Morefield, 2021-11-16 This collection presents essays that lay out the author's Christian approach to film criticism and reviews that exemplify this critic at his most perceptive Including interviews with award winning actors and directors this volume draws heavily on the author's academic expertise and his decade of experience as an acclaimed film journalist Whether examining the latest Hollywood blockbuster a topical documentary or an indie festival favorite the book subtly but carefully draws attention to how films can speak to Christians and how Christian voices can enrich the conversations around

their meaning and relevance

Film Criticism and Digital Cultures Andrew McWhirter, 2016-08-26

The critic is dead. Everyone's a critic. These statements reflect some of the perceptions of film criticism in a time when an opinion can be published in seconds yet reach an audience of millions. This book examines the reality of contemporary film criticism by talking to leading practitioners in the UK and North America such as Nick James, Mark Cousins, Jonathan Rosenbaum, and Richard Porton, and by covering a broad spectrum of influential publications including *Sight & Sound*, *The Guardian*, *Cineaste*, *indieWIRE*, and *Variety*. Forming a major new contribution to an emerging field of study, these enquiries survey the impact of larger cultural, economic, and technological processes facing society, media, and journalism. Historical perspectives on criticism from ancient times and current debates in journalism and digital media are used to unravel questions such as: what is the relationship between crisis and criticism? In what way does the web change the functions and habits of practitioners? What influences do film industries have on the critical act? And how engaged are practitioners with converged and creative film criticism, such as the video essay? In the face of transformative digital idealism, empirical findings here redress the balance and argue the case for evolution rather than revolution taking place within film criticism.

Reading the Comments Joseph Michael Reagle, 2015-04-24

What we can learn about human nature from the informative, manipulative, confusing, and amusing messages at the bottom of the web. Online comment can be informative or misleading, entertaining or maddening. Haters and manipulators often seem to monopolize the conversation. Some comments are off-topic or even topic-less. In this book, Joseph Reagle urges us to read the comments. Conversations on the bottom half of the Internet, he argues, can tell us much about human nature and social behavior. Reagle visits communities of Amazon reviewers, fan-fiction authors, online learners, scammers, freethinkers, and mean kids. He shows how comment can inform us, improve us through feedback, manipulate us through fakery, alienate us through hate, shape us through social comparison, and perplex us. He finds pre-Internet historical antecedents of online comment in Michelin stars, professional criticism, and the wisdom of crowds. He discusses the techniques of online fakery, distinguishing makers, fakers, and takers; describes the emotional work of receiving and giving feedback; and examines the culture of trolls and haters, bullying, and misogyny. He considers the way comment, a nonstop stream of social quantification and ranking, affects our self-esteem and well-being. And he examines how comment is puzzling, short, and asynchronous: these messages can be slapdash, confusing, amusing, revealing, and weird, shedding context in their passage through the Internet, prompting readers to comment in turn. WTF.

Film Criticism, the Cold War, and the Blacklist Jeff Smith, 2014-03-26

Film Criticism, the Cold War, and the Blacklist examines the long-term reception of several key American films released during the postwar period, focusing on the two main critical lenses used in the interpretation of these films: propaganda and allegory. Produced in response to the hearings held by the House Committee on Un-American Activities

HUAC that resulted in the Hollywood blacklist these films ideological message and rhetorical effectiveness was often muddled by the inherent difficulties in dramatizing villains defined by their thoughts and belief systems rather than their actions Whereas anti Communist propaganda films offered explicit political exhortation allegory was the preferred vehicle for veiled or hidden political comment in many police procedurals historical films Westerns and science fiction films Jeff Smith examines the way that particular heuristics such as the mental availability of exemplars and the effects of framing have encouraged critics to match filmic elements to contemporaneous historical events persons and policies In charting the development of these particular readings Film Criticism the Cold War and the Blacklist features case studies of many canonical Cold War titles including *The Red Menace* *On the Waterfront* *The Robe* *High Noon* and *Invasion of the Body Snatchers*

Building a New China in Cinema Laikwan Pang, 2002 Building a New China in Cinema introduces English readers for the first time to one of the most exciting left wing cinema traditions in the world This unique book explores the history ideology and aesthetics of China's left wing cinema movement a quixotic film culture that was as political as commercial as militant as sensationalist Originating in the 1930s it marked the first systematic intellectual involvement in Chinese cinema In this era of turmoil and idealism the movement's films were characterized by fantasies of heroism intertwined with the inescapable spell of impotency thus exposing the contradictions of the filmmakers underlying ideology as their political and artistic agendas alternately fought against or catered to the taste and viewing habits of a popular audience Political cinema became a commercially successful industry resulting in a film culture that has never been replicated Drawing on detailed archival research Pang demonstrates
