A Cultural History of Plants in the Seventeenth and Eighteenth Centuries covers the period from 1650 to 1800 a time of global exploration and the discovery of new species of plants and their potential uses Trade routes were established which brought Europeans into direct contact with the plants and people of Asia Oceania Africa and the Americas Foreign and exotic plants become objects of cultivation collection and display whilst the applications of plants became central not only to naturalists landowners and gardeners but also to philosophers artists merchants scientists and rulers As the

Enlightenment took hold the natural world became something to be grasped through reasoned understanding The 6 volume set of the Cultural History of Plants presents the first comprehensive history of the uses and meanings of plants from prehistory to today The themes covered in each volume are plants as staple foods plants as luxury foods trade and exploration plant technology and science plants and medicine plants in culture plants as natural ornaments the representation of plants Jennifer Milam is Pro Vice Chancellor and Professor of Art History University of Newcastle Australia Volume 4 in the Cultural History of Plants set General Editors Annette Giesecke University of Delaware USA and David Mabberley University of Oxford UK Bourgeois and Aristocratic Cultural Encounters in Garden Art, 1550-1850 Michel Conan, 2002 Developments in garden art cannot be isolated from the social changes upon which they either depend or have some bearing Bourgeois and Aristocratic Cultural Encounters in Garden Art 1550 1850 offers an unparalleled opportunity to discover how complex relationships between bourgeois and aristocrats have led to developments in garden art from the Renaissance into the Industrial Revolution irrespective of stylistic differences These essays show how garden creation has contributed to the blurring of social boundaries and to the ongoing redefinition of the bourgeoisie and the aristocracy Also illustrated is the aggressive use of gardens by bourgeois in more or less successful attempts at subverting existing social hierarchies in renaissance Genoa and eighteenth century Bristol England as well as the opposite as demonstrated by the king of France Louis XIV who claimed to rule the arts but imitated the curieux fleuristes a group of amateurs from diverse strata of French society Essays in this volume explore this complex framework of relationships in diverse settings in Britain France Biedermeier Vienna and renaissance Genoa The volume confirms that gardens were objects of conspicuous consumption but also challenges the theories of consumption set forth by Thorstein Veblen and Pierre Bourdieu and explores the contributions of gardens to major cultural changes like the rise of public opinion gender and family relationships and capitalism Garden history then informs many of the debates of contemporary cultural history ranging from rural management practices in early seventeenth century France to the development of a sense of British pride at the expansive Vauxhall Gardens favored equally by the legendary Frederick Prince of Wales and by the teeming London masses This volume amply demonstrates the varied and extensive contributions of garden creation to cultural exchange between 1550 and 1850 Publisher's description **The Flowering of the Landscape Garden** Mark Laird, 1999-03-23 Mark Laird offers a wealth of visual and literary materials to revolutionize our understanding of the English landscape garden as a powerful cultural expression **Capability Brown, Royal Gardener** Jonathan Finch, Jan Woudstra, 2020-10-26 Lancelot Capability Brown was one of the most influential landscape designers of the eighteenth century at a time when Britain was changing radically from an agrarian to an industrial and colonial nation whilst Europe was periodically convulsed by war and revolution The extent and nature of his influence are however fiercely debated Brown worked at hundreds of important sites across England and his name became synonymous with the English Garden style which was copied across Northern Europe and entranced Catherine the Great who

remodelled her landscapes in St Petersburg to reflect the new style He was f ted in his time and recognised by the Crown but Brown s style was readily copied over his later life and particularly after his death Arguably this ubiquity led to the denigration of his achievements and even his character particularly by the agents of the Picturesque The lack of any personal primary material from Brown forcing scholars to rely on his landscapes contracts and bank accounts has hindered attempts to provide a rounded and credible account of the man and his works However by exploring his team of associates and his role as Royal Gardener new light can be thrown on the man his landscapes and his landscape legacy Bringing together a number of perspectives from across Northern Europe Capability Brown Royal Gardener explores the lasting international impact of Brown With Brown s position as Royal Gardener at its heart this book explores for the first time his business methods working methods and European influence It assesses how crucially Brown s work practices placed him within the world of nurserymen and landscape designers and how his business practices and long term relationships with draughtsmen and designers allowed him to manage a huge number of projects and a substantial financial turnover This in turn allowed him to work in a way that promoted and advanced his style of landscape Edited by Professor Jonathan Finch University of York and Dr Jan Woudstra University of Sheffield and with a varied range of engaging contributors drawn internationally from archaeology art history history and landscape architecture Capability Brown Royal Gardener weaves together strands from across a broad range of disciplinary interests It makes an important contribution to the scholarly discussion of Brown s work the work of his collaborators and legacy in the UK and across Northern Europe Relevant to students and academics at all levels this volume throws new light on Capability Brown and his impact on the business of place making in Northern Europe
