Nuclear Politics in America Robert J. Duffy, 1997 Duffy s work traces nuclear politics from the creation of a powerful subgovernment through the public lobby reforms of the late 1960s and early 1970s and the deregulatory backlash of the Reagan years He demonstrates that while policies did change in the 1970s they did not change as much as other accounts have suggested and that the industry continued to receive considerable federal support The book is particularly significant for extending the discussion of nuclear policy through the Bush and Clinton years including the controversy over waste disposal new licensing procedures enacted in the 1992 Amendments to the Atomic Energy Act and the effects of deregulation of electric utilities Amazon com viewed August 24 2020

The Innocence Commission Jon B. Gould, 2009-11 Beyond Exonerating the Innocent Author on WAMU Radio Convicted Yet Innocent The Legal Times Review Choice Outstanding Academic Title for 2008 DNA testing and advances in forensic science have shaken the foundations of the U S criminal justice system One of the most visible results is the exoneration of inmates who were wrongly convicted and incarcerated many of them sentenced to death for crimes they did not commit This has caused a quandary for many states how can claims of innocence be properly investigated and how can innocent inmates be reliably distinguished from the guilty In answer some states have created innocence commissions to establish policies and provide legal assistance to the improperly imprisoned The Innocence Commission describes the creation and first years of the Innocence Commission for Virginia ICVA the second innocence commission in the nation and the first to conduct a systematic inquiry into all cases of wrongful conviction Written by Jon B Gould the Chair of the ICVA who is a professor of justice studies and an attorney the author focuses on twelve wrongful conviction cases to show how and why wrongful convictions occur what steps legal and state advocates took to investigate the convictions how these prisoners were ultimately freed and what lessons can be learned from their experiences Gould recounts how a small band of attorneys and other advocates in Virginia and around the country have fought wrongful convictions in court advanced the subject of wrongful convictions in the media and sought to remedy the issue of wrongful

convictions in the political arena He makes a strong case for the need for Innocence Commissions in every state showing that not only do Innocence Commissions help to identify weaknesses in the criminal justice system and offer workable improvements but also protect society by helping to ensure that actual perpetrators are expeditiously identified arrested and brought to trial Everyone has an interest in preventing wrongful convictions from police officers and prosecutors who seek the latest and best investigative techniques to taxpayers who want an efficient criminal justice system to suspects who are erroneously pursued and sometimes convicted Free of legal jargon and written for a general audience The Innocence Commission is instructive informative and highly compelling reading **Education and the Family** Timothy J. TYACK,Larry Cuban,David B Tyack,2009-06-30 For over a century Americans have translated their cultural anxieties and hopes into dramatic demands for educational reform Although policy talk has sounded a millennial tone the actual reforms have been gradual and incremental Tinkering toward Utopia documents the dynamic tension between Americans faith in education as a panacea and the moderate pace of change in educational practices In this book David Tyack and Larry Cuban explore some basic questions about the nature of educational reform Why have Americans come to believe that schooling has regressed Have educational reforms occurred in cycles and if so why Why has it been so difficult to change the basic institutional patterns of schooling What actually happened when reformers tried to reinvent schooling Tyack and Cuban argue that the ahistorical nature of most current reform proposals magnifies defects and understates the difficulty of changing the system Policy talk has alternated between lamentation and overconfidence The authors suggest that reformers today need to focus on ways to help teachers improve instruction from the inside out instead of decreeing change by remote control and that reformers must also keep in mind the democratic purposes that guide public education **Theorising Occupational Therapy Practice in Diverse Settings** Jennifer
