Regards to the Man in the Moon , Regards to the Man in the Moon Ezra Jack Keats,2009-05-28 When the other kids make fun of Louie and call his father the junkman his dad explains that the so called junk he loves can take you right out of this world with a little imagination So Louie builds the spaceship Imagination I and blasts off into his own space odyssey Reissued just in time for the fortieth anniversary of the first lunar landing this fantastical Keats adventure celebrates the power of imagination **Regards to the Man in the Moon** Audrey A. By John Gill. [Edited by David A. Doudney. With a Portrait.]** ,1853 *Shoemaker by Levy - The Man Who Made an Impact* David H. Levy,2002-11-24 It was a lucky twist of fate when in the early1980s David Levy a writer and amateur astronomer joined up with the famous scientist Eugene Shoemaker and his wife Carolyn to search for comets from an observation post on Palomar Mountain in Southern California Their collaboration would lead to the 1993 discovery of the most remarkable comet ever recorded Shoemaker Levy 9 with its several nuclei five tails and two sheets of debris spread out in its orbit plane A year later Levy would be by the Shoemakers side again when their comet ended its four billion year long journey through the solar system and collided with Jupiter in the most stunning astronomical display of the century Not only did this collision revolutionize our understanding of the history of the solar system but it also offered a spectacular confirmation of one scientist s life work As a close friend and colleague of Shoemaker who died in 1997 at the age of 69 Levy offers a uniquely insightful account of his life and the way it has shaped our thinking about the universe Early in his training as a geologist Shoemaker suspected that it wasn t volcanic activity but rather collisions with comets and asteroids that created most of the craters on the moon and most other bodies in the solar system Convincing the scientific community of the plausibility of impact theory and revealing its power for penetrating mysteries such as the extinction of the dinosaurs and the timing of the Earth s eventual demise became Shoemaker s mission Through conversations with Shoemaker and his family Levy reconstructs the journey that began with a young geologist s serious desire to go to the moon in the late1940s Sent by the government to find a way to harvest plutonium Shoemaker instead found evidence in desert craters for what became his impact theory While he never became an astronaut he did become the first geologist hired by NASA and subsequently set the research agenda for the first manned lunar landing After a series of victories and setbacks for Shoemaker the collision of Shoemaker Levy 9 with Jupiter provided the most convincing proof to date of the role of impacts in our solar system Levy s explanation of the scientific reasoning that guided Shoemaker in his career up to this dramatic point as well as his personal portrait of a man who found white water rafting to be an easy way to relax sets these fascinating events in a human scale

This biography shows what Shoemaker's legacy will be for our understanding of the story of the Earth well into the twenty first century *Official Reports of the Debates of the House of Commons of the Dominion of Canada* Canada.
