Goya Janis Tomlinson, 2020-09-15 The first major English language biography of Francisco Goya y Lucientes who ushered in the modern era The life of Francisco Goya 1746-1828 coincided with an age of transformation in Spanish history that brought upheavals in the country's politics and at the court which Goya served changes in society the devastation of the Iberian Peninsula in the war against Napoleon and an ensuing period of political instability In this revelatory biography Janis Tomlinson draws on a wide range of documents including letters court papers and a sketchbook used by Goya in the early years of his career to provide a nuanced portrait of a complex and multifaceted painter and printmaker whose art is synonymous with compelling images of the people events and social revolution that defined his life and era Tomlinson challenges the popular image of the artist as an isolated figure obsessed with darkness and death showing how Goya's likeability and ambition contributed to his success at court and offering new perspectives on his youth rich family life extensive travels and lifelong friendships She explores the full breadth of his imagery from scenes inspired by life in Madrid to visions of worlds without reason from royal portraits to the atrocities of war She sheds light on the artist's personal trials including the deaths of six children and the onset of deafness in middle age but also reconsiders the conventional interpretation of Goya's late years as a period of disillusion viewing them instead as years of liberated artistic invention most famously in the murals on the walls of his country house popularly known as the black paintings A monumental achievement Goya A Portrait of the Artist is the definitive biography of an artist whose faith in his art and his genius inspired paintings drawings prints and frescoes that continue to captivate challenge and surprise us two centuries later

Historia económica del Aragón contemporáneo Luis G. Germán, 2012 *La desamortización de Madoz en la provincia de Almería (1855-1936)* Juan Pedro Vázquez Guzmán, 2011-10-13

El tema de las desamortizaciones o la desvinculación de los bienes rústicos y urbanos ha sido uno de los que más páginas han ocupado en nuestros libros de historia llegando en algunos momentos a convertirse en tema estrella por el protagonismo adquirido en el debate historiográfico en un país como el nuestro en el que la tierra y su posesión ha conformado el núcleo central y el objeto no sólo del debate económico sino de la propia confrontación social y política Hoy sabemos que los distintos procesos desamortizadores que se han sucedido y sobre todo las últimas fases con inspiración en la Francia revolucionaria han jugado un importante papel en la modernización de la agricultura española aunque en aspectos tan relevantes como el aumento de la productividad influyeron además de los aspectos técnicos otros factores como la supresión de los mayorazgos de los diezmos de la Mesta y otros como la mejora de las comunicaciones el aumento demográfico etc También hoy con las investigaciones recientes debemos ponderar la gran importancia de la pequeña propiedad en la conformación del espacio agrario y que ha venido a superar la relación dual terrateniente jornalero En la provincia de Almería de la fase de Madoz sólo conocemos algunos aspectos parciales y los datos globales publicados a nivel nacional que en líneas generales no difieren sustancialmente de los que aporta nuestra investigación La cronología de nuestro trabajo que se alarga hasta 1936 viene impuesta por la fecha de la última subasta y este punto representa una particularidad con respecto a otras investigaciones homologas También son novedosas cuestiones como la redención de los censos el protagonismo ritmo número cuantía etc que los bienes enajenados de las distintas Instituciones alcanzan Otro aspecto novedoso a destacar es el análisis de los efectos de la crisis finisecular y las derivaciones de bienes particulares incautados por el Estado que sin ser propiamente de manos muertas se enajenan con la cobertura jurídica y administrativa de la legislación desamortizadora En los apartados cuantitativos el comportamiento de la desamortización en la provincia almeriense se aparta de los datos de Andalucía y de los de España En Almería más del 92% de la superficie enajenada lo es tras la legislación de Madoz mientras que en Andalucía y España 55 5% y 48 1% respectivamente el proceso es más suave y escalonado Otra de las cuestiones a tener en cuenta es el escaso peso en términos relativos que el proceso desamortizador supuso con respecto a la población provincial Las fincas subastadas en Almería representan el 0 6% del total español cifra desfasada con respecto al peso demográfico provincial casi el 2% de la población española También los valores porcentuales de la inversión por superficie nos arrojan valores inferiores a los andaluces y nacionales con una media del 21 3 % para Almería mientras en Andalucía supuso un 39 4 % más El limitado impacto inversor en la provincia parece derivado de la debilidad de la economía provincial en su conjunto aunque sabemos que determinados sectores económicos mantuvieron una actividad inversora relevante como es el caso de la minería con un comportamiento aparentemente contradictorio al detraer inversiones de la desamortización hacia la minería para a su vez

invertir en aquellos beneficios procedentes del negocio minero Considerando el periodo 1836 1895 es decir la fase de Mendizbal y el periodo más importante de la de Madoz la recaudación alcanzó casi 11 5 millones de pesetas de los que el 35 7% corresponden al periodo 1836 1849 y 64 3% restante al de 1855 1895 Las cifras porcentuales anteriores son homologables con las españolas en los dos periodos superior a la andaluza con Mendizbal 26 32 % e inferior con Madoz 73 67 %
