Regency to Empire Victor I. Carlson, David P. Becker, Baltimore Museum of Art, Museum of Fine Arts, Boston, Minneapolis Institute of Arts, 1984     **Regency to Empire**, 1984     *Eighteenth-century French Drawings in New York Collections* Perrin Stein, Mary Tavenor Holmes, Metropolitan Museum of Art (New York, N.Y.), 1999     *15th-18th Century French Drawings in the Metropolitan Museum of Art* Metropolitan Museum of Art (New York, N.Y.), Jacob Bean, 1986     *Visualizing the Nation* Joan B. Landes, 2018-08-06 Popular images of women were everywhere in revolutionary France Although women's political participation was curtailed female allegories of liberty justice and the republic played a crucial role in the passage from old regime to modern society In her lavishly illustrated and gracefully written book Joan B Landes explores this paradox within the workings of revolutionary visual culture and traces the interaction between pictorial and textual political arguments Landes highlights the widespread circulation of images of the female body notwithstanding the political leadership's suspicions of the dangers of feminine influence and the seductions of visual imagery The use of caricatures and allegories contributed to the destruction of the masculinized images of hierarchic absolutism and to forging new roles for men and women in both the intimate and public arenas Landes tells the fascinating story of how the depiction of the nation as a desirable female body worked to eroticize patriotism and to bind male subjects to the nation state Despite their political subordination women too were invited to identify with the project of nationalism Recent views of the French Revolution have emphasized linguistic concerns in contrast Landes stresses the role of visual cognition in fashioning ideas of nationalism and citizenship Her book demonstrates as well that the image is often a site of contestation as individual viewers may respond to it in unexpected even subversive ways     Artists and Amateurs Perrin Stein, Charlotte Guichard, Rena Hoisington, Elizabeth Rudy, Metropolitan Museum of Art (New York, N.Y.), 2013-10-29 Catalog of an exhibition held at the Metropolitan Museum of Art New York October 1 2013 January 5 2014     *Artists and Amateurs* Perrin Stein, Charlotte Guichard, Rena M. Hoisington, Elizabeth M. Rudy, Metropolitan Museum of Art (New York, N.Y.), 2013 Catalog of an exhibition held at the Metropolitan Museum of Art New York October 1 2013 January 5 2014     *Printing Colour 1700-1830* Margaret Morgan Grasselli, Elizabeth Savage, 2024-12-27 From the invention of four colour separation printing c 1710 to the introduction of chromolithography c 1830 *Printing Colour 1700 1830* offers the first survey of eighteenth century colour printmaking in and beyond western Europe dynamically expanding print history to include such diverse consumer goods as clothing wallpapers and pottery     *Printing Colour 1400-1700*, 2015-08-24 In *Printing Colour 1400 1700* Ad Stijnman and Elizabeth Savage offer the first handbook of early modern colour printmaking before 1700 when most such histories begin creating a new interdisciplinary paradigm for the history of graphic art It unveils a corpus of thousands of individual colour prints from across early modern Europe proposing art historical bibliographical technical and scientific contexts for understanding them and their markets The twenty three contributions represent the state of research in this still emerging field From the first

known attempts in the West until the invention of the approach we still use today blue red yellow black key now CMYK it demonstrates that colour prints were not rare outliers but essential components of many early modern book print and visual cultures

**Arts**, 1985 Some issues include the Annual report of the Minneapolis Society of Fine Arts

**French Master Drawings from the Collection of Muriel Butkin** Carter E. Foster, Sylvain Bellenger, Patrick Shaw Cable, Cleveland Museum of Art, 2001 Accompanying an exhibition at the Cleveland Museum of Art last fall and now at the Dahesh Museum in New York this catalog focuses upon the French drawings in Muriel Butkin's highly specialized collection which she has promised to the Cleveland Museum To assemble her diverse yet nicely integrated set of drawings Butkin started buying 18th century French drawings when they were affordable In the mid 1970s with the guidance of art historian Gabriel Weisberg she expanded her collection to include 19th century French drawings These drawings were counter to the mainstream impressionist and postimpressionist taste of the time and focused more on academic French subject matter such as life drawings portraits or compositional studies In the preface Butkin herself reinforces her taste by saying that drawings are much more personal and spontaneous than paintings often demonstrating the artistic process Foster curator of drawings at the Cleveland Museum and other scholars present a well researched volume that contributes new information to a very specialized field of art history It is greatly disappointing however that the bulk of the reproductions are in black and white often missing the subtly colored tones in many of the drawings Nonetheless this is recommended for museum and academic libraries that support graduate programs in art history 183 b/w illustrations

**in Marie Antoinette's Court** Sarah Grant,2018-09-03 This comprehensive book brings to light the portraits private collections and public patronage of the princesse de Lamballe a pivotal member of Marie Antoinette s inner circle Drawing extensively on unpublished archival sources Sarah Grant examines the princess s many portrait commissions and the rich character of her private collections which included works by some of the period s leading artists and artisans The book sheds new light on the agency sorority and taste of Marie Antoinette and her friends a group of female patrons and model of courtly collecting that would be extinguished by the coming revolution Visualizing the Revolution Rolf Reichardt,Hubertus Kohle,2008 The authors explore the complex many faceted visual culture of the French Revolution which took place in a period characterised by the creation of a new visual language steeped in metaphor symbol and allegory Disorienting Vision Inge E. Boer,2022-06-08 This book begins with a painting Loyalty to cultural artefacts listening carefully to what they have to say is the secret of Inge E Boer s approach to the French Orientalists tradition In a post Said manner Boer provides close readings of philosophical and literary texts paintings prints and other artefacts Her readings establish a dialogue with critical post colonial and feminist theory as well as art historical and literary scholarship She treats all these artefacts like subjects in their own right enabling them to show and tell This dialogic attention to detail makes for an innovative vision that shuns the sweeping statements of a priori conviction as much as avoiding the unwitting endorsements that the rhetoric of scholarship sometimes promotes Ordering Colours in 18th and Early 19th Century Europe Tanja C. Kleinwächter,Sarah Lowengard,Friedrich Steinle,2023-10-04 This book describes the international effort to give order to colours and thus facilitate communication about it two topics deemed essential to a modernising world that were also recognizably complex Expert essays will enhance readers understanding of the struggle to coordinate nature with art at a time when approaches to both were undergoing rapid change Ordering Colours shows how such seemingly trivial concerns as identifying the basic colours and disseminating appropriate colour diagrams had to meet philosophical scientific and professional needs across

Europe Contributors detail the many schemes for colour systematization and their real world applications questions of concern to both academic and manufacturing focused investigators throughout the long 18th century They bring together original research and new thinking about landmark early modern studies to address important developments as well as neglected historical contributions of European arts sciences and economies This collection is an important addition to the libraries of all who are interested in public culture and manufacturing developments in the early modern period and is aimed at historians of art technology philosophy and physics
