*Refugee Law in Context: The Exclusion Clause* Peter Van Krieken, 1999-11-02 Both the 1951 Refugee Convention and the 1948 Universal Declaration of Human Rights clearly indicate those asylum seekers who should be excluded from refugee status excluded from asylum The refugee lawyer in order to fully appreciate the importance and relevance of this principle needs to look beyond refugee law proper The insight needed for the decision whether or not to apply the so called exclusion clause is to be found elsewhere within the realms of international law international humanitarian law international criminal law and United Nations law In this publication contributors pay ample attention to developments in these related fields Complemented with a wealth of relevant materials including informative treaties conventions and draft resolutions on these very themes this book is an indispensable guide for all those involved with asylum seekers refugees and the upholding of the principles of refugee law This collection amounts to a true Article 1F Handbook

**The UNHCR and the Supervision of International Refugee Law** James C. Simeon, 2013-08-15 The 1951 Convention relating to the Status of Refugees and its 1967 Protocol and many other important international instruments recognize the unique role the UNHCR plays in protecting refugees and supervising international refugee law This in depth analysis of the UNHCR's supervisory role in the international refugee protection regime examines the part played by key institutions organizations and actors in the supervision of international refugee law It provides suggestions and recommendations on how the UNHCR's supervisory role can be strengthened to ensure greater State Parties compliance to their obligations under these international refugee rights treaties and contributes to enhancing the international protection of refugees and to the promotion of a democratic global governance of the international refugee protection regime

**Children's Rights and Refugee Law** Samantha Arnold, 2017-08-09 Children make up half of the world's refugees and over 40 per cent of the world's asylum seekers However children are largely invisible in historical and contemporary refugee law Furthermore there has been very limited interaction between the burgeoning children's rights framework in particular the Convention on the Rights of the Child CRC and the 1951 Convention relating to the Status of Refugees Refugee Convention This book explores the possibility of a children's rights approach to the interpretation of the Refugee Convention and within that what such an approach might look like In order to construct a children's rights approach the conceptualisations of children outside the legal discipline within international children's rights law and then within refugee law and refugee discourse are analysed The approach taken is socio legal and comparative in nature and the suitability of the Refugee Convention as a framework for the interpretation of child claims is examined The

book analyses to what extent the Refugee Convention is capable of dealing with claims from children based on the modern conceptualisation of children which is underscored by two competing ideologies the child as a vulnerable object in law to be protected and the child as subject with rights and the capacity to exercise their agency The influence each regime has had on the other is also analysed The work discusses how a children s rights approach might improve outcomes for child applicants The book makes an original contribution to child refugee discourse and as such will be an invaluable resource for academics researchers and policymakers working in the areas of migration and asylum law children s rights and international human rights law
