chrysostom through the seventeenth century examining its impact on the current debates concerning competing hermeneutical systems reader response hermeneutics

and the debates in conservative American Presbyterianism and Reformed theology on subscription to the Westminster Confession of Faith the length of creation days and other issues Action and Person: Conscience in Late Scholasticism and the Young Luther Baylor,2022-03-07 **Are You Alone Wise?** Susan Schreiner,2011-01-11 The topic of certitude is much debated today On one side commentators such as Charles Krauthammer urge us to achieve moral clarity On the other those like George Will contend that the greatest present threat to civilization is an excess of certitude To address this uncomfortable debate Susan Schreiner turns to the intellectuals of early modern Europe a period when thought was still fluid and had not yet been reified into the form of rationality demanded by the eighteenth and nineteenth centuries Schreiner argues that Europe in the sixteenth century was preoccupied with concerns similar to ours both the desire for certainty especially religious certainty and warnings against certainty permeated the earlier era Digging beneath overt theological and philosophical problems she tackles the underlying fears of the period as she addresses questions of salvation authority the rise of skepticism the outbreak of religious violence the discernment of spirits and the ambiguous relationship between appearance and reality In her examination of the history of theological polemics and debates as well as other genres Schreiner sheds light on the repeated evaluation of certainty and the recurring fear of deception Among the texts she draws on are Montaigne's Essays the mystical writings of Teresa of Avila the works of Reformation fathers William of Occam Luther Thomas Muntzer and Thomas More and the dramas of Shakespeare The result is not a book about theology but rather about the way in which the concern with certitude determined the theology polemics and literature of an age *Rediscovering the Natural Law in Reformed Theological Ethics* Stephen J. Grabill,2006-10-05 Is knowledge of right and wrong written on the human heart Do people know God from the world around them Does natural knowledge contribute to Christian doctrine While these questions of natural theology and natural law have historically been part of theological reflection the radical reliance of twentieth century Protestant theologians on revelation has eclipsed this historic connection Stephen Grabill attempts the treacherous task of reintegrating Reformed Protestant theology with natural law by appealing to Reformation era theologians such as John Calvin Peter Martyr Vermigli Johannes Althusius and Francis Turretin who carried over and refined the traditional understanding of this key doctrine *Rediscovering the Natural Law in Reformed Theological Ethics* calls Christian ethicists theologians and laypersons to take another look at this vital element in the history of Christian ethical thought *The Power of the Cross* Graham Tomlin,2007-03-01 In a postmodern world the church cannot escape the question of power The contemporary critique of the church suggests that it reigned for so long in Western society not because it was more true than its rivals but because it was more powerful Is the Christian claim to truth merely a veiled bid for power Has not the church regularly abused its power during the years of Christendom Does Christian theology have the resources to answer these charges This book argues that it does in the quiet but recurrent theme of the theology of the cross It explores the origins and contours of this kind of theology in three of its major exponents St Paul Martin Luther and Blaise

Pascal showing how each of them turned to a theology of the cross to combat the abuse of power within the church It concludes by considering how such theology might do the same in the postmodern context Of interest to anyone concerned with the role of the church in a postmodern world or in the theology of the cross itself this book explores vital themes for the church's life and thought both today and in the future *Life in Christ* Mark A. Garcia, 2008-04-01 In three wide ranging case studies Mark A Garcia offers a comprehensive yet focused analysis of the centrality of union with Christ in Calvin's thought It explains not only the distinctive nature of Calvin's response to Rome on justification but why this response must be carefully distinguished from that of his Lutheran counterparts The fruit of these investigations is the first extensive demonstration that Calvin's exposition of union with Christ in relating justification and sanctification points to an emerging Reformed theology of justification that diverges from the Lutheran tradition Calvin's exegetical and theological model of union with Christ accents the importance in the early Reformed tradition of the relationship between Christology and salvation *Enemies of the Cross* Vincent Everer, 2021-01-05 *Enemies of the Cross* examines how suffering and truth were aligned in the divisive debates of the early Reformation Vincent Everer explores how Martin Luther along with his first intra Reformation critics offered true suffering as a crucible that would allow believers to distinguish the truth or falsehood of doctrine teachers and their own experiences To use suffering in this way however reformers also needed to teach Christians to recognize false suffering and the false teachers who hid under its mantle This book contends that these arguments which became an enduring part of the Lutheran and radical traditions were nourished by the reception of a daring late medieval mystical tradition the post Eckhartian which depicted annihilation of the self as the way to union with God The first intra Reformation dissenters Andreas Bodenstein von Karlstadt and Thomas M ntzer have frequently been depicted as champions of medieval mystical views over and against the non mystical Luther Everer counters this depiction by showing how Luther Karlstadt and M ntzer developed their shared mystical tradition in diverse directions while remaining united in the conviction that sinful self assertion prevented human beings from receiving truth and living in union with God He argues that Luther Karlstadt and M ntzer each represented a different form of ecclesial political dissent shaped by a mystical understanding of how Christians were united to God through the destruction of self assertion *Enemies of the Cross* draws on seldom used sources and proposes new concepts of revaluation and relocation to describe how Protestants and radicals brought medieval mystical teachings into new frameworks that rejected spiritual hierarchy *When Fathers Ruled* Steven Ozment, 2009-07-01 Here is a lively study of marriage and the family during the Reformation primarily in Germany and Switzerland that dispels the commonly held notion of fathers as tyrannical and families as loveless Did husbands and wives love one another in Reformation Europe Did the home and family life matter to most people In this wide ranging work Steven Ozment has gathered the answers of contemporaries to these questions His subject is the patriarchal family in Germany and Switzerland primarily among Protestants But unlike modern scholars from Philippe Arics to Lawrence Stone Ozment finds the fathers of

early modern Europe sympathetic and even admirable. They were not domineering or loveless men nor were their homes the training ground for passive citizenry in an age of political absolutism. From prenatal care to graveside grief they expressed deep love for their wives and children. Rather than a place where women and children were bullied by male chauvinists the Protestant home was the center of a domestic reform movement against Renaissance antifeminism and was an attempt to resolve the crises of family life. Demanding proper marriages for all women, Martin Luther and his followers suppressed convents and cloisters as the chief institutions of womankind's sexual repression, cultural deprivation, and male clerical domination. Consent, companionship, and mutual respect became the watchwords of marriage. And because they did genuine divorce and remarriage became possible among Christians for the first time. This graceful book restores humanity to the Reformation family and to family history.
