Reframing America:

Handmaking America Bill Ivey, 2012-08-28 America has survived an economic near disaster While the state of employment and housing will one day improve we will never return to the delusional prosperity that defined the first decade of the 21st century Progressives should hold the key to quality of life in our coming post consumerist society but today Democrats have become timid our vision of the good life marginalized by three decades of partisan attacks and the think tank induced assumption that an unfettered marketplace low taxes and international adventurism will somehow give us an America capable of inspiring the world Handmaking America reaches back to the Arts and Crafts roots of progressive thought confronting the way right wing ideology and the power of post industrial capitalism have undermined work government our very way of life advancing a practical achievable vision for a good society that can use the capacity of government to recover the essential strength of the American idea **The End of Engagement** David M.

McCourt, Associate Professor of Sociology David M McCourt, 2024 In *The End of Engagement* David M McCourt traces the intense personal professional and policy struggles over China and Russia in U S foreign policy since the end of the Cold War Drawing on 200 original interviews with America s China and Russia experts from former policymakers and diplomats to prominent think tankers and academics McCourt chronicles the rise and recent fall of engagement with Beijing and Moscow Adopting a unique sociological perspective this book offers an intimate look into the world of America s national security experts as they have struggled to make sense of changes in China and Russia and the remaining question of what comes next

Public Service and Good Governance for the Twenty-First Century James L. Perry, 2020-05-01 Expert analysis of American governance challenges and recommendations for reform Two big ideas serve as the catalyst for the essays collected in this book The first is the state of governance in the United States which Americans variously perceive as broken frustrating and unresponsive Editor James Perry observes in his Introduction that this perception is rooted in three simultaneous developments government s failure to perform basic tasks that once were taken for granted an accelerating pace of change that quickly makes past standards of performance antiquated and a dearth of intellectual capital that generate the capacity to bridge the gulf between expectations and performance The second idea hearkens back to the Progressive era when Americans revealed themselves to be committed to better administration of their government at all levels federal state and local These two ideas the diminishing capacity for effective governance and Americans expectations for reform are veering in opposite directions Contributors to *Public Service and Good Governance for the Twenty First Century* explore these central ideas by addressing such questions as what is the state of government today Can future disruptions of governance and public service be anticipated What forms of government will emerge from the past and what institutions and structures will be needed to meet future challenges And lastly and perhaps most importantly what knowledge skills and abilities will need to be fostered for tomorrow s civil servants to lead and execute effectively *Public Service and Good Governance for the Twenty*

First Century offers recommendations for bending the trajectories of governance capacity and reform expectations toward convergence including reversing the trend of administrative disinvestment developing talent for public leadership through higher education creating a federal civil service to meet future needs and rebuilding bipartisanship so that the sweeping changes needed to restore good government become possible Contributors Sheila Bair William W Bradley John J DiIulio Jr Angela Evans Francis Fukuyama Donald F Kettl Ramayya Krishnan Paul C Light Shelley Metzenbaum Norman J Ornstein James L Perry Norma M Riccucci Paul R Verkuil Paul A Volcker

Kaufman, 2016-05-13 Political scientist Robert G Kaufman argues that Barack Obama has articulated a clear consistent national security policy and has pursued it with remarkable fidelity Yet Kaufman contends that President Obama has imprudently abandoned the muscular internationalism that has marked US foreign policy since the end of World War II

An End to al-Qaeda Malcolm Nance, 2025-06-25 Osama Bin Laden is unquestionably the leader of the world s most deadly terrorist cult He has perverted the teachings of Islam to create a fringe religious ideology Bin Ladenism where only al Qaeda speaks for God In his cult suicide bombing is the highest form of worship and the mass murder of Muslims proves one s devotion Al Qaeda s 9 11 attack on the United States was just a small part of Bin Laden s long term strategy to win a civil war for control of Islam By fighting his terrorists solely with bullets and bombs and ignoring his war on Islam we have bolstered Bin Laden s recruiting efforts abroad undermined civil liberties and economic security at home and tarnished America s reputation internationally Career intelligence officer Malcolm Nance proposes a quantum shift in how to eliminate

al Qaeda in less than twenty four months while recreating America's reputation as a force for good around the world His plan includes Exposing al Qaeda's mission to create a nuclear armed terror Emirate incite a Muslim civil war and eventually seize of control of Islam Challenging and breaking the perceived spiritual link between the mainstream Islam and al Qaeda's cultist ideology Attacking al Qaeda fighters through precision intelligence and special operations missions thereby reducing the deaths of innocent civilians Reframing and restoring America's shattered image in the developing world in order to support the global counterterrorism and counterinsurgency campaign An End to al Qaeda is both a revolutionary blueprint for destroying al Qaeda and a fierce critique of America's poorly executed war on Bin Laden's terrorists *Build* Sadek

"Women, Workers, and Race in LIFE Magazine " Dolores Flamiano, 2017-07-05 The tension between social reform photography and photojournalism is examined through this study of the life and work of German girl Gansel Mieth 1909-1998 who made an unlikely journey from migrant farm worker to Life photographer She was the second woman in that role after Margaret Bourke White Unlike her colleagues Mieth was a working class reformer with a deep disdain for Life's conservatism and commercialism In fact her work often subverted Life's typical representations of women workers and minorities Some of her most compelling photo essays used skillful visual storytelling to offer fresh views on controversial topics birth control vivisection labor unions and Japanese American internment during the Second World War Her dual role as reformer and photojournalist made her a desirable commodity at Life in the late 1930s and early 40s but this role became untenable in Cold War America when her career was cut short Today Mieth's life and photographs stand as compelling reminders of the vital yet overlooked role of immigrant women in twentieth century photojournalism *Women Workers and*

Race in LIFE Magazine draws upon a rich array of primary sources including Mieth's unpublished memoir, oral histories and labor archives. The book seeks to unravel and understand the multi-layered, often contested stories of the photographer's life and work. It will be of interest to scholars of photography history, women's studies, visual culture and media history. *Access* Rebecca Grant, 2025-06-24. From the award-winning author of *Birth*, a journey into the underground activist networks that have been working to protect women's autonomy over their bodies amidst legal, political, religious and cultural oppression over the past sixty years. In this definitive eye-opening history, award-winning author Rebecca Grant charts the reproductive freedom movement from the days before Roe through the seismic impact of Dobbs. The stories in *Access* span four continents, tracing strategies across generations and borders. Grant centers those activists who have been engaged in direct action to help people get the abortions they need. Their efforts involve no small measure of daring: do-spy craft, sea adventures, close calls, undercover operations, smuggling, sequins, legal dramas, victories, defeats, and above all, a deeply held conviction that all the risks are worth it for the cause. In *Access*, we meet a cast of brave, bold and unforgettable women: the founders of the Jane Collective, a group of anonymous providers working clandestinely between Chicago apartments to perform abortions in the pre-Roe years; the originators and leaders of the abortion fund movement; Verónica Cruz Sánchez, a Mexican activist who works to support self-managed abortion with pills and fights to free women targeted by the criminalization of abortion; and Rebecca Gomperts, a Dutch doctor who realizes that there is one place abortion bans cannot reach: international waters. Post-Dobbs, activist groups have once again stepped up and put themselves on the line to resist. Building on the work of their feminist forebearers and international allies, they are charting new pathways for access in the face of unprecedented acts to subjugate and control half of America's population. Working above ground, underground, and in legal gray areas, they've helped people travel across state lines for care, established telehealth practices, and formed community networks to distribute pills for free to people who needed them. Drawing on expert research and investigative reporting, told with deep compassion and humanity by a journalist who has spent her career on the frontlines of the fight, *Access* celebrates the bravery, ingenuity, and determination of women across decades who have fought for a fundamental human right and serves as an inspiring rallying cry for the work that lies ahead.

Rendering Violence Ross Barrett, 2014-08-29. *Rendering Violence* explores the problems and possibilities that the subject of political violence presented to American painters working between 1830 and 1890, a turbulent period during which common citizens frequently abandoned orderly forms of democratic expression to riot, strike and protest violently. Examining a range of critical texts, this book shows for the first time that nineteenth-century American aesthetic theory defined painting as a privileged vehicle for the representation of political order and the stabilization of liberal democratic life. Analyzing seven paintings by Thomas Cole, John Quidor, Nathaniel Jocelyn, George Henry Hall, Thomas Nast, Martin Leisser, and Robert Koehler, Ross Barrett reconstructs the strategies that American artists developed to explore the symbolic power of violence in a medium aligned ideologically with lawful democracy. He argues that American paintings

of upheaval render their subjects in divergent ways By exploring the inner conflicts that structure these painterly projects Barrett sheds new light on the politicized pressures that shaped visual representation in the nineteenth century and on the anxieties and ambivalences that have long defined American responses to political turmoil *Living in the Crosshairs* David S. Cohen, Krysten Connon, 2016 A chilling exposé of the threats harassment and worse that American abortion providers face on a daily basis and groundbreaking remedies to stop it *Power Shifts and Global Governance* Ashwani Kumar, Dirk Messner, 2011 *Power Shifts and Global Governance* Challenges from South and North presents an eclectic theoretical framework for emerging architectures of global governance through examining country and regional case studies from the perspective of great power shifts in the twenty first century The book analytically and empirically explores the role of global civil society discusses the implications of the rise of India and China analyses regional security issues in Latin America and the Middle East and develops proposals for possible summit and UN reforms **History of Photography** Laurent

Roossens, Luc Salu, 1989-01-01 The fourth volume in a history of photography this is a bibliography of books on the subject
