Postcolonialism the politics of ethnic and religious identity and the role of women in African society and politics have become important and often connected foci in African studies Here fifteen chapters explore these themes in tandem With essays that span the continent this volume showcases the political histories challenges and promise of contemporary Africa Written in honor of Crawford Young a foundational figure in the study of African politics the essays reflect the breadth and intellectual legacy of this towering scholar and illustrate the vast impact Young had and continues to have on the field The book s themes build from his seminal publications and the essays were written by leading scholars who were trained by Young **W. E. B. Du Bois, Ethiopianism, and Black Internationalism** Ras Wayne A. Rose,2023-11-15 Scholarship on Black internationalism has experienced a revival Whilst this scholarship has increasingly turned towards examining Du Bois s thoughts on the color line in a global rather than national context none do so by centering his Ethiopian centered perspective This book provides an examination of Du Bois s efforts to link African Americans Afro Caribbean and the Pan African project to Ethiopia as a response to the emerging question of Black historical identity For Du Bois Ethiopia Ethiopian history and its monarchical leadership were essential to resolving the global problem of the color line He believed that Africans in the Diaspora especially in the United States and Africans across Ethiopia should build reciprocal relations with Ethiopia for the benefit of the Black Race and their mutual development Du Bois also made multiple attempts to engage and establish relations with Ethiopia and worked through official and unofficial channels to develop those relations By revisiting and reevaluating Du Bois s engagement strategies with Ethiopia the book suggests ways in which his evolving Pan Africanism might be understood differently to how it has been deployed in scholarship on Black internationalism The book provides new perspectives on Du Bois s famous invocation of the global color line by uncovering his conceptual and practical reasons for specifically connecting Ethiopia to African Americans and the issues of global social and economic justice

Pan-Nationalism as a Category in Theory and Practice Alexander Maxwell,2023-05-22 How is pan nationalism different from other forms of nationalism This book explores the diversity of pan nationalism in both theory and practice Drawing on Rogers Brubaker the book introduces pan nationalism as a category of practice It shows that pan nationalism implied transcending political frontiers intermittently possessed a pejorative subtext and differed from unmodified

nationalism partly due to a retroactively applied success failure criterion Pan nationalists always look across political frontiers but do not always want a single pan national state The book explores the diversity of pan nationalism through case studies and a selection of pan national movements such as Habsburg pan Slavism from both the Slavic and Hungarian perspective pan Saxonism in Europe and North America pan Ethiopianism and pan Somalism in the horn of Africa and pan Hinduism online The book will be of interest to students and researchers of politics including comparative politics various forms of nationalism and history The chapters in this book were originally published as a special issue of Nationalism and Ethnic Politics

The Horn of Africa since the 1960s Aleksi Ylönen, Jan Záhorký, 2017-02-17 The Horn of Africa has long been one of the most dynamic and politically turbulent sub regions on the African continent Host to great ancient civilizations diverse peoples and expansive states the region has experienced massive social economic and political transformations which have given rise to military coups revolutions and intractable ethnic socio economic and religious conflicts This comprehensive volume brings together a team of expert scholars who analyze international regional national and local affairs in the Horn of Africa The chapters demonstrate the intertwined nature of the actors and forces shaping political realities The case studies focusing on Ethiopia Eritrea Somalia Somaliland Sudan and South Sudan eloquently illustrate the complex dynamics connecting the spectrum of political issues in the region The Horn of Africa since the 1960s will be of interest to students and scholars of contemporary Africa and political science
