Place and Dream Thorsten Botz-Bornstein, 2022-06-08 This is a book about space On a first level it reflects traditional Japanese ideas of space against various items of Western culture Among these items are Bakhtin s dialogicity Wittgenstein s Lebensform and virtual space or globalized space as representatives of the latest development of an alienated modern spatial experience Some of the Western concepts of space appear as negative counter examples to basho like Japanese places others turn out to be compatible with the Japanese idea of space On a second level the book attempts to synthesize by constantly transgressing the limits of a purely comparative activity a quantity which

the author believes to be existent in Japanese culture that is called the virtual Being Kuki Shūzō's hermeneutics of non foundation or his ontology of dream Nishida Kitarō's virtual definition of the body of state or Kimura Bin's notion of in between aida that is so closely associated with the virtual space of Noh plays what all these conceptions have in common is that they aim to transcend a flat notion of reality by developing the virtual as a complex ontological unity *Kepler's Dream* John Lear, 2023-11-15 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1965 **The Refracted Muse** Enrique García Santo-Tomás, 2017-08-08 Galileo never set foot on the Iberian Peninsula yet as Enrique García Santo-Tomás unfolds in *The Refracted Muse* the news of his work with telescopes brought him to surprising prominence not just among Spaniards working in the developing science of optometry but among creative writers as well While Spain is often thought to have taken little notice of the Scientific Revolution García Santo-Tomás tells a different story one that reveals Golden Age Spanish literature to be in close dialogue with the New Science Drawing on the work of writers such as Cervantes Lope de Vega Calderón de la Barca and Quevedo he helps us trace the influence of science and discovery on the rapidly developing and highly playful genre of the novel Indeed García Santo-Tomás makes a strong case that the rise of the novel cannot be fully understood without taking into account its relationship to the scientific discoveries of the period **Routledge Library Editions: Sleep and Dreams** Various, 2021-06-23 Routledge Library Editions Sleep and Dreams 9 Volumes brings together as one set or individual volumes a small series of previously out of print titles originally published between 1935 and 1988 An eclectic mix the set looks at sleep and dreams from a number of different perspectives including philosophy psychoanalysis and science It includes a sourcebook which reviews areas of sleep and dream research and a dictionary to help people interpret their own dreams **Sacrifice** Andrew Vachss, 1996-01-30 What or who could turn a gifted little boy into a murderous thing that calls itself Satan's Child In search of an answer a man named Burke travels from a festering welfare hotel to a neat frame house where a voodoo priestess presides over a congregation of assassins For this vigilante and unlicensed private eye has made it his business to defend the small victims whom the law has failed even a child who has been made into a killer Gripping and chillingly knowledgeable about the mechanisms of evil *Sacrifice* is a thriller of savage authority from one of the best crime writers of our generation *Surrealism and the Spanish Civil War* Robin Adèle Greeley, 2006-01-01 La obra es una nueva aproximación al tema de la respuesta de los artistas ante la guerra articulando la relación entre el esfuerzo artístico y la política durante periodos de crisis social Se analiza la amplia respuesta que la Guerra Civil Española provocó en el trabajo de Mir Dal Caballero Masson y Picasso investigando los esfuerzos del surrealismo por establecer un puente entre el pensamiento y el acto político *Descartes* Tom Sorell, 2005 This classic and challenging introduction to Descartes by one of the most distinguished
