Rey Del Capital:

The Medical Examiner and General Practitioner, 1904 , **The Journal of American Folklore**, 1926 **En el mundo interior del capital** Peter Sloterdijk, 2014-11-01 A la conexión entre relato y filosofía que constituye la característica sobresaliente de los libros de Peter Sloterdijk hay que añadir el hecho de que a comienzos del siglo XXI se pueda contar con algo radicalmente revolucionario con respecto a la globalización. Esto se debe a que el autor se toma en serio las consecuencias históricas que van unidas a la imagen de la Tierra como globo proponiendo la tesis de que lo que se elogia o vitupera como globalización es la fase final de un proceso y de que ya es posible detectar elementos de una nueva época ulterior a la globalización. En la fase final de la globalización el sistema mundial se ha desarrollado plenamente y en tanto sistema capitalista determina todas las circunstancias de la vida. El Crystal Palace de Londres, lugar de la primera Exposición Universal de 1851, le sirve a Peter Sloterdijk como metáfora de esta situación: el palacio pone ante los ojos la inevitable exclusividad de la globalización: la edificación de una contextura de confort es decir la construcción y despliegue de un espacio interior de mundo cuyos límites aunque invisibles son prácticamente insuperables desde fuera. **El código del capital** Katharina Pistor, 2022-04-01 Que el capital reproduce la riqueza y que eso lo ha puesto en el centro de las economías modernas lo sabemos bien. Lo que no sabemos o no sabemos hasta la aparición de *El código del capital* es exactamente qué es el capital y cómo es que activos tan aparentemente inocuos como una parcela de tierra o una línea de código digital pueden convertirse en riqueza. En *El código del capital* Katharina Pistor, una de las estudiosas más novedosas del derecho, lo explica con claridad mostrando cómo las leyes se han entrelazado para que los abogados puedan codificar ciertos activos para la producción y reproducción de la riqueza invistiéndolos de los atributos clave para ello y usando distintos medios legales. Pistor desvela en este volumen escrito con extraordinaria claridad y fluidez la naturaleza acumulativa del derecho, la complicidad del Estado con las estrategias privadas de codificación de riqueza, la multiplicidad de actores involucrados en el proceso y la notoria ausencia de una mente maestra controlándolo todo. *El código del capital* fue nombrado uno de los mejores libros de 2019 por el Financial Times y Business Insider. **Barcelonan Okupas** Stephen Luis Vilaseca, 2013-09-24 *Barcelonan Okupas* Squatter Power is the first book to combine close readings of the representations of Spanish squatters known as okupas with the study of everyday life, built environment and city planning in Barcelona. Vilaseca broadens the scope of Spanish cultural studies by integrating into it notions of embodied cognition and affect that respond to the city before and against the fixed relations of capitalism. Social transformation as demonstrated by the okupas is possible when city and art interrelate not through capital or the urbanization of consciousness but through bodily thought. The okupas reconfigure the way thoughts, words, images and bodily responses are linked by evoking and communicating the idea of free exchange and openness through art, poetry, music, performance, art, the plastic arts, graffiti, urban art and cinema and by acting out and rehearsing these ideas in the practice of squatting. The okupas challenge society to differentiate the images and representations.

instituted by state domination or capitalist exploitation from the subversive potential of imagination The okupas unify theory and practice word and body in pursuit of a positive social vision that might serve humanity and lead the way out of the current problems caused by capitalism
